SECTION II - SUMMARY OF OFFER DOCUMENTS

A. SUMMARY OF OUR BUSINESS OVERVIEW

OUR COMPANY

Our Company was originally incorporated on July 30, 2010 as a Private Limited Company as “GP Eco Solutions India Private Limited” vide Registration No. 041528 under the provisions of the Companies Act, 1956 with the Registrar of Companies, Kanpur. Our company converted from a Private Limited Company to Public Limited Company, pursuant to a special resolution passed by the Shareholders at their Extra-Ordinary General Meeting held on October 25, 2023. Consequently, the name of our Company was changed to “GP Eco Solutions India Limited” and a Fresh Certificate of Incorporation consequent to Conversion was issued on November 17, 2023 by the Registrar of Companies, Kanpur. The Corporate Identification Number of our Company is U31908UP2010PLC041528.

However various amendments in the name of the company took place between the said period, to know more about such amendments please refer to “*Our History and Certain Other Corporate Matters*” at page no. 131.

OUR BUSINESS

Our company is involved in the distribution of a wide range of solar inverters and solar panels. Our company is an authorized distributor of Sungrow India Pvt Ltd or “Sungrow” for Solar Inverters in North India, and we are also authorized distributors for Saatvik Green Energy Private Limited or “Saatvik” and LONGi Solar Technology Co. Ltd or “LONGi” for solar panels in North India. Additionally, we serve as an integrated solar energy solutions provider, delivering comprehensive engineering, procurement, and construction (“EPC”) services to our commercial and residential customers, however the contribution of this segment is comparatively very less as compared to business of distribution of solar inverters and solar panels.

Our company also has its own brand called “Invergy”. Under the Invergy brand, we sell hybrid solar inverters and lithium ferro phosphate (LFP) batteries. Invergy deals in OEM manufacturing for hybrid and LFP products. Invergy has its own quality and reliable protocol for contract manufacturing of these products. Invergy manages its own supply chain stream to provide easy and comfortable transitions.

“Invergy buys, make the contract manufacturing, and then sell to the end customers. Invergy has its own quality and reliable protocol for contract manufacturing of these products.” Invergy takes an active role in overseeing and controlling the various stages involved in the supply chain. The manufacturing contractor encompasses all the processes from the acquisition of raw materials to the delivery of the final products to Invergy and Invergy thereafter sell to the customers. The goal is to create a seamless and comfortable experience, ensuring that products move from manufacturing to the hands of customers without disruptions or delays.

Our Company got certification of ISO 9001:2015 in Quality Management System, certificate number - Q-205023102805, which is valid up to October 27, 2026.

For detailed information on the business of our Company please refer to “Our Business” beginning on page numbers 105 of this Draft Red Herring Prospectus.

SUMMARY OF OUR INDUSTRY

SOLAR INVERTER MARKET OVERVIEW

The Solar Inverter Market size was valued at USD 7.7 billion in 2022 and is expected to reach USD 17.9 billion by 2030, at a CAGR of 8.8% from 2022 to 2030.

The Solar Inverter is an important device in the solar system, which converts the direct current flowing out of the solar panel into an alternating current. In addition to conversion, solar inverters track voltage, allow grid-tie communication, and shut down in emergency situations. Compared with off-grid inverters, grid-connected solar inverters generate pure sine wave AC power; therefore, increasing the use of grid-connected solar inverters can ensure the safety and efficiency of home appliances. Most commonly used in residential and utility applications, solar inverters are increasingly used in commercial and industrial projects around the world.

Contrive Datum Insights has recently published the Solar Inverter Market to its huge database which helps to shape the future of businesses by making well-informed business decisions. It offers a comprehensive analysis of various business aspects such as global market trends, recent technological advancements, market size, shares, and new innovations. Furthermore, this analytical data has been compiled through data exploratory techniques such as primary and secondary research. Moreover, an expert team of researchers throws light on various static and dynamic aspects of the global Solar Inverter market.

SECTION III- RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties summarized below, before making an investment in our Equity Shares. The risks described below are relevant to the industries our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read this section in conjunction with the chapters titled "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on page numbers 105 and 201, respectively, of this Draft Red Herring Prospectus as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in the section titled "Financial Information, as Restated" beginning on page number 161 of this Draft Red Herring Prospectus.

If any one or more of the following risks as well as other risks and uncertainties discussed in the Draft Red Herring Prospectus happen to occur, our business, financial condition and results of our operation could suffer material adverse effects and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of investment. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.

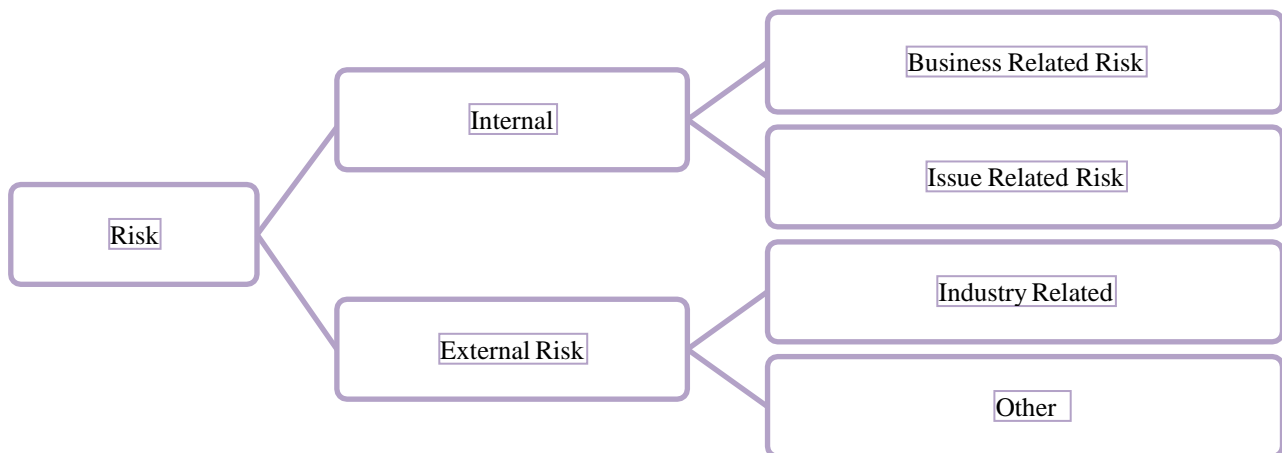

This Draft Red Herring Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in the Draft Red Herring Prospectus. These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be material when considered collectively.
2. Some events may have an impact which is qualitative though not quantitative.
3. Some events may not be material at present but may have a material impact in the future.

Classification of Risk Factors

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Restated Financial Information.

The risk factors are classified as under for the sake of better clarity and increased understanding.

- 1. Our Company has availed Bank Guarantees of ₹ 320.00 Lakh vide dated July 22, 2022 and ₹ 80.00 Lakh vide dated August 17, 2022 in favour of M/s Sungrow India Private Limited pertaining to facilities for the procurement and distribution of products obtained from M/S Sungrow India Private Limited. We cannot assure that there will be no default done by our company in the future.**

Our company has availed Bank Guarantees of ₹ 320.00 Lakh vide dated July 22, 2022 and ₹ 80.00 Lakh vide dated August 17, 2022 pertaining to facilities for the procurement and distribution of products obtained from M/S Sungrow India Private Limited. Further, the company has utilized its property as collateral for the aforementioned credit Bank Guarantees. If any default commits by our company, it may affect our business. Additionally, this could lead to a deterioration in our relationship with the banks extending the bank guarantees to our company, making it harder for us to secure loans in the future. Beyond the financial implications, a default by our company could also impact our reputation and credibility in the market which could result in loss of confidence and a decline in the value of our securities.

- 2. Our lenders have charged over our fixed assets and book debts in respect of finance availed by us.**

We have provided security in respect of cash credit facilities, bank guarantees and letter of credit availed by us for ₹ 950.00 Lakh from the bank by creating a charge on Moveable Property and Book debts of the company. In the event of default in repayment of the loans / facilities availed by company and any interest thereof, the properties may be subject to forfeiture by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further details of secured loans of our Company, please refer the chapter titled Financial Statements on page 187 of this Draft Red Herring Prospectus.

- 3. We depend on third parties for the supply of our products and such third parties could fail to meet their obligations, which may have a material adverse effect on our business, results of operations and financial condition**

Our top ten suppliers are responsible for a significant portion of our purchases, contributing approximately 89.94% 67.35%, 76.76%, and 92.96% of our purchases of raw material for the period nine months ended December, 2023 and for the year ended March 31, 2023, March 31, 2022 and March 31, 2021 respectively. Non-availability or inadequate quantity of raw material or use of substandard quality of the raw materials in the manufacturing of our products, could have a material adverse effect on our business.

4. *We have not entered into any long-term agreements with our vendors and any shift in their decisions could adversely affect our business. Additionally, we are dependent upon our vendors for fulfilment of needs of our customers. Our inability to*

maintain relationships with our vendors or deficiency in the goods provided by such vendors may adversely affect our business, results of operations, cashflow and profitability.

We have not entered into any long-term agreements with our vendors. Currently, we have entered into channel partner agreements with three of our vendors, and such arrangements are generally for a period of one (1) year and generally renewable pursuant to mutual consent. We cannot provide assurance that such arrangements as aforesaid will continue to be successful or be renewed after expiry of the stipulated term. Any alteration to or termination of our current agreements with our suppliers, any failure to enter into new and similar agreements on commercially favourable terms or at all, could materially adversely affect our business.

Although, while in the past we have not faced any significant instances wherein there have been any deficiencies in the goods provided by our supplier, we cannot assure you that such deficiencies will not arise in the goods provided by our supplier. As a result, our operations may be disrupted and our financial condition and results of operations could be adversely affected. Additionally, our reliance on, and inability to control such supplier, could adversely affect our business, financial condition and results of operations.

- 5. *Our top ten clients contribute approximately 33.20%, 57.01%, and 51.76% of our revenues from operations for the year ended March 31, 2023, March 31, 2022 and March 31, 2021 respectively. Any loss of business from one or more of them may adversely affect our revenues and profitability.***

Our top ten clients are responsible for a significant portion of our revenue, contributing approximately 51.94% ,33.20%, 57.01%, and 51.76% of our revenues from operations based on Restated Financials for the period nine months ended December, 2023 and for the year ended March 31, 2023, March 31, 2022 and March 31, 2021 respectively. The loss of our major customers or a decrease in the volume of our products may adversely affect our revenues and profitability. We cannot assure you that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our operations and profitability.

6. A significant portion of our revenue is derived from Rajasthan, Haryana, Uttar Pradesh, and Delhi, and any adverse developments in these states could adversely affect our business.

Our Company earns a significant portion of our revenue from the states of Rajasthan, Haryana, Uttar Pradesh, and Delhi. Any materially adverse social, political or economic development, natural calamities, civil disruptions, regulatory developments or changes in the policies of the state or local government in these regions could adversely affect our distribution activities, result in modification of our business strategy or require us to incur significant capital expenditure, which will in turn have a material adverse effect on our business

Set forth below is certain information on our geography-wise revenue from operations for the periods indicated

(Amount in Lakhs)

7. Our results of operations and financial condition are subject to fluctuations in regional economic conditions due to the geographic concentration of our sales in the northern region of India.

Currently we cover Northern region of India to carry our business. Hence, majority of our revenues are generated from operations in this region only. In the event that demand for our goods and services in general reduces or stops by any reason including political discord or instability or change in policies of States, then our financial condition and operating results may be materially and adversely affected. Geographical and functional expansion of our business domain requires establishment of adequate network. As we seek to diversify our regional focus, we may face the risk that our competitors may be better known in other markets, enjoy better relationships with customers. Our lack of exposure in geographical boundaries outside our operating region could impact our future revenues. However, our company has not faced any such incidence in the past.

8. Significant portion of our revenues is dependent upon sale of Solar Inverters. The loss of our product or a decrease in the supply or volume of such product, will materially and adversely affect our revenues and profitability.

Our company, trades in few products viz. Solar Inverters, Solar Panels, Energy Storage Solutions, and Solar Power Generating Systems. Within this portfolio over approximately 50% of our revenues are derived from the sale of Solar Inverters. The heavy reliance on singular product makes us vulnerable to potential disruptions, whether in the form of supply chain challenges, regulatory changes, or shifts in market dynamics. Any loss or decrease in the supply or demand for Solar Inverters could significantly impact on our business prospects and results of operations. We cannot assure you that we will be able to significantly reduce our dependence upon such product in the future. The revenue from sale of products for the period nine months ended December, 2023 and for financial year ended 31st March 2023, 31st March 2022, 31st March 2021 was as follows:

(Rs. in Lakhs)

9. We do not own the premises in which our registered office is located and the same is on lease arrangement. Any termination of such lease/license and/or non-renewal thereof and attachment by Property Owner could adversely affect our operations.

Our Registered Office is presently located at, B-39, Sector-59, Noida, Gautam Buddha Nagar, Uttar Pradesh, India, 201301. The said premises where our registered office is located, is not owned by our Company. The premises were taken on lease from

independent entities on a monthly rental basis. The Registered Office is taken on lease for a period of 11 months w.e.f March 01, 2024 to January 31, 2025.

Unless it is renewed, upon termination of the lease, we are required to return the premises of our registered office to the Lessor/Licensor. There can be no assurance that the term of the agreements will be renewed on commercially acceptable terms and in the event the Lessor/Licensor terminates or does not renew the agreements, we are required to vacate the said premises where operational activities are carried out. In such a situation, we have to identify and take alternative premises and enter into fresh lease or leave and license agreement at less favourable terms and conditions to shift our registered office and operations. Such a situation could result in time overruns and may affect our operations temporarily.

10. We have experienced negative cash flows in the past. Any such negative cash flows in the future could adversely affect our business, results of operations and prospects.

Our Company had negative cash flows from our operating activities and investing activities in some of the previous year(s) as per the Restated Audited Financial Statements and the same are summarized as under:

Particulars	Amount (Rs. in Lakhs)			
	As on 31 Dec, 2023	As on 31 Mar, 2023	As on 31 Mar, 2022	As on 31 Mar, 2021
Net Cash Flow from Operating Activities	(92.88)	(574.25)	(600.23)	379.16
Net Cash Flow from Investing Activities	(223.67)	(230.16)	392.92	(622.55)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares.

11. Unsecured loans of ₹ 850.17 Lakh taken by our Company from various financial institutions, can be recalled at any time.

Our Company as per the restated audited financial statement as on December 31, 2023 has availed total sum of Rs. 850.17 lakh as unsecured loans which may be recalled at any time. Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section "Details of total secured and unsecured borrowings" under the chapter titled "Financial Statements" beginning on page no. 187 of this Draft Red Herring Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

12. There are certain discrepancies and non-compliances noticed in some of our corporate records relating to forms filed with the Registrar of Companies, taxation authorities and other public authorities.

Non-compliance of applicable laws shall attract penal provisions and inability to file the statutory returns on time and failure to remit statutory dues will have an adverse effect on our operations and the company shall also face negative brand image in the market. Further with the expansion of our operations there can be no assurance that deficiencies in our internal controls and compliances will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all.

- 13. Orders placed by customers may be delayed, modified or cancelled, which may have an adverse effect on our business, financial condition and results of operations. Further any defaults or delays in payment by a significant portion of our customers, may have an adverse effect on cash flows, results of operations and financial condition.**

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customers discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the customers may default or otherwise fail to pay amounts owed.

- 14. We require certain approvals, licenses, registrations and permits to operate our business, and failure to obtain or renew them in a timely manner or maintain the statutory and regulatory permits and approvals required to operate our business may adversely affect our operations and financial conditions.**

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations. There

can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, the proposed capacity expansion plan may extend and any such delay could have an adverse impact on our growth, prospects, cash flows and financial condition. For details regarding pending approvals, please refer to section titled "Government and Other Approvals" beginning on page 221 of this Draft Red Herring Prospectus.

15. *We may not be able to maintain our current levels of profitability due to increased costs or reduced trading spreads or margins.*

Our business strategy involves a relatively high level of ongoing interaction with our clients. We believe that this involvement is an important part of developing our relationship with our clients, identifying new cross selling opportunities and monitoring our performance. However, this level of involvement also entails higher levels of costs and also requires a relatively higher gross spread, or margin, on the various goods we offer in order to maintain profitability. There can be no assurance that we will be able to maintain our current levels of profitability if the gross spreads on our traded goods were to reduce substantially, which could adversely affect our results of operations.

16. *If we are unable to establish and maintain an effective system of internal controls and compliances, our business and reputation could be adversely affected.*

We manage our internal compliance by monitoring and evaluating internal controls and ensuring all relevant statutory and regulatory compliances. Although, we have not faced any deficiency in our internal control system till date. However, there can be no assurance that deficiencies in our internal controls will not arise or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all. If we are unable to establish and maintain an effective system of internal controls and compliances, our business and reputation could be adversely affected.

17. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirement accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory.

18. *Change in technology, evolving customer requirements and emerging industry trends may affect our business, may render our current technologies obsolete and may require us to make substantial capital investments.*

Our ability to respond to technological advances, evolving customer requirements, and emerging industry standards and practises in a cost-effective and timely manner is critical to our future success. The development and implementation of such technology entails significant technical and business risk, as well as significant implementation costs. We cannot guarantee that new technologies will be successfully implemented or that our processing systems will be able to adapt to changing customer requirements or emerging industry standards. Technological advancements may make newer solutions more competitive than ours, or they may necessitate additional capital expenditures to upgrade our facilities and technology. If we are unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, evolving customer requirements or technological changes, our business, financial condition and results of operations could be materially and adversely affected.

19. *We have not made any alternate arrangements for meeting our regular working capital requirements. If our operations do not generate the necessary cash flow, our working capital requirements may negatively affect our operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our working capital requirements. We meet our working capital requirements through our bank credit facilities, unsecured loans, owned funds and internal accruals. Any shortfall in our available funds and our inability to raise debt would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations.

20. Our growth will depend on our ability to build our brand and failure to do so will negatively impact our ability to effectively compete in this industry.

We believe that we need to continue to build our brands,  and  which will be critical for achieving wide spread recognition of our services. Promoting and positioning our brand will depend largely on the success of our marketing efforts and our ability to provide high quality services. The brand promotion activities that we may undertake may not yield increased revenues, and even if they do, any increased revenues may not offset the expenses we incur in building our brand. If we are unable to promote and maintain our brand, our business, financial condition and results of operations could be adversely affected.

21. Our success depends on stable and reliable logistics and transportation. Disruption of logistics and transportation services could impair the ability of our suppliers to deliver raw materials or our ability to deliver products to our customers and/ or increase our transportation costs, which may adversely affect our operations.

We utilize third party transportation services for transportation of raw materials and our products from/ to our suppliers and customers. Transportation involves risks, including, collision, grounding, storm, fire, explosion, lightning, political instability and operating restrictions/ lockdown. Although, our company has not faced any disruption in the services till date but any delay or disruption caused to the transportation of raw materials or our products could adversely impact our ability to procure the raw materials as well as to meet the delivery schedule of our products in an economical manner. To ensure timely delivery of our products, we may also be required to maintain relatively high level of inventory of raw materials and this may also resultantly increase our cost.

22. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.

We have obtained a number of insurance policies in connection with our operations as given in chapter titled “Our Business” on page 120 of the Draft Red Herring Prospectus. While we believe that these policies are reasonably sufficient to cover the typical risks associated with our business, we cannot guarantee that all claims under these policies will be fully or promptly honoured. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business and results of operations could be adversely affected.

Further, we are required to renew these insurance policies from time to time and in the event we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, we may face significant uninsured losses. If we suffer a large uninsured loss or if any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected.

23. Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.

Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during godown stocking and display. The industry also typically encounters some inventory loss on account of employee theft, shoplifting, vendor fraud, credit card fraud and general administrative error. Although till date we have never experienced any such instance, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition. Additionally, losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

24. The outbreak of COVID-19 or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.

One significant risk factor related to COVID-19 is the disruption in supply chains. Due to the pandemic, many countries implemented lockdowns, travel bans, and restrictions on economic activities. If for any reason the same situation arises in the upcoming areas, it may affect our supply or demand schedules, potentially leading to delays of product delivery. Moreover, the manufacturer who sourced their components or raw materials are sourced from heavily affected regions, their production

and distribution may be severely impacted, causing prolonged delays in fulfilling demands or even halting production altogether. The risk of disruption in supply chains highlights the importance for companies to diversify their supplier base geographically and establish contingency plans for alternative sources of essential components. However, the uncertainty and risk associated with COVID-19 cannot be completely ignored.

25. The average cost of acquisition of Equity Shares by our Promoters could be lower than the issue price.

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Issue Price of the shares proposed to be offered through this Draft Red Herring Prospectus. For further details, please refer the below mentioned table:

Name of the Promoter	No. of shares held	Average cost of acquisition (in ₹)
Mr. Deepak Pandey	32,25,600	NIL*
Mrs. Anju Pandey	36,00,000	0.28
Mr. Astik Mani Tripathi	3,60,000	11.46

*Since the average cost of acquisition is negative, it has been considered as NIL

**For calculation of Average cost of Acquisition, Equity shares held as on date are considered

26. We have issued Equity Shares during the last one year at a price that may be below the Issue Price.

During the last one year we have issued Equity Shares at a price that may be lower than the Issue Price as detailed in the following table:

Date of allotment	Number of Equity Shares allotted	Face value (₹)	Issue Price (₹)	Nature of Consideration	Nature of allotment
December 14, 2023	70,00,000	10.00	NIL	Other than Cash	Bonus Issue (35:1)
January 17, 2024	12,34,800	10.00	50	Cash	Private Placement

27. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company even after the Issue which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoters and Promoter Group will collectively own 62.23% of our post issue equity share capital. As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over the Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

28. There may be potential conflicts of interest if our Promoters or Directors get involved in any business activities that compete with or are in the same line of activity as our business operations.

At present SAR Renewables, a proprietorship firm owned by Sneha Bajpai who comes under the definition of Promoter Group, are engaged in the same business having object similar to the line of business of our Company. Further, to avoid the potential conflict of interest our company executed a Non-Compete Agreement executed on 23rd February, 2024 which restrict the SAR Renewables and bind them not to compete directly, indirectly or otherwise which could harm the business of our company. But, there can be no assurance that our Promoter or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

29. Our Promoter is involved in certain legal proceeding(s) potential litigations. Any adverse decision in such proceeding(s) may render us/them liable to liabilities/penalties and may adversely affect our business and results of operations.

Our Promoter is involved in a legal proceeding which are pending before courts, tribunals, enquiry officers, and appellate authorities. We cannot provide assurance that these legal proceedings will be decided in our favour. Any adverse decisions in any of the proceedings may have a significant adverse effect on our business, results of operations, cash flows and financial condition. A classification of these legal and other proceedings are as follows:

A summary of pending legal proceedings and other material litigations is provided below:

(Amount in Lakhs)

Note-The Demand Notice has been raised and the reply filed. Therefore, matter is still sub judice.

- 30. Our success will depend on our ability to attract and retain our key managerial personnel, our design and engineering team and other key personnel. Failure to do so may have a material adverse effect on our business, financial condition and results of operations.**

Our success heavily depends upon the continued services of our Key Managerial Personnel, along with support of our Promoters. We also depend significantly on our Key Managerial Personnel for executing our day-to-day activities. The loss of any of our Promoters and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and Key Managerial Personnel, please refer to chapter — “Our Management” beginning on page 137.

- 31. Our Company has in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company's financial condition and results of operations.**

As on December 31, 2023, we have entered into related party transactions with our Promoter, Directors and Group Companies. Whilst these related party transactions have been disclosed in our financial statements as per AS-18, and are in compliance with the relevant provisions of the Companies Act, 2013, Accounting Standards and other applicable laws, and we believe that all such transactions have been conducted on an arms-length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. For further details kindly refer to the chapter titled ‘Financial Statements’ beginning on page 183 of this DRHP.

- 32. Our business, financial condition and results of operations could be materially and adversely affected by strikes, work stoppages and/or increased wage demands by our employees or any other kind of dispute with our employees and other workers.**

As on date of this DRHP, we have 18 full-time employees. We have no employees who belong to labour unions, and we have had no instances of strikes or labour unrest since we began operations. However, we cannot guarantee that our employees will not join labour unions in the future, and as a result, we may experience operational disruptions due to labour disputes or other issues with our workforce. Attempts by our employees to change their pay and other terms of employment may also

divert management's attention, increase operating expenses which may result in penalties under our EPC contracts. The occurrence of such events could have a materially negative impact on our business, financial condition, and results of operations.

33. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

We also import our products from outside India. There can be change in the value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Fluctuation in the exchange rates may affect us to the extent of cost of goods and sales in foreign currency terms. Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our results of operations.

34. *In addition to normal remuneration, other benefits and reimbursement of expenses to some of our Promoters who are directors as well, hold Equity Shares in our Company and may be interested in our Company to the extent of interest received on loan given, their shareholding and dividend entitlement in our Company.*

Our Promoters who are directors as well are interested in our Company to the extent of interest received on the loan given to the company and their shareholding and dividend entitlement in our Company, in addition to regular remuneration or benefits and reimbursement of expenses. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see the sections titled "Our Management" and "Our Promoters and Promoter Group" on pages 137 and 153 respectively of this Draft Red Herring Prospectus.

35. *We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.*

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors.

36. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The issue price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled "Basis for Issue Price" beginning on page 82. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

37. *There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.*

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above ₹ 10,000.00 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. However, the audit committee of the company shall monitor utilisation of issue proceeds at regular intervals. Further, our Company shall inform about material deviations in the utilization of Issue proceeds

to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

38. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of Equity Shares in an Indian Company are generally taxable in India. Any gain realized on the sale of listed Equity Shares on a stock exchange held for more than 12 months shall be subject to capital gains tax in India at 10% of such capital gain exceeding Rs. 1 lakh if Securities Transaction Tax (STT) has been paid on both acquisition and transfer of such shares. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realised on the sale of Equity Shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. However, any gain realized on the sale of listed Equity Shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India. For more details, please refer to "Statement of Tax Benefits" beginning on page 88.

39. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. [•] is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Maker, please refer to the section V titled "General Information" for this Issue beginning on page 53.

ISSUE RELATED RISK

1. We cannot assure you that our equity shares will be listed on the Emerge Platform of NSE in a timely manner or at all, which may restrict your ability to dispose of the equity shares.

Though we shall make best of our efforts to comply with all applicable regulatory, financial and operational requirements for getting the equity shares proposed to be offered through this Draft Red Herring Prospectus listed on EMERGE platform of NSE in a time bound manner, yet on account of any change in applicable laws, economic conditions and/or any other reason/s beyond our control, the said shares may not get listed on the EMERGE platform of NSE in a timely manner or at all, which may restrict your ability to dispose of the equity shares. However, even in such circumstances, the company shall stay fully committed to pay such interest and/or refund the full application amount, as may be required in accordance with the applicable regulatory directives.

2. Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or

belief that such sales of Equity Shares might occur.

3. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchange may fluctuate as a result of the factors, including

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors,
- d. Adverse media reports on Company or pertaining to our Industry;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

4. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by book building method. This price is based on numerous factors (For further information, please refer chapter titled "Basis for Issue Price" beginning on page 82 of this Draft Red Herring Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

1. Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
2. Changes in revenue or earnings estimates or publication of research reports by analysts;
3. Speculation in the press or investment community;
4. General market conditions; and
5. Domestic and international economic, legal and regulatory factors unrelated to our performance.

EXTERNAL RISK FACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs.1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange

and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

4. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

5. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Draft Red Herring Prospectus.*

While facts and other statistics in the Draft Red Herring Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "**Industry Overview**" beginning on page 90 of this Draft Letter of Offer. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

6. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

7. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified

by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

8. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

9. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

10. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

11. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Russia, Ukraine, Indonesia, Madrid, London and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company and the Lead Manager have entered into a tripartite agreement dated [●] with [●] the Market Maker for this Issue, duly registered with NSE Emerge to fulfill the obligations of Market Making:

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time. Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of NSE Emerge and SEBI from time to time.
3. The minimum depth of the quote shall be ₹1,00,000. However, the investors with holdings of value less than ₹1,00,000 shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
5. There would not be more than five Market Makers for a scrip at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
6. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
7. The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

The Market Maker(s) shall have the right to terminate said arrangement by giving a one month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s). In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making

period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further, our Company and the Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our corporate office from 11.00 a.m. to 5.00 p.m. on working days.

9. **Risk containment measures and monitoring for Market Makers:** Emerge Platform of NSE will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value- At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.

10. **Punitive Action in case of default by Market Maker:** Emerge Platform of NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Makers, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/fines/ suspension for any type of misconduct/manipulation/ other irregularities by the Market Makers from time to time.

11. **Price Band and Spreads:** SEBI Circular bearing reference no: CIR/MRD/DP/02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:

- (i) In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- (ii) In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

Additionally, the trading shall take place in TTF sent for first 10 days from commencement of trading.

The following spread will be applicable on the SME Exchange Platform.

S. No.	Market Price Slab	Proposed Spread (in % to sale price)
1	Up to 50	9.00%
2	50 to 75	8.00%
3	75-100	6.00%
4	Above 100	5.00%

12. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

13. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buyquote (including mandatory initial inventory of 5% of the Issue Size)

The members of the Promoters Group, our directors and the relatives of our directors have not financed the purchase by any other person of securities of our Company, other than in the normal course of the business of the financing entity, during the six months immediately preceding the date of filing this Draft Red Herring Prospectus.
17. **Details of Promoter's Contribution locked in for three years:**

As per Sub-Regulation (1) of Regulation 236 of the SEBI (ICDR) Regulations, 2018, an aggregate of 20.00% of the post- Issue Capital shall be considered as Promoter 's Contribution.

Our Promoters have granted consent to include such number of Equity Shares held by them as may constitute 20.00% of the post-issue Equity Share Capital of our Company as Promoters Contribution and have agreed not to sell or transfer or pledge or otherwise dispose of in any manner, the Promoters Contribution from the date of filing of this Draft Red Herring Prospectus until the completion of the lock-in period specified above.

In terms of clause (a) of Regulation 238 of the SEBI (ICDR) Regulations, 2018, Minimum Promoters' Contribution as mentioned above shall be locked-in for a period of three years from the date of commencement of commercial production or date of allotment in the Initial Public Offer, whichever is later.

Explanation: The expression "date of commencement of commercial production" means the last date of the month in which commercial production of the project in respect of which the funds raised are proposed to be utilised as stated in the offer document, is expected to commence.

We further confirm that Minimum Promoters Contribution of 20.00% of the post issue paid-up Equity Shares Capital does not include any contribution from Alternative Investment Fund.

The Minimum Promoters Contribution has been brought into to the extent of not less than the specified minimum lot and has been contributed by the persons defined as Promoters under the SEBI (ICDR) Regulations, 2018.

The lock-in of the Minimum Promoters Contribution will be created as per applicable regulations and procedure and details of the same shall also be provided to the Stock Exchange before listing of the Equity Shares.

As on date of this Draft Red Herring Prospectus there are no equity shares held by our Promoter and Promoter Group which are under lock in.

We confirm that the minimum Promoters contribution of 20.00% which is subject to lock-in for three years does not consist of:

- a) Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalisation of intangible assets;
- b) Equity Shares acquired during the preceding three years resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum Promoters' contribution;
- c) Equity Shares acquired by Promoters during the preceding one year at a price lower than the Issue Price;
- d) The Equity Shares held by the Promoters and offered for minimum 20% Promoters Contribution are not subject to any pledge.
- e) Equity Shares for which specific written consent has not been obtained from the shareholders for inclusion of their subscription in the minimum Promoters' Contribution subject to lock-in.

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription —Non-Transferable and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the Depository.

	Total	[●]

* The amount utilized for general corporate purposes shall not exceed 25% of the Gross Proceeds of the Issue.

Since, the entire fund requirement of the objects detailed above are intended to be funded from the Net Proceeds. In view of the above, we confirm that the firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue is not applicable.

The fund requirements mentioned above are based on internal management estimates of our Company and have not been verified by the lead managers or appraised by any bank, financial institution or any other external agency. They are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, cost of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the issue

proceeds as stated above, our Company may re-allocate the issue proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the issue proceeds or cost overruns, our management may explore a range of options including utilizing our internal accruals or seeking debt financing.

To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Object, as per the estimated schedule of deployment specified above; Our Company shall deploy the Net Proceeds in the subsequent Financial Years towards the Object. In case of variations in the actual utilisation of funds earmarked for the purpose set forth or shortfall in the Net Proceeds or delay in raising funds through the IPO, increased fund requirements for a particular purpose may be financed from our internal accruals and/ or debt financing, as required. If the actual utilisation towards any of the objects is lower than the proposed deployment, such balance will be used for funding other objects as mentioned above or towards general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds from the Issue in accordance with the SEBI ICDR Regulations. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Issue Proceeds. We further confirm that no part of the Issue Proceed shall be utilized for repayment of any part of outstanding unsecured loan as on date of filing the Draft Red Herring Prospectus.

DETAILS OF THE OBJECTS OF THE ISSUE

1. To meet out the Working Capital requirements of our company "GP Eco Solutions;

Our Company ("GP Eco") is the distributor and channel partner for solar inverter and solar panels. Under solar inverter we have channel partnership with Invergy (Invergy is the brand of our subsidiary IIPL) and Sungrow. Also, we have the channel partnership with well-known brands "Saatvik" and "Longi" under solar panels segments. Our business is working capital intensive and we fund the majority of our working capital requirements in the ordinary course of our business from our internal accruals, net worth, financing from various banks, channel funding and unsecured loans, if any. Our Company requires additional working capital for funding future growth requirements of our Company.

Basis of estimation of working capital requirement:

Our Company proposes to utilize Rs. 1245.00 Lakhs of the Net Proceeds for our estimated working capital requirements. The balance portion of our Company working capital requirement, if any, shall be met from the working capital facilities availed/ to be availed and internal accruals. Our Company's estimated working capital requirements for FY24 and FY25 and the proposed funding of such working capital requirements are as set out in the table below:

Assumption of Holding Levels

Provided below are details of the holding levels (days) considered.

Particulars	As at March 31, 2021	As at March 31, 2022	As at March 31, 2023	As at December 31, 2023	AS at Mrach 31, 2024 (Estimated)	As at March 31, 2025 (Estimated)
Inventory	23	18	34	51	34	26
Trade Receivables	30	30	43	63	39	32
Trade Payables	54	26	46	61	41	24

Justification for holding period levels.

Particular	Assumptions made and Justification
Current Assets	
Inventory	Our Company has maintained the inventory holding period of 23 days in FY2021, 18 days in FY2022 and 34 days FY2023. The average holding period during last 3 years are approx. 25 days. For 9M ending FY24, the days are slightly higher as most of the orders gets dispatched in the last quarter. Therefore, full year figures show the true picture of inventory days. Further, if you notice the range of inventory days in previous years is in the range of 20 days to 35 days. The company is expecting the similar range in FY25 and would maintain the inventory of approx. 26 days. Lastly, we should also keep in mind that company is into distribution business where inventory days are on a lower side as the sales cycle is smaller.

Trade Receivables	Our Company has maintained the receivable period of 30 days in FY2021, 30 days in FY2022 and 43 days in FY2023. The average receivable period during last 3 years are approx. 34 days. Considering it is a distribution business the payments are received on a regular basis rather than on a lump sum basis, unlike the manufacturing business where lump sum money is received depending upon the order size. The trade receivables days in our business are spread evenly over the duration of the goods delivered. So, basically on one side the delivery of goods happens and on another side the company receives the payment for the goods delivered earlier. In this way the company is able to manage the lower receivables days and there is quick turnaround in the sales and debtors cycle.
Current Liabilities	
Trade Payables	In distribution business the margins are generally on a lower side, hence it is very important to manage the trade payables cycle. The past trend shows that trade payables days are in the range of 25 days to 45 days. However, after IPO, company is planning to make early payment to creditors and can negotiate better credit terms and hence increase the profit margins.

Detailed rationale for increase in working capital requirement during financial year 2021 to December 31, 2023 and for increased estimated capital requirements for Financial Year 2025

In 2023, the working capital increased from 774.12 lacs in 2022 to 1918.37 lacs in 2023. There are several reasons for this substantial increase. Firstly, the total sales rose significantly from 8344.76 lacs in 2022 to 10121.24 lacs in 2023. This increase in sales volume requires a higher amount of working capital to support the larger scale of operations, including purchasing more materials and maintaining increased inventories. Secondly, the cost of material consumed also experienced a significant increase, from 7015.84 lacs in 2022 to 9285.17 lacs in 2023. Higher material costs contribute to a higher working capital requirement. Lastly, there were also increases in employee benefit expenses and other expenses, further contributing to the overall working capital needs in 2025.

In 2025, the working capital is expected to increase due to expected increase in the total sales. Higher sales volumes require increased working capital to manage larger inventories, finance higher account receivables, and support the expanded operations. Additionally, the cost of material consumed is projected to be increased in 2025 due to increase in turnover, reflecting the higher inventory requirements to meet the increased sales demand. These factors, along with other expenses such as employee benefits, finance costs, and depreciation, contribute to the increased working capital requirement in 2025.

Our company will be negotiating with vendors for better rates by paying them in advance or ahead of schedule. While this strategy may lead to improved terms and discounts, it also requires higher working capital to support prepayments and advance payments to vendors. Additionally, procuring materials in bulk to avail of better credit terms necessitates additional working capital to finance larger inventory purchases. Our company is heavily reliance on bank limits and letters of credit for procuring materials from vendors, for this maintaining adequate working capital is crucial. After IPO Proceeds, the company would rely less on bank guarantees, Letter of credit etc.

In conclusion, these factors collectively necessitate a larger investment in working capital to sustain and facilitate the company's growth trajectory.

Detailed rationale for increase in Sales and PAT during financial year 2021 to December 31, 2023

Reasons for Increase of turnover of GPES are:

Product segment for distribution: GPES started with SUNGROW inverters in the year 2017 as the distributor for North India. Gradually we increased our portfolio to incorporate other related product segments for distribution like solar panels, Energy Storage solutions and Balance of System. GPES tied up with national & international brands for the same.

Cost competitiveness: The decreasing cost of solar energy components, particularly solar panels and related equipment, makes solar power more affordable and accessible to a broader range of consumers. As a result, more individuals, businesses, and organizations are investing in solar installations, leading to increased turnover.

Market expansion: GPES Solar expanded its market presence geographically leading to increased turnover. It is engaging customers at different platforms with its attractive products.

New Ventures: GPES solar started marketing its own brand “**INVERGY**” of hybrid inverters and lithium ion battery at competitive prices to cater to the demands of energy storage solutions.

Growing demand for solar energy: As awareness about the importance of renewable energy sources, such as solar power, increases, there is a corresponding rise in demand for solar products and services. GPES Solar experienced higher turnover due to increased demand for solar panels, inverters, installation services, or other related products and services.

Reasons for increase in Profits are:

The main factor contributing to increasing profits in GPES Solar are as below:-

- i. **Increase in sales:** One of the primary factors is increase in sales resulting into increased profit
- ii. **Bulk Purchasing:** Increase in quantum of material procurement due to rise in demand resulted into increased profits
- iii. **Direct line of procurement:** profit margins increased as we started procuring directly from the manufacturer rather than distributors or sub channels.
- iv. **Direct Imports:** GPES started importing finished products as the manufacturing cost in India was higher due to non-availability of raw material.
- v. Strategic pricing strategies that ensure products and services are priced optimally to maximize profitability.
- vi. Investing in technological innovations or process improvements that increase productivity and reduce costs.
- vii. Enhancing customer value proposition to justify premium pricing and increase customer willingness to pay.

2. Investment in our subsidiary, Invergy India Private Limited (“IIPL”) in relation to setting up of a manufacturing Facility located at B-39, Sector-59, Gautam Buddha Nagar, Uttar Pradesh.

Our company (“GP Eco”) also has its own brand called “Invergy” through our subsidiary “IIPL”. Invergy sells hybrid solar inverters and lithium ferro phosphate batteries under the said brand. Invergy deals in OEM manufacturing for Hybrid and LFP products. Uptill now, IIPL is not engaged in the manufacturing or assembly of the solar inverter, it only procures the Hybrid-inverters manufactured through OEMs. Now with the view to expand the business operations and backward Integration in “IIPL” we plan to import the solar inverter in SKD form and establish in-house assembly unit under Invergy. The management has proposed to assemble solar inverter inhouse in their proposed assembling facility being set up at B-39, Sector-59, Gautam Buddha Nagar, Noida, Uttar Pradesh, India (201301) admeasuring about 4900 sq. feet. The said premises are rented by our company, the rent is agreement is valid till 31st January, 2025.

Our Company proposes to utilize ₹ 760.00 Lakhs from the Net Proceeds for investment into “IIPL” for part-financing the capital expenditure requirements for setting up the Proposed Facility.

The proposed assembling facility is expected to be completed by the second quarter for FY 2024-25 and the trial runs and commercial production from this facility is expected to be completed in the third quarter of Fiscal 2024. Our Board pursuant

to its resolution dated March 04, 2024 sets out its proposal for such capital expenditure from the Net Proceeds.

Advantages of setting up of an assembly unit under name of Invergy

- + Importing solar inverters in SKD form and establishing an in-house assembly unit can potentially lead to cost savings compared to fully assembled imports.
- + By importing and assembling the solar inverters in-house, Invergy India Private Limited (IIPL) can ensure standardization of the "Invergy" brand, maintaining consistency in quality across products.
- + In assembling the solar inverters locally, IIPL can better adapt products to meet specific market demands and regulatory requirements in India.
- + In-house assembly reduces dependency on external suppliers, potentially reducing lead times and streamlining the production process.
- + The expansion of IIPL can contribute to the overall growth of GP Eco by offering a wider range of solar products and services to the Indian market.

The tentative capital expenditure for the above project are as follows:

BASIS FOR ISSUE PRICE

The Price Band and the Issue Price will be determined by our Company in consultation with the BRLM, on the basis of the Book Building Process and the quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹10 each and the Issue floor Price is ₹ [●] /- which is [●] times of the face value of Equity Shares and the Issue Cap Price is ₹ [●] /- which is [●] times of the face value of Equity Shares. Investors should refer to “Risk Factors”, “Our Business”, “Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 24, 105, 161 and 201 respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors which form the basis for computing the Issue Price are:

- Experienced Promoter and management team with strong industry expertise and successful track record;
- We have long term relationships with marquee brands supported by our committed strategy on engagement with customers;
- Good track record for the last 3 years; and
- Distributorship of Sungrow, Saatvik, Longi in Northern India

For further details, see “Risk Factors” and “Our Business” on pages 24 and 105 respectively.

Quantitative Factors

The information presented in this section is derived from our Restated Financial Statements. For details, see “Financial Information” on page 161. Investors should evaluate our Company and form their decisions taking into consideration its earnings, and based on its growth strategy. Some of the quantitative factors which may form the basis for computing the Issue price are as follows:

1. Basic and Diluted Earnings per Share (EPS), as adjusted for changes in capital

Year ended	Basic EPS/ (in ₹) ²	Diluted EPS (in ₹) ²	Weight
FY 2020-21	1.35	1.35	1
FY 2021-22	3.85	3.85	2
FY 2022-23	5.14	5.14	3
Weighted Average	4.07	4.07	
December 31, 2023*	6.57	6.57	

* Basic & Diluted EPS has been calculated based on including bonus shares retrospectively which were issued on 14th December 2023.

Note:

1. The ratios have been computed as under:

- Basic and diluted EPS: profit for the year attributable to equity shareholders of the Company divided by total weighted average number of equity shares outstanding during the period. Basic and diluted EPS are computed in accordance with Ind AS 33 – Earnings per share post the bonus issue in current financial year;
- Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/Total of weights
- The figures disclosed above are based on the Restated Standalone Financial Information

2. Price / Earning (P/E) Ratio in relation to Issue Price of ₹ [●] to ₹ [●] per Equity Share

Particulars	P/E at the lower end of the price band (no. of times)	P/E at the higher end of the price band (no. of times)
a) P/E ratio based on Basic and diluted EPS of ₹ 5.14 as at March 31, 2023	[●]	[●]
b) P/E ratio based on Weighted Average Basic and diluted EPS of ₹ 4.07	[●]	[●]

3. Return on Net Worth (RONW):

Year ended	RoNW (%)	Weight
FY 2020-21	80.55	1
FY 2021-22	87.60	2
FY 2022-23	57.79	3
Weighted Average	71.52	
December 31, 2023	42.70	

Note:- *RONW has been calculated based on including bonus shares retrospectively which were issued on 14th December 2023.

The ratios have been computed as under:

	Net profit after tax as restated, attributable to the owners of the company
Return on net worth (%)	Average Net worth as restated, including share capital and reserves and surplus, as stated at the beginning and at the end of the year
Net worth	Equity share capital + Reserves and surplus (including, Securities Premium, General Reserve and surplus in statement of profit and loss).

4. Net Asset Value* (NAV) per Equity Share

Particulars	Rs.
As of March 31, 2021	2.47
As of March 31, 2022	6.32
As of March 31, 2023	11.46
December 31, 2023	18.03
NAV post issue:	
At the lower end of the price band of ₹ [●]	[●]
At the lower end of the price band of ₹ [●]	[●]
Issue price per share	[●]

Note-

*NAV has been calculated based on including bonus shares retrospectively which were issued on 14th December 2023.

The ratios have been computed as under:

Net asset value per equity share	$\frac{\text{Net worth as restated, including share capital and reserves and surplus, as restated at the end of the year}}{\text{No. of equity shares outstanding at the end of the year}}$
Basic earnings per share (Rs.)	$\frac{\text{Net profit after tax as restated for calculating basic EPS}}{\text{Weighted average number of equity shares outstanding at the end of the period or year}}$

5. Comparison of Accounting Ratios with Industry Peers

We **N K M R & Co.**, Chartered Accountants, hereby confirm that the enclosed annexure, prepared by GP Eco Solutions India Limited ("the Company") states the possible special tax benefits available to the Company and the shareholders of the Company under the Income – tax Act, 1961 ('Act') as amended time to time, presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the company may or may not choose to fulfil.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and its Shareholders and do not cover any general tax benefits. Further, these benefits are neither exhaustive nor conclusive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that this statement is only intended to provide general information to the investors and hence is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences, the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the issue. We are neither suggesting nor are we advising the investor to invest money or not to invest money based on this statement.

Our views are based on the existing provisions of the Act and its interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Any such change, which could also be retroactive, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein.

We do not express any opinion or provide any assurance as to whether:

- the Company or its Shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits, where applicable have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct. The enclosed Annexure is intended solely for your information and for inclusion in the Draft Red Hearing Prospectus/ Red Hearing Prospectus/Prospectus or any other issue related material in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our prior written consent. Annexure to the statement of possible Tax Benefits

Outlined below are the possible Special tax benefits available to the Company and its shareholders under the Income Tax Act, 1961 presently forced in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

1. Special Tax Benefits available to the Company under the Act:

The Company is not entitled to any Special tax benefits under the Act.

2. Special Tax Benefits available to the shareholders of the Company

The Shareholders of the company are not entitled to any Special tax benefits under the Act.

Notes:

1. All the above benefits are as per the current tax laws and will be available only to the sole / first name holder where the shares are held by joint holders.
2. The above statement covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.

No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We do not assume responsibility to update the views consequent to such changes. GLOBAL ECONOMIC OUTLOOK IN FIVE CHARTS

The global economy is set to slow substantially in 2023. The lagged and current effects of monetary tightening, as well as more restrictive credit conditions, are expected to weigh on activity in the second half of the year, with weakness persisting into 2024. Excluding China, growth in emerging market and developing economies (EMDEs) is set to decline markedly, with the outlook weakest in countries with elevated fiscal and financial vulnerabilities. The resurgence of recent banking sector turmoil represents a serious risk. Widespread financial stress could have especially severe economic consequences.

1. Global growth is slowing

The global economy is forecast to slow substantially this year, with a pronounced deceleration in advanced economies. Monetary tightening is expected to have its peak impact this year for many major economies. Global growth is forecast to decline to 2.1 percent in 2023, a full percentage point less than in 2022, before a tepid recovery to 2.4 percent in 2024. In emerging market and developing economies (EMDEs) excluding China, growth is projected to fall to 2.9 percent in 2023, from 4.1 percent in 2022, as tight global financial conditions and subdued external demand weigh on activity. Global growth could weaken more than anticipated in the event of further financial sector stress, or if persistent inflation prompts tighter-than-expected monetary policy.

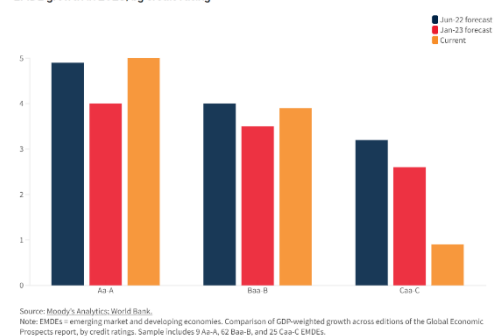

2. Monetary policy will weigh on growth this year and next

The substantial near-term deceleration expected in advanced economies is mainly due to the lagged effects of the sharp rise in policy rates over the past year and a half, aimed at reining in high inflation. Tight monetary policy in the United States, in particular, can adversely affect EMDEs in several ways. It slows the U.S. economy, which reduces demand for EMDE exports, and tends to lead to higher interest rates in EMDEs.

3. Restrictive financial conditions pose severe challenges for vulnerable EMDEs

The majority of EMDEs have so far withstood global monetary tightening with limited financial stress. However, in EMDEs with pronounced vulnerabilities (as reflected by low credit ratings) sovereign risk spreads have widened sharply, domestic currencies have depreciated, and already-limited fiscal space has dwindled further. Growth projections for these economies have been revised markedly lower, to less than 1 percent in 2023.

4. The pandemic recovery remains weak

In per capita terms, the latest forecasts suggest a weak recovery from the overlapping shocks of the past three years. Nearly a third of EMDEs, including two-thirds of countries in fragile and conflict-affected situations, are expected to have lower per capita incomes in 2024 than they did in 2019. Fragility continues to aggravate humanitarian crises, entrenching extreme poverty.

5. Further episodes of financial stress are a serious risk to the global economy

Several large banks in advanced economies have failed this year. More—and more disorderly—bank failures represent a key risk. The negative effects would be greatest if banking turmoil were to escalate into a systemic crisis, transmitted around the world via cross-border financial linkages. This would result in a severe downturn in the global economy in 2024—global growth could decline to just 0.3 percent. A severe credit crunch confined mostly to advanced economies would do lesser though still serious damage, reducing global growth in 2024 to 1.3 percent.

THE FORECAST BY IMF

Global growth is projected to fall from an estimated 3.5 percent in 2022 to 3.0 percent in both 2023 and 2024. While the forecast for 2023 is modestly higher than predicted in the April 2023 World Economic Outlook (WEO), it remains weak by historical standards. The rise in central bank policy rates to fight inflation continues to weigh on economic activity. Global headline inflation is expected to fall from 8.7 percent in 2022 to 6.8 percent in 2023 and 5.2 percent in 2024. Underlying (core) inflation is projected to decline more gradually, and forecasts for inflation in 2024 have been revised upward.

The recent resolution of the US debt ceiling standoff and, earlier this year, strong action by authorities to contain turbulence in US and Swiss banking, reduced the immediate risks of financial sector turmoil. This moderated adverse risks to the outlook. However, the balance of risks to global growth remains tilted to the downside. Inflation could remain high and even rise if further shocks occur, including those from an intensification of the war in Ukraine and extreme weather-related events, triggering more restrictive monetary policy. Financial sector turbulence could resume as markets adjust to further policy tightening by central banks. China's recovery could slow, in part as a result of unresolved real estate problems, with negative cross-border spillovers. Sovereign debt distress could spread to a wider group of economies. On the upside, inflation could fall faster than expected, reducing the need for tight monetary policy, and domestic demand could again prove more resilient.

In most economies, the priority remains achieving sustained disinflation while ensuring financial stability. Therefore, central banks should remain focused on restoring price stability and strengthening financial supervision and risk monitoring. Should market strains materialize, countries should provide liquidity promptly while mitigating the possibility of moral hazard. They should also build fiscal buffers, with the composition of fiscal adjustment ensuring targeted support for the most vulnerable. Improvements to the supply side of the economy would facilitate fiscal consolidation and a smoother decline of inflation toward target levels. For advanced economies, the growth slowdown projected for 2023 remains significant: from 2.7 percent in 2022 to 1.5 percent in 2023, with a 0.2 percentage point upward revision from the April 2023 WEO. About 93 percent of advanced economies are projected to have lower growth in 2023, and growth in 2024 among this group of economies is projected to remain at 1.4 percent.

- In the United States, growth is projected to slow from 2.1 percent in 2022 to 1.8 percent in 2023, then slow further to 1.0 percent in 2024. For 2023, the forecast has been revised upward by 0.2 percentage point, on account of resilient consumption growth in the first quarter, a reflection of a still-tight labor market that has supported gains in real income and a rebound in vehicle purchases. However, this consumption growth momentum is not expected to last: Consumers have largely depleted excess savings accumulated during the pandemic, and the Federal Reserve is expected to raise rates further.
- Growth in the euro area is projected to fall from 3.5 percent in 2022 to 0.9 percent in 2023, before rising to 1.5 percent in 2024. The forecast is broadly unchanged, but with a change in composition for 2023. Given stronger services and tourism, growth has been revised upward by 0.4 percentage point for Italy and by 1.0 percentage point for Spain. However, for Germany, weakness in manufacturing output and economic contraction in the first quarter of 2023 means that growth has been revised downward by 0.2 percentage point, to -0.3 percent.

- Growth in the United Kingdom is projected to decline from 4.1 percent in 2022 to 0.4 percent in 2023, then to rise to 1.0 percent in 2024. This is an upward revision of 0.7 percentage point for 2023, reflecting stronger-than-expected consumption and investment from the confidence effects of falling energy prices, lower post-Brexit uncertainty (following the Windsor Framework agreement), and a resilient financial sector as the March global banking stress dissipates.
- Growth in Japan is projected to rise from 1.0 percent in 2022 to 1.4 percent in 2023, reflecting a modest upward revision, buoyed by pent-up demand and accommodative policies, then slow to 1.0 percent in 2024, as the effects of past stimuli dissipate.
- For emerging market and developing economies, growth is projected to be broadly stable at 4.0 percent in 2023 and 4.1 percent 2024, with modest revisions of 0.1 percentage point for 2023 and –0.1 percentage point for 2024. However, this stable average masks divergences, with about 61 percent of the economies in this group growing faster in 2023 and the rest—including low-income countries and three of the five geographic regions described in what follows—growing more slowly.
- Growth in emerging and developing Asia is on track to rise to 5.3 percent in 2023, then to moderate to 5.0 percent in 2024, reflecting a modest (0.1 percentage point) downward revision for 2024. The forecast for China is unchanged at 5.2 percent for 2023 and 4.5 percent for 2024, but with a change in composition: Consumption growth has evolved broadly in line with April 2023 WEO projections, but investment has underperformed due to the ongoing real estate downturn in that country. Stronger-than-expected net exports have offset some of the investment weakness, although their contribution is declining as the global economy slows. Growth in India is projected at 6.1 percent in 2023, a 0.2 percentage point upward revision compared with the April projection, reflecting momentum from stronger-than-expected growth in the fourth quarter of 2022 as a result of stronger domestic investment.
- Growth in emerging and developing Europe is projected to rise to 1.8 percent in 2023, reflecting a 0.6 percentage point upward revision since April, and to rise further to 2.2 percent in 2024. The forecast for Russia in 2023 has been revised upward by 0.8 percentage point to 1.5 percent, reflecting hard data (on retail trade, construction, and industrial production) that point to a strong first half of the year, with a large fiscal stimulus driving that strength.
- Latin America and the Caribbean is expected to see growth decline from 3.9 percent in 2022 to 1.9 percent in 2023, although this reflects an upward revision of 0.3 percentage point since April, and to reach 2.2 percent in 2024. The decline from 2022 to 2023 reflects the recent fading of rapid growth during 2022 after pandemic reopening, as well as lower commodity prices; the upward revision for 2023 reflects stronger-than-expected growth in Brazil—marked up by 1.2 percentage points to 2.1 percent since the April WEO—given the surge in agricultural production in the first quarter of 2023, with positive spillovers to activity in services. It also reflects stronger growth in Mexico, revised upward by 0.8 percentage point to 2.6 percent, with a delayed post-pandemic recovery in services taking hold and spillovers from resilient US demand.
- Growth in the Middle East and Central Asia is projected to decline from 5.4 percent in 2022 to 2.5 percent in 2023, with a downward revision of 0.4 percentage point, mainly attributable to a steeper-than-expected growth slowdown in Saudi Arabia, from 8.7 percent in 2022 to 1.9 percent in 2023, a negative revision of 1.2 percentage points. The downgrade for Saudi Arabia for 2023 reflects production cuts announced in April and June in line with an agreement through OPEC+ (the Organization of the Petroleum Exporting Countries, including Russia and other non-OPEC oil exporters), whereas private investment, including from “giga-project” implementation, continues to support strong non-oil GDP growth.
- In sub-Saharan Africa, growth is projected to decline to 3.5 percent in 2023 before picking up to 4.1 percent in 2024. Growth in Nigeria in 2023 and 2024 is projected to gradually decline, in line with April projections, reflecting security issues in the oil sector. In South Africa, growth is expected to decline to 0.3 percent in 2023, with the decline reflecting power shortages, although the forecast has been revised upward by 0.2 percentage point since the April 2023 WEO, on account of resilience in services activity in the first quarter.

Forces Shaping the Outlook

The global recovery from the COVID-19 pandemic and Russia’s invasion of Ukraine is slowing amid widening divergences among economic sectors and regions.

The World Health Organization (WHO) announced in May that it no longer considers COVID-19 to be a “global health emergency.” Supply chains have largely recovered, and shipping costs and suppliers’ delivery times are back to pre-pandemic levels. But forces that hindered growth in 2022 persist. Inflation remains high and continues to erode household purchasing power. Policy tightening by central banks in response to inflation has raised the cost of borrowing, constraining economic activity. Immediate concerns about the health of the banking sector have subsided, but high interest rates are filtering through the financial system, and banks in advanced economies have significantly tightened lending standards, curtailing the supply of credit. The impact of higher interest rates extends to public finances, especially in poorer countries grappling with elevated debt costs, constraining room for priority investments. As a result, output losses compared with pre-pandemic forecasts remain large, especially for the world’s poorest nations. Despite these headwinds, global economic activity was resilient in the first quarter of 2023, with that resilience driven mainly by the services sector. The post-pandemic rotation of consumption back toward services is approaching completion in advanced economies (including in tourism-dependent economies of southern Europe), and it accelerated in a number of emerging market and developing economies in the first quarter (Figure 1). However, as mobility returns to pre-pandemic levels, the scope for further acceleration appears more limited.

At the same time, nonservices sectors, including manufacturing, have shown weakness, and high-frequency indicators for the second quarter point to a broader slowdown in activity. Amid softening consumption of goods, heightened uncertainties regarding the future geoeconomic landscape, weak productivity growth, and a more challenging financial environment, firms have scaled back investment in productive capacity. Gross fixed capital formation and industrial production have slowed sharply or contracted in major advanced economies, dragging international trade and manufacturing in emerging markets with them. International trade and indicators of demand and production in manufacturing all point to further weakness. Excess savings built up during the pandemic are declining in advanced economies, especially in the United States, implying a slimmer buffer to protect against shocks, including those to the cost of living and those from more restricted credit availability.

The fight against inflation continues. Inflation is easing in most countries but remains high, with divergences across economies and inflation measures. Following the buildup of gas inventories in Europe and weaker-than-expected demand in China, energy and food prices have dropped substantially from their 2022 peaks, although food prices remain elevated. Together with the normalization of supply chains, these developments have contributed to a rapid decline in headline inflation in most countries. Core inflation, however, has on average declined more gradually and remains well above most central banks’ targets. Its persistence reflects, depending on the particular economy considered, pass-through of past shocks to headline inflation into core inflation, corporate profits remaining high, and tight labor markets with strong wage growth, especially in the context of weak productivity growth that lifts unit labor costs. However, to date, wage-price spirals—wherein prices and wages accelerate together for a sustained period—do not appear to have taken hold in the average advanced economy, and longer-term inflation expectations remain anchored. In response to the persistence of core inflation, major central banks have communicated that they will need to tighten monetary policy further. The Federal Reserve paused rate hikes at its June meeting but signaled further ones ahead, and the Reserve Bank of Australia, Bank of Canada, Bank of England, and European Central Bank have continued to raise rates. At the same time, in some other economies, particularly in East Asia, where mobility curbs during the pandemic restricted demand for services longer than elsewhere, core inflation has remained low. In China, where inflation is well below target, the central bank recently cut policy interest rates. The Bank of Japan has kept interest rates near zero under the quantitative and qualitative monetary easing with yield curve control policy.

Acute stress in the banking sector has receded, but credit availability is tight. Thanks to the authorities’ swift reaction, the March 2023 banking scare remained contained and limited to problematic regional banks in the United States and Credit Suisse in Switzerland. Accordingly, since the April 2023 WEO, global financial conditions have eased (Box 1), a sign that financial markets may have become less concerned about risks to financial stability coming from the banking sector. But tight monetary policy continues to put some banks under pressure, both directly (through higher costs of funding) and indirectly (by increasing credit risk). Bank lending surveys in the United States and Europe suggest that banks restricted access to credit considerably in the first quarter of 2023, and they are expected to continue to do so in coming months. Corporate loans have been declining lately, as has commercial real estate lending.

Following a reopening boost, China’s recovery is losing steam. Manufacturing activity and consumption of services in China rebounded at the beginning of the year when Chinese authorities abandoned their strict lockdown policies; net exports contributed strongly to sequential growth in February and March as supply chains normalized and firms swiftly put backlogs of orders into production. Nonetheless, continued weakness in the real estate sector is weighing on investment, foreign demand remains weak,

and rising and elevated youth unemployment (at 20.8 percent in May 2023) indicates labor market weakness. High-frequency data through June confirm a softening in momentum into the second quarter of 2023.

INDIAN ECONOMY

Weak global demand and the effect of monetary policy tightening to manage inflationary pressures will constrain the economy in FY 2023-24, limiting real GDP growth to 6%. Moderating inflation and monetary policy easing in the second half of 2024 will help discretionary household spending regain momentum. This, along with improved global conditions, will help economic activity to accelerate, with growth of 7% in real GDP in FY 2024-25.

Despite an impressive growth and development record, daunting challenges remain. Creating good jobs is the most promising pathway to reduce poverty, which is particularly high in the female population. Increasing investment in education and vocational training, and updating labour laws, would help to achieve this objective. India is particularly vulnerable to extreme heatwaves and must make progress in mobilising resources for investment in the green economy.

Moderating demand and high inflation have slowed economic activity FY 2022-23 ended on a positive note, due to higher-than-expected agriculture output and strong government spending. However, high inflation, in particular for energy and food, and the ensuing monetary tightening to anchor expectations are weighing on purchasing power and household consumption, particularly in urban areas. Tighter financial market conditions are reflected in weakening credit-supported demand for capital goods, a good proxy for business investment. The merchandise trade deficit was 40% larger in FY 2022-23 than in FY 2021-22, with trade in petroleum accounting for over two-fifths of the deterioration. Although services export growth remains brisk and the sectoral surplus rose by 35%, it is insufficient to offset the imbalance in goods' trade. Low labour productivity is affecting the

competitiveness of "Made in India" goods and participation in global value chains. The current account deficit narrowed in the October-December quarter to 2.2% of GDP, from 2.7% in the same period in FY 2021-22. Headline inflation has fallen below 6% (the central bank's upper bound of the tolerance band) since March 2023, mostly due to lower food prices, as well as base effects. Employment and wage estimates suggest improving labour market conditions in rural areas, while export-oriented service firms Domestic growth prospects are strongly influenced by global developments. India has seized the opportunity of discounted Urals oil, which has increased Russia's share in its energy imports. The sourcing of fertilisers from Russia has also increased considerably, more than doubling in volume in the case of urea. Overall, Indian imports from Russia rose from USD 9.9 billion (1.6% of total imports) in FY 2021-22 to USD 46.2 billion (6.5%) in FY 2022-23.

Macroeconomic policies remain restrictive

Monetary policy is focused on anchoring inflation expectations and bringing headline inflation consistently within the 2-6% tolerance band. A long cycle of policy rate increases came to a halt in April. Following one further small increase, rates are expected to remain unchanged until the end of the calendar year, when evidence will confirm whether core inflation, which is less sensitive to weather conditions and geopolitical tensions, has durably diminished. The projections assume mild interest rate declines from mid-2024.

During the projection period, the priority for fiscal policy is to control government debt, so as to keep it at sustainable levels, reduce interest payments, and thereby free resources for public investment in physical and human capital and initiatives to adapt

to population aging. The Pradhan Mantri Garib Kalyan Anna Yojana scheme provided free foodgrains to eligible beneficiaries during the pandemic, but targeting was imprecise – as testified by the number of beneficiaries (820 million), well in excess of most estimates of the poor population (between 400 and 500 million) – and the cost excessive. Its suppression in 2023 reinforces the need to update the 2011 Census in order to guarantee coverage of eligible families. The next 25 years until the 2047 centenary of Independence will be crucial for India to fight poverty and the government strategy (so-called Amrit Kaal) will require a large increase in capital investment outlays.

The economy will not escape the global slowdown

After reaching 7.2% in FY 2022-23, real GDP growth is expected to slow to 6% in FY 2023-24, before rising to 7% in FY 2024-25. While indicators suggest that India's growth is stable for now, headwinds from the impact of rapid monetary policy tightening in the advanced economies, heightened global uncertainty and the lagged impact of domestic policy tightening will progressively take effect. With slower growth, inflation expectations, housing prices and wages will progressively moderate, helping headline inflation converge towards 4.5%. This will allow interest rates to be lowered from mid-2024. The trade restrictions (including export bans on various rice varieties) imposed in 2022 to fight inflation are assumed to be withdrawn. The current account deficit will narrow, reflecting abating import price pressures.

Most risks to the projections are tilted to the downside. While banks' solvency ratios and financial results have improved and the authorities have enhanced loan-loss provisioning and established a 'bad bank', any deterioration of banks' asset quality could threaten macro-financial stability. In the run-up to the 2024 elections, fiscal consolidation may be delayed, and the conclusion of trade agreements may become more difficult. A potentially below-normal monsoon season could also impact growth. Declining geopolitical uncertainty, on the other hand, would boost confidence and benefit all sectors, as would a faster-than-expected conclusion of free-trade agreements with key partners and the incorporation therein of services.

Climate change and gender gaps require targeted policies

More than half of the Indian population lives in the Indo-Gangetic Plain and is exposed to the increasingly frequent and extreme heatwaves caused by climate change. It is estimated that almost 100 000 extra lives are lost every year due to hot weather and the flooding that can follow. The economic costs are also large, including labour losses, a meagre wheat harvest, greater livestock mortality and power outages. Reducing global greenhouse gas emissions, including in India, will help limit such losses in the long term. However, measures that can immediately reduce the impact of extreme weather events are also needed, such as improved infrastructure to prevent flooding. Sustainable development also requires further progress in gender equality across many dimensions, including access to health, education and capital. Impressive results have been attained, for instance in financial inclusion, but substantial gaps remain. Policy formulation and execution should fully incorporate gender considerations and specific indicators. Enhanced policy efforts to increase childcare assistance, vocational training and life-long education for working women would also be welcome. Better enforcement of the land rights of women would strengthen their economic position and, by making it possible to use this asset as collateral, may also facilitate investments in climate mitigation and adaptation.

Road Ahead

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

SOLAR INVERTER MARKET OVERVIEW

The Solar Inverter Market size was valued at USD 7.7 billion in 2022 and is expected to reach USD 17.9 billion by 2030, at a CAGR of 8.8% from 2022 to 2030.

The Solar Inverter is an important device in the solar system, which converts the direct current flowing out of the solar panel into an alternating current. In addition to conversion, solar inverters track voltage, allow grid-tie communication, and shut down in emergency situations. Compared with off-grid inverters, grid-connected solar inverters generate pure sine wave AC power; therefore, increasing the use of grid-connected solar inverters can ensure the safety and efficiency of home appliances. Most commonly used in residential and utility applications, solar inverters are increasingly used in commercial and industrial projects around the world.

Contrive Datum Insights has recently published the Solar Inverter Market to its huge database which helps to shape the future of businesses by making well-informed business decisions. It offers a comprehensive analysis of various business aspects such as global market trends, recent technological advancements, market size, shares, and new innovations. Furthermore, this analytical data has been compiled through data exploratory techniques such as primary and secondary research. Moreover, an expert team of researchers throws light on various static and dynamic aspects of the global Solar Inverter market.

Solar Inverter Type Insights

The solar inverter market segmentation, based on fusion type, includes Central Inverter, Micro Inverter, and String Inverter. The Central Inverter segment held the majority share in 2021 contribution to around ~48-53% in respect to the solar inverter market revenue. The increase in demand for central inverters from significant industrial and utility applications around the world is responsible for this. From 2021 to 2030, it is also anticipated that fast industrialization and the development of renewable energy infrastructure in developing nations like China, India, Japan, and others will increase demand for central inverters.

Solar Inverter System Type Insights

The solar inverter market segmentation, based on System Type, includes On-Grid and Off-Grid. The On-Grid segment dominated the market in 2021. This growth is linked to increased investment in direct electricity supply rather than battery storage. Additionally, benefits of being utilized as on-grid solar inverters includes simple energy feeding, simple installation, cost effectiveness, and managing high electricity demand. These benefits are anticipated to drive the market's expansion in the following decades. Hence, rising utilization of on-grid systems for enhance the capabilities of the production are anticipated to positively impacts the market growth.

Solar Inverter Application Insights

The solar inverter market data has been bifurcated by Application into Residential, Commercial and Utilities. The Utilities segment held the majority share in 2021 contribution to around ~40-45% in respect to the solar inverter market revenue. The utility sector is expanding for several reasons, primary including the rising demand for renewable energy, the decreasing cost of solar energy and equipment, and the emergence of government subsidies. The segment is growing as a result of the presence of major players who provide customers market-leading utility-scale solutions through their pre-integrated power plants to increase efficiency and lower balance-of-system costs.

Solar Inverter Regional Insights

By Region, the study provides the market insights into North America, Europe, Asia-Pacific and Rest of the World. Asia-Pacific Solar Inverter market is anticipated to account for the largest market revenue share of 40%-45% during the forecast period. The solar market in this region is growing rapidly, and China is both a key competitor as well as its largest provider. The expansion of the industry in the region has also been significantly aided by the rising number of solar installations in developing countries. Further, the major countries studied in the market report are: The U.S, Canada, Germany, France, UK, Italy, Spain, China, Japan, India, Australia, South Korea, and Brazil.

Europe solar inverter market is anticipated to witness significant growth CAGR over the projected period attributed to the existence of favorable government policies and the availability of subsidies like residential feed-in tariffs (FITs) which encourages consumers to invest in renewable energy. Further, the Germany solar inverter market held the largest market share, and the UK solar inverter market was the fastest growing market in the European region

In 2021, North America solar inverter market held a significant revenue share, with the U.S. being the main driver of market expansion. A significant market for various types of solar inverters is the United States. In addition, string inverters saw strong growth in North America, central PV inverters are anticipated to continue holding the biggest market share during the projected period. Moreover, United States solar inverter market held the largest market share, and the Canada solar inverter market was the fastest growing market in the North American region.

Key Companies in the solar inverter market includes

- SMA Solar Technology AG (Germany)
- Canadian Solar Inc. (Canada)
- ABB Ltd (Switzerland)
- SunPower Corporation (US)
- Delta Electronics (Taiwan)
- SolarEdge Technologies Inc. (Israel)
- Sineng Electric Co. Ltd. (China)
- Power Electronics (Spain)
- Solectria Renewables LLC (US)
- Hitachi Hi-Rel Power Electronics Pvt. Ltd (India)
- Solar Inverter Industry Developments

SNAPSHOT OF THE GLOBAL PV MARKET

IEA PVPS has distinguished itself throughout the years by producing unbiased reports on the development of PV all over the world, based on information from official government bodies and reliable industry sources. This 11th edition of the “Snapshot of Global PV Markets” aims at providing preliminary information on how the PV market developed in 2022. The 28th edition of the PVPS complete “Trends in Photovoltaic Applications” report will be published in Q4 2023.

Evolution of Annual Installations

It appears that 1 185 GW represents the minimum installed cumulative capacity by the end of 2022, and at least 240 GW of PV systems have been commissioned in the world last year. IEA PVPS countries², for whom there is a firm level of certainty in the data, represented 953 GW (or 80%) of cumulative capacity and 184 GW (77%) of annual installations.

In 2022, at least 23 countries installed more than 1 GW.

Sixteen countries (not including the EU) now have more than 10 GW of total cumulative capacity, five have more than 40 GW. China alone represented 414,5 GW followed by the European Union (as EU27), which led rankings until 2015, but now ranks second (209,3 GW), the USA ranks third (142 GW) and Japan fourth (85 GW).

With continued dynamic growth, China remains the major regional market in 2022 with over 45% of new capacity, a market share not seen since 2018; strong growth in Europe and to a lesser extent the USA and India account for another 30%. Figure 2 below illustrates the **changing dynamics of the global PV market**, and the influence of the Chinese PV market, but **also the fast pace of growth in India and emerging countries**. Japan, once a principal market maintains a steady rhythm of new projects but with no market acceleration as elsewhere.

Evolution Of Regional PV Installations

The distribution of regional market shares has remained steady since 2018. **Asia Pacific has captured the major share with 64% of the total cumulative installed capacity in 2022** (see Figure 6), driven by China with strong contributions from India. Japan installed a stable 6,5 GW whilst markets in both Korea (down to 3,6 GW) and Australia (3,9 GW) contracted slightly - supply chain challenges and investment lags in Australia should be resolved in 2023. Some smaller established Asian markets - Taiwan and Malaysia, also experienced growth in 2022, where other markets, such as Thailand, Singapore, Indonesia and the Philippines have seen only slow or intermittent growth over the years

In the European Union, Spain took the lead with 8,1 GW after four years steady between 4 GW and 5 GW annually. Germany followed closely with 7,5 GW after a fourth year of over 120% increase then Poland (4,9 GW installed) with a similar growth rate. The Netherlands ranked fourth with 3,9 GW installed. They are followed by France with 2,9 GW and Italy (2,5 GW). A further five countries installed over 1 GW: Denmark (1,6 GW), Greece (1,4 GW), and Austria and Hungary both at 1 GW. European countries not in the EU installed a combined 3,4 GW in 2022, led by Turkey (1,6 GW), Switzerland (850 MW) and the UK (555 MW). Notable growth was observed in Norway (+300% relative increase), Italy (+163% relative increase), Sweden (+96%) and Slovenia (+98% relative increase).

Source: IEA PVPS

Despite the **US market's underperformance** (18,6 GW, down from 27 GW in 2021), **the overall Americas market increased**, pulled by **strong growth in Brazil** (9,9 GW installed in 2022), followed by Chile which installed around 1,8 GW and Mexico with 680 MW. The market in Canada grew at around 449 MW installed capacity in 2022.

In the Middle East and Africa, Israel installed an additional 1,2 GW, a significant increase compared to the previous year, followed by Qatar (0,8 GW). Africa and the Middle East represented around 3% of global PV installations in 2022 with off-grid installations growing rapidly and rooftop PV outside of any regulatory scheme are progressing in many countries rapidly.

Global Solar Panels Market Overview:

The solar panels market is projected to grow from USD 131.37 billion in 2022 to reach USD 282.4 Billion by 2030, exhibiting a compound annual growth rate (CAGR) of ~12.63%. during the forecast period (2022 - 2030). Solar Panels industry size was valued at USD 84.35 billion in 2021. Increased environmental pollution, falling prices for materials like silver and polysilicon, and incentives and tax breaks offered by governments throughout the world for the installation of PV panels are the main primary market drivers for expansion.

Solar Panels Market Segment Insights:

Solar Panels Technology Insights

The Solar Panels Market segmentation has been segmented by technology into solar PV and concentrated solar power. The solar PV segment dominated the market growth in 2021 and is projected to be the faster-growing segment during the forecast period, 2022-2030 because major governments' concerns about energy security, reducing their carbon footprints, and clean energy are growing.

Solar Panels Module Type Insights

The Solar Panels Market segmentation, based on module type is divided into Thin Film and Crystalline. The thin film segment dominated the PV panels market revenue in 2021 and is projected to be the faster-growing segment during the forecast period, 2022-2030 because thin film solar panels are made of robust, flexible, resilient, and lightweight materials. These elements make it easier for thin film solar panels to be used more frequently in industrial and large-scale utility projects.

Solar Panels Grid Connectivity Insights

The Solar Panels Market data, based on grid connectivity is divided into On-Grid solar and Off-Grid solar. The off-grid segment dominated the solar panels market revenue in 2021 and is projected to be the faster-growing segment during the forecast period, 2022-2030 due to an increase in energy demand from remote regions all over the world. The off-grid category is growing as a result of more efficiency of solar panels due to regulatory rules being implemented to decentralize the electricity producing industry.

Solar Panel Industry Application Insights

Based on application the Solar Panels Market is segmented is divided into Residential, Commercial and Industrial. The industrial segment dominated the market in 2021 and is projected to be the faster-growing segment during the forecast period, 2022-2030 for the growing number of utility projects across the industrial sector and the rising need for sustainable energy.

Solar Panel System Regional Insights

By region, the study provides the flexible solar panels market insights into North America, Europe, Asia-Pacific, and the Rest of the World. North America solar panels market accounted for USD 37.03 billion in 2021 and is expected to exhibit a 43.90% CAGR during the study period due to government efforts to encourage the use of solar energy system and growing environmental concerns. Additionally, worries about the region's declining traditional energy supplies and rising pollution levels have sped up market expansion.

Further, the major countries studied in the DIY solar panels market report are: The U.S., Canada, Germany, France, the UK, Italy, Spain, China, Japan, India, Australia, South Korea, and Brazil.

Asia Pacific solar panels market accounts for the fastest growing market share. In APAC, the market for PV solar panels is expected to develop due to rising environmental concerns, rising energy demand, supportive government laws, and falling solar PV costs during the course of the forecast period. Moreover, India solar panels market held the largest market share, and the China solar panels market was the fastest-growing market in this region.

Europe solar energy market is expected to grow at a substantial CAGR from 2022 to 2030 due to the increase in solar power system installation in the residential and commercial sectors and the rising need for renewable energy sources. By supplying the region's electricity demands, solar energy is regarded as the best alternative to traditional energy sources for reducing carbon emissions.

Further, the UK solar panels market held the largest market share, and the Germany solar panels market was the fastest-growing market in the region.

Key companies in the solar panels market includes

- Trina Solar Limited (China)
- Canadian Solar Inc. (Canada)
- Jinko Solar Holding Co. Ltd. (China)
- JA Solar Holdings Co. Ltd. (China)
- Hanwha Q CELLS Co. Ltd. (South Korea)
- ABROS green GmbH (Germany)
- Yingli Solar (China)
- SunPower Corporation (U.S.A)
- Abengoa Solar (Spain)
- eSolar Inc. (U.S.A)

India Solar Power Industry Report 2023-2027

The India - solar power market size is estimated to grow at a CAGR of 34.24% between 2022 and 2027. The market size is forecast to increase by USD 273.82 billion. The report includes historic market data from 2017 to 2021. The market is witnessing a growing demand for increasing investments in renewable energy, favourable government regulations, and the increased adoption of microgrids.

Solar Power Market in India Overview:

- The market segmentation by Application is categorized as (grid-connected and off-grid) and
- The market segmentation by End-user categorized as (utility and rooftop)
- Grid-connected segment is fastest fastest-growing segment during the forecast year
- The grid-connected segment was the largest segment and valued at USD 22.98 billion in 2017
- APAC is most dominating region during the forecast period
- It also includes an in-depth analysis of drivers (factors influencing market growth), trends (emerging patterns or shifts in consumer behavior), and challenges (barriers or obstacles faced by the industry)

India Solar Power Market Trends

A key factor shaping the India solar power market growth is the rising adoption of floating solar power plants. One of the emerging technologies that is at a primitive stage across the world is the floating solar power plant. The main advantage of a floating solar power plant is that it can be installed in human-made or natural water bodies such as dam reservoirs, lakes, municipality water storage ponds, and water treatment plants. Additionally, the performance of floating solar power systems is better than the arrays that are built on the land.

Moreover, these floating power plants are cooler than traditional solar power systems due to evaporating water which allows them to operate more efficiently. Some of the other advantages of floating power plants include longer module life and higher efficiency of solar panels due to the cooling effect. Hence, such factors are positively impacting the market which in turn will drive India solar power growth during the forecast period.

India Solar Power Market Largest-Growing Segments

The Grid Connected Segment

The main feature of the grid-connected segment is that it supplies solar energy directly to the building loads without the need for any energy storage system. Additionally, the segment is designed in such a way that the surplus energy is fed back to the grid whereas the energy will be imported from the grid if there is any shortfall.

However, the expansion of this segment is significantly hindered by the unavailability of the land. The main challenge in India is the unavailability of land that can be dedicated exclusively for the installation of solar cells. Furthermore, several factors such as the increasing depletion of fossil fuels including coal, decreasing prices of solar energy, and favorable regulations and policies by the government such as the National Solar Mission are expected to fuel the growth of this segment. In addition, there are several schemes implemented by the Government of India in order to encourage the adoption of solar energy. For instance, a scheme for setting up 300 MW grid-connected solar PV projects by paramilitary forces and defense establishments with VGF is a major scheme announced by the Government of India. Hence, such factors are expected to fuel the growth of this segment which in turn will drive the India solar power market growth during the forecast period.

Solar Power Market in India Dynamic

One of the key factors driving the Indian solar power market is the increasing investments in renewable energy. There has been a significant change in the global energy mix over the last decade with several improvements in energy efficiency playing a major role in balancing the energy supply and demand. As per the IEA, the cost of electricity production is comparatively higher than that of conventional sources. As a result, installed renewable power generation capacity has gained traction over the last few years.

Moreover, the sector has become increasingly attractive with the government's increased support and improved economics. As per the IEA, it is expected that India will meet its energy demand on its own by 2040 and renewable energy is expected to play a major role in meeting the demand for solar power in the nation. Hence, such factors are positively impacting the India - solar power market. Therefore, it is expected to drive the India solar power market growth during the forecast period.

Key India Solar Power Market Challenge

The low conversion efficiency of solar PVs is one of the key challenges hindering India solar power market growth. One of the essential requirements of an off-grid system is that it must be self-sufficient in terms of capacity to meet its overall needs. However, a majority of grid sources in several off-grid projects are highly unreliable. Thus, it is necessary to have a sizable PV system and energy storage to produce and store enough power to meet the total electricity needs.

Moreover, solar power is considered as a clean and abundant source of energy but it is low on efficiency. Therefore, as solar power is required to charge the battery in a hybrid system, the low efficiency will need more solar PV panels, which will increase the cost of the entire system. Hence, such factors are negatively impacting the India - solar power market growth. Therefore, it is expected to hinder India solar power growth during the forecast period.

Solar Power Market in India Customer Landscape

The market research report includes the adoption lifecycle of the market, covering from the innovator's stage to the laggard's stage. It focuses on adoption rates in different regions based on penetration. Furthermore, the report also includes key purchase criteria and drivers of price sensitivity to help companies evaluate and develop their growth strategies.

India Major Solar Power Market Companies

Companies are implementing various strategies, such as strategic alliances, partnerships, mergers and acquisitions, geographical expansion, and product/service launches, to enhance their presence in the market.

ABB Ltd: The company offers solar power such as solar products, solar systems, solar solutions, and services to optimize performance.

The research report also includes detailed analyses of the competitive landscape of the market and information about 15 market companies, including:

- ACME Solar
- Adani Group
- Azure Power
- Canadian Solar Inc.
- GCL System Integration Technology Co. Ltd.
- Huawei Technologies Co. Ltd.
- JA Solar Technology Co. Ltd.
- Lanco Infratech Ltd.
- Larsen and Toubro Ltd.
- Mahindra and Mahindra Ltd.
- MVV Energie AG
- Reliance Industries Ltd.
- Risen Energy Co. Ltd.
- SMA Solar Technology AG
- Sterling and Wilson Renewable Energy Ltd.
- Sungrow Power Supply Co. Ltd.
- Sunsire Energy
- Suzlon Energy Ltd.
- ReNewPower

Qualitative and quantitative analysis of companies has been conducted to help clients understand the wider business environment as well as the strengths and weaknesses of key market players. Data is qualitatively analyzed to categorize companies as pure play, category-focused, industry-focused, and diversified; it is quantitatively analyzed to categorize companies as dominant, leading, strong, tentative, and weak.

Segment Overview

The India solar power market report forecasts market growth by revenue and provides an analysis of the latest trends and growth opportunities from 2017 to 2027.

- **Application Outlook (USD Billion, 2017 - 2027)**
 - Grid-connected
 - Off-grid
- **End-user Outlook (USD Billion, 2017 - 2027)**
 - Utility
 - Rooftop

OUR BUSINESS

Some of the information in this section, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. Before deciding to invest in the Equity Shares, Shareholders should read this Draft Prospectus. An investment in the Equity Shares involves a high degree of risk. For a discussion of certain risks in connection with investment in the Equity Shares, you should read "Risk Factors" on page 24 for a discussion of the risks and uncertainties related to those statements, as well as "Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 161 and 201 respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Unless otherwise stated, the financial information used in this section is derived from our Restated Financial Statements.

COMPANY OVERVIEW

Our Company was originally incorporated on July 30, 2010 as a Private Limited Company as "GP Eco Solutions India Private Limited" vide Registration No. 041528 under the provisions of the Companies Act, 1956 with the Registrar of Companies, Kanpur. Subsequently, pursuant to a special resolution passed by the Shareholders at their Annual General Meeting held on October 25, 2023, our Company was converted from a Private Limited Company to Public Limited Company and consequently, the name of our Company was changed to "GP Eco Solutions India Limited" and a Fresh Certificate of Incorporation consequent to Conversion was issued on November 17, 2023 by the Registrar of Companies, Kanpur. The Corporate Identification Number of our Company is U31908UP2010PLC041528.

BUSINESS OVERVIEW

Our company is involved in the distribution of a wide range of solar inverters and solar panels. Our company is an authorized distributor of Sungrow India Pvt Ltd or "Sungrow" for Solar Inverters in North India, and we are also authorized distributors for Saatvik Green Energy Private Limited or "Saatvik" and LONGi Solar Technology Co. Ltd or "LONGi" for solar panels in North India. Additionally, we serve as an integrated solar energy solutions provider, delivering comprehensive engineering, procurement, and construction ("EPC") services to our commercial and residential customers, however the contribution of this segment is comparatively less as compared to business of distribution of solar inverters and solar panels.

Our company also has its own brand called "Invergy". Under the Invergy brand, we sell hybrid solar inverters and lithium ferro phosphate (LFP) batteries. Invergy deals in OEM manufacturing for hybrid and LFP products. Invergy has its own quality and reliable protocol for contract manufacturing of these products. Invergy manages its own supply chain stream to provide easy and comfortable transitions. In other words:

Contract Manufacturing: This refers to a business arrangement where one company (Invergy) outsources the manufacturing of its products to another company. In this context, Invergy has developed its own set of guidelines and procedures, often referred to as a protocol, to ensure that the products manufactured by the contracted partners meet specific quality and reliability standards.

Quality and Reliable Protocol: Invergy has established a structured and defined set of rules, processes, and standards to govern the manufacturing process. This protocol focuses on maintaining high-quality standards for the products and ensuring reliability in the manufacturing procedures. This commitment to quality and reliability is crucial for delivering consistent and satisfactory products to customers.

Managing the Supply Chain: Invergy takes an active role in overseeing and controlling the various stages involved in the supply chain. The supply chain encompasses all the processes from the acquisition of raw materials to the delivery of the final products to customers.

Easy and Comfortable Transitions: By managing its own supply chain stream, Invergy aims to make the transitions between different stages of production and distribution as smooth as possible. This includes efficient handling of logistics, inventory management, and coordination between different elements of the supply chain. The goal is to create a seamless and comfortable experience, ensuring that products move from manufacturing to the hands of customers without disruptions or delays.

Our Company got certification of ISO 9001:2015 in Quality Management System, certificate number - Q-205023102805, which is valid up to October 27, 2026.

Our Mission & Vision

“Providing innovative and best products in Solar Industry”

Developing an eco-friendly and sustainable work culture in industries and commercial projects to make the world cleaner and greener. To understand the need of our clients and provide customized products as per their specifications.

Fulfilling clients’ requirements to have long term relationships.

Our vision is to create a more sustainable and cleaner planet, and we plan to achieve this mission of a greener world through the installation of smart and cost-effective solar technologies.

Revenues and profits along with the growth in past 3 years is given as under

Particular	Dec 2023	FY 2022-23	FY 2021-22	FY 2020-21
Revenue from Operations	7840.37	10,121.24	8,344.76	4,646.82

EBITDA means Earnings before interest, taxes, depreciation and amortisation expense, which has been arrived at by obtaining the profit before tax/ (loss) for the year and adding back finance costs, depreciation, and amortisation and impairment expense and reducing other income.

EBITDA Margin is calculated as EBITDA as a percentage of revenue from operations.

EBIT is calculated as Profit before Tax add Finance cost – other income

EBIT Margin calculated as Earning before interest tax divided by Revenue from operation

PBT is as appearing in the Restated Financial Statements of the company.

PAT Margin calculated as Profit before tax divided by total income.

NAV calculated as Net worth divided by number of shares.

EPS calculated as Profit after tax divided by number of shares.

PAT Margin is calculated as restated profit after tax for the year as a percentage of Total Income.

ROCE is calculated as EBIT divided by capital employed (Equity Share capital + Other Equity-Revaluation Reserve-Capital Redemption Reserve + Total Debts Current & Non-current (Including Government Grants)).

ROE is calculated as Net profit after tax, as restated, divided by tow year average Net Worth.

Current Ratio calculated as current assets divided by Current Liability.

1. DISTRIBUTOR OF SOLAR INVERTOR AND SOLAR PANEL

On grid Solar Invertor

On-grid solar inverters convert the direct current (DC) electricity generated by solar panels into alternating current (AC) electricity, providing usable electricity, facilitating efficient energy use and potentially allowing excess energy to be fed back into the grid.

We are an authorized distributor of Sungrow India Pvt Ltd for On-grid solar inverters in North India, covering regions such as Jammu & Kashmir, Himachal Pradesh, Punjab, Uttarakhand, Haryana, Delhi, Rajasthan, Uttar Pradesh etc. We entered into a channel partner agreement with Sungrow India Pvt Ltd on January 01, 2024, which is set to expire on December 31, 2024. We purchase solar inverters from Sungrow and subsequently distribute them to both business-to-business (B2B) and business-to-customer (B2C) clients across North India.

Our company deals in three types of solar inverters from Sungrow.

Sungrow Residential inverters - Sungrow offers one of the broadest portfolios of residential inverters currently in the market, ranging from 2kW to 20 kW, suitable for mainstream residential rooftops, sungrow residential solar inverters are designed for use in home solar power systems. Sungrow offers a range of inverters suitable for residential solar installations. Residential inverters are essential components in solar power systems as they convert the direct current (DC) electricity generated by solar panels into usable alternating current (AC) electricity for homes.

Sungrow Commercial and Industrial Inverters – Sungrow is known for providing commercial and industrial inverters for solar power systems. Commercial and industrial-scale solar projects often require larger and more robust inverters to efficiently convert DC (direct current) electricity generated by solar panels into AC (alternating current) electricity for use in buildings and the electrical grid. ranging from 20kW to 125 kW. Sungrow offers a variety of inverters designed specifically for commercial and industrial applications, catering to different scales of solar installations. These inverters are typically characterized by higher power capacities, advanced monitoring capabilities, and features tailored to the needs of larger solar projects.

Sungrow Utility - Sungrow provides a full range of central inverters and turnkey solutions range from 500kW to 6.8MW, providing customers with the reliability and efficiency desired for utility-scale installations. Sungrow is also known for providing utility-scale solar solutions, including utility-scale inverters for large solar power plants. Utility-scale solar projects involve installations that are typically much larger than residential or commercial systems, and they require specialized equipment to manage the high-power output. Sungrow utility-scale inverters are designed to meet the specific needs of large solar installations. These inverters often have high power capacities, advanced grid management capabilities, and features tailored for utility-scale applications.

Hybrid Solar Inverter & Batteries

We also deal in hybrid solar inverters, lithium ferro phosphate batteries, and Encap batteries under the brand 'INVERGY' which is our subsidiary company. Our company placed an order with the vendor in China for solar inverter products and with the vendor in India for batteries. They incorporate the "Invergy" brand into the products before shipping them to the company's warehouse.

Hybrid Solar Inverter - is a solar inverter that combines the functionalities of a grid-tie inverter and a battery backup system in a single unit. It converts DC electricity from solar panels into AC electricity for immediate use, while also storing excess energy in batteries for later use or backup during power outages. This technology enables solar power systems to operate both connected to the grid and independently, providing flexibility, energy storage, and resilience.

Lithium ferro phosphate batteries - Lithium ferro phosphate batteries are a type of lithium-ion battery that uses lithium iron phosphate as the cathode material to store lithium ions. LFP batteries typically use graphite as the anode material. The chemical makeup of LFP batteries gives them a high current rating, good thermal stability, and a long lifecycle. Under the category of lithium ferro phosphate batteries, we offer two types of batteries:

1. **LFP Battery Rack Mount** - LFP Battery Rack Mount, part of the INVERGY brand, is designed for efficient organization and secure housing of Lithium Iron Phosphate (LFP) batteries. With a smart indicator for easy monitoring, high energy density, and a compact design, it's ideal for applications like UPS systems, inverters, and solar energy storage. Offering features such as high-efficiency cells, eco-friendly composition, and compatibility for solar charging, it provides a versatile and reliable solution for various power storage needs.
2. **LFP Battery Wall Mount** - The LFP Battery Wall Mount is a space-efficient solution for organizing and securely mounting Lithium Iron Phosphate (LFP) batteries on walls. Ideal for residential and commercial settings, it maximizes floor space and ensures a neat and orderly arrangement. This wall-mounted system is designed for easy integration, providing a practical and aesthetically pleasing option for energy storage setups where space is a premium.

Encap battery is an advance energy storage for stationary application, which is based on encapsulated capacitors. Encap products have lower cost, 10X longer life, better safety, operating temperature compared to lithium ion batteries, fast charging & discharging , no thermal runaway and offer consistent performance in harsh weathers.

Distributor of Solar Panel

Our dedicated internal quality control team ensures the compliance with good standard practices. We give prime focus to providing quality, ISO 9001:2015 for the quality management system

Strong and long-standing customer relationships

Our existing client relationships help us to get repeat business from our customers. Our client relationships also help us to cross sell our other products and services to them. Further, we have been mutually value creating, stable and long-term association with our customers through product, operational process & technology excellence offered by us. This has helped us maintain a long-term working relationship with our customers and improve our customer retention strategy. Through these efforts, we aim to become the “first choice vendor” for all companies for the services we offer.

OUR STRATEGIES

Further explore initiatives to strengthen control over our supply chain

Considering the relatively long lead time involved in the import of raw materials / components, we are focused on various measures to reduce our dependency on third party vendors and suppliers, including increasing our backward integration. Pursuant to our focus on backward integration, a number of components required for the manufacturing of solar products, are now manufactured in-house under our own subsidiary “Invergy”. We intend to continue exploring options to reduce our dependence on external suppliers. Our efforts to reduce our dependence on imports would also help us improve our inventory management and cost efficiencies, which would in turn reduce the costs. In addition, reduced dependence on imports would also help reduce our exposure to foreign currency fluctuations.

Increase geographical presence

As of the current date, our presence is established in one state, specifically Uttar Pradesh (Noida). Moving forward, we plan to

expand our operations into more geographically promising regions. Our emphasis is on increasing the scale of our operations and growing our supply chain network. We believe that this expansion will present attractive opportunities to broaden our client base and increase revenues.

Power

We have established a dual-source energy system at our facility, combining the use of solar-generated energy with our traditional grid connection. This strategic approach has not only reduced our reliance on traditional utility electricity but has also resulted in substantial cost savings reflected in our reduced electricity bills.

Solar Generation Energy - We have installed solar plant-5kw on our company premises, enabling us to generate a portion of our energy needs from the abundant and sustainable power of the sun.

Grid Connection: While solar energy is a valuable contributor, we recognize the importance of a continuous and reliable power supply. Our grid connection serves as a backup, ensuring uninterrupted operations even during periods of low sunlight or increased energy demand, our company avail the grid connection from Pashchimanchal Vidyut Vitran Nigam Limited.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant laws, regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from publications available in the public domain. The description of the applicable regulations as given below has been set out in a manner to provide general information to the investors and is not exhaustive and shall not be treated as a substitute for professional legal advice.

The statements below are based on current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. For details of government approvals obtained by us, see the chapter titled “Government and Other Approvals” beginning on page 221 of this Draft Red Herring Prospectus

Set forth below are certain significant legislations and regulations which generally govern the business and operations of our Company:

This chapter has been classified as under

- A. Industry & Business-Related Laws
- B. Employment and Labour Laws
- C. Environmental laws
- D. Tax Laws
- E. Intellectual Property Laws
- F. Corporate Law
- G. Foreign Regulations
- H. General Laws

A. INDUSTRY RELATED LAWS

Electricity Act, 2003

The Electricity Act is the central legislation which covers, among others, generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution and trade of electricity are regulated activities that require licenses from the Central Electricity Regulatory Commission (—CERC||), the State Electricity Regulatory Commissions (—SERCs||) or a joint commission (constituted by an agreement entered into by two or more state governments or the central government in relation to one or more state governments, as the case may be).

The generating company is required to establish, operate and maintain generating stations, tie-lines, sub-stations and dedicated transmission lines. Further, the generating company may supply electricity to any licensee or even directly to consumers, subject to availing open access to the transmission and distribution systems and payment of transmission charges, including wheeling charges and open access charges, as may be determined by the relevant electricity regulatory commission. In terms of the Electricity Act, open access means the non-discriminatory provision for the use of transmission lines or distribution system or associated facilities with such lines or system, by any licensee or consumer or a person engaged in generation in accordance with the regulations specified by the relevant electricity regulatory commission.

Under the Electricity Act, the appropriate commission shall specify the terms and conditions for the determination of tariff, and one of the guiding factors in doing so shall be the promotion of co-generation and generation of electricity from renewable sources of energy. The SERCs under the Electricity Act are also required to promote co-generation and generation of electricity from renewable sources of energy by providing suitable measures for connectivity with the grid and sale of electricity to any person, and also specify, for purchase of electricity from such sources, a percentage of the total consumption of electricity in the area of a distribution license.

National Renewable Energy Act, 2015

MNRE released the draft National Renewable Energy Act, 2015 on July 17, 2015. The draft Act provides for a framework to facilitate and promote the use of renewable energy. It aims to address issues that are not adequately covered under the Electricity Act, 2003, as amended (“**Electricity Act**”) or its amendments with respect to renewable energy such as the principles of grid planning and operation and the concept of national targets and its compliance by utilities. It proposes provisions for facilitating generation of renewable energy through sound institutional structure, supportive eco-system, viable economic and financial framework and promotion of renewable energy applications including distributed and grid connected renewable electricity.

Among other things, the Act proposes to empower the Gol and State Governments to establish national renewable energy funds and state green funds respectively, in order to meet the expenses of implementing the national renewable energy policy and national renewable energy plan.

The Ministry of New and Renewable Energy (“MNRE”)

The MNRE is the nodal ministry of the Government of India at the national level for all matters relating to non-conventional sources of energy and renewable energy. The mandate of MNRE includes research, development, commercialization and deployment of renewable energy systems or devices for various applications in rural, urban, industrial and commercial sector.

Draft Electricity (promoting renewable energy through Green Energy Open Access) Rules, 2022 (“Draft Electricity Rules 2022”)

The Ministry of Power (“**MoP**”) circulated the Draft Electricity Rules 2022 in August 2022 and is seeking public comments. The Draft Electricity Rules 2022 have been proposed for the purchase and consumption of green energy, including the energy from waste-to-energy plants. It will provide in detail for renewable purchase obligation (RPO), green energy open access, nodal agencies, procedure for the grant of green energy open access, banking and cross-subsidy surcharge. It also provides for tariff for green energy which shall be determined by the appropriate commission.

MNRE Circular on imposition of Basic Customs Duty (BCD) on Solar PV Cells & Modules/ Panels

On March 9, 2021, MNRE issued a circular (ref. no. 283/3/2018- GRID SOLAR) in relation to imposition of BCD on solar cells and modules. According to the circular, no BCD will be charged on solar cells and modules upto March 31, 2022. From April 1, 2022, 25% and 40 % BCD will be charged on solar cells and solar modules, respectively.

Bureau of Indian Standards Act, 2016 (the “BIS Act”) and the Solar Photovoltaics, Systems, Devices and Components Goods (Requirements for Compulsory Registration) Order, 2017 (“Compulsory Registration Order”)

The Bureau of Indian Standards Act, 2016 provides for the establishment of bureau for the standardization, marking and quality certification of goods. Functions of the bureau include, inter alia, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian Standard or whether the standard mark has been improperly used in relation to any article or process with or without a license. A person may apply to the bureau for grant of license or certificate of conformity, if the articles, goods, process, system or service conforms to an Indian Standard.

The Compulsory Registration Order issued by MNRE was published on August 30, 2017 and was scheduled to come into effect on the expiry of one year from the date of such publication. In terms of the Compulsory Registration Order, any manufacturer who, inter alia, manufactures, stores for sale, sells or distributes; (a) utility interconnected photovoltaic inverters, (b) power converters for use in PV power system, (c) PV modules (wafer and thin film) (d) thin film terrestrial PV modules; and (e) crystalline silicon terrestrial PV modules (collectively the “**Goods**”) would require registration from the Bureau of Indian Standards for use of the Standard Mark as specified in the Schedule of the Compulsory Registration Order. The Compulsory Registration Order seeks to prohibit the manufacture or storage for sale, import, or distribution of the Goods which do not conform to the standard specified under the Compulsory Registration Order. However, pursuant to the notifications of MNRE dated April 16, 2018 and October 12, 2018, considering the time taken for tests and the framing of the guidelines for such tests, manufacturers of SPV modules and inverters were permitted in the interim to continue operations by submitting a self-certification that their products conform to the relevant Indian standards or their IEC counterparts along with proof of submission of samples to laboratories with the expected date of completion of testing. With respect to SPV modules ((c), (d) and (e) above), the timeline for submission of such self-certification together with samples for a test lab recognized by BIS pending results was January 1, 2019. However, pursuant to a subsequent notification dated January 4, 2019 of the MNRE, manufacturers of inverters ((a) and (b) above) have been permitted to continue operations by only submitting self-certification by June 30, 2019 without submission of samples to test labs till the series guidelines for submission of samples was under preparation, provided that the manufacturers have valid IEC corresponding to the Indian Standard.

Renewable Purchase Obligations

The Electricity Act promotes the development of renewable sources of energy by requiring the relevant electricity regulatory commission to ensure grid connectivity and the sale of electricity generated from renewable sources. In addition, it requires the relevant electricity regulatory commission to specify, for the purchase of electricity from renewable sources, a percentage of the total consumption of electricity within the area of a distribution licensee, which are known as renewable purchase obligations (“RPOs”). Pursuant to this mandate, most of the relevant electricity regulatory commission have specified solar and non-solar RPOs in their respective states. In terms of the RPO regulations, RPOs are required to be met by obligated entities (that is, distribution licensees, captive power plants and open access consumers) by purchasing renewable energy, either by entering into PPAs with renewable energy power producers or by purchasing renewable energy certificates.

Pursuant to the order dated June 14, 2018 (no. 23/03/2016-R&R) issued by the Ministry of Power, Government of India (the “MoP”), the MoP has notified the long-term growth trajectory of renewable purchase obligations for solar and non-solar, uniformly for all states/Union Territories for a period of three years i.e., Fiscal 2020 to 2022.

Further, pursuant to the order dated January 15, 2021 (no. 23/12/2016-R&R) issued by the Ministry of Power, Government of India (the “MoP”), the MoP has notified Waiver of Inter-State Transmission charges and losses on transmission of electricity generated from solar and wind sources of energy.

Further, pursuant to the order dated June 21, 2021 (no. 23/12/2016-R&R Part-(1) [239444]) read with the order dated January 15, 2021 (no. 23/12/2016-R&R) issued by the Ministry of Power, Government of India (the “MoP”), the MoP has notified Waiver of Inter-State Transmission charges and losses on transmission of electricity generated from solar and wind sources of energy – **Amendment thereof.**

Renewable Energy Certificates Regulations (“REC Regulations”)

The Central Electricity Regulatory Commission notified the REC Regulations on January 29, 2020 which has been amended from time to time. REC Regulations was enacted to develop the market in electricity from non-conventional energy sources by issuance of transferable and saleable credit certificates (“REC Mechanism”). The REC Mechanism provides a market-based instrument which can be traded freely and provides means for fulfilment of RPOs by the distribution utilities/consumers. Under the REC Regulations, there are two categories of certificates, i.e., solar certificates issued to eligible entities for generation of electricity based on solar as renewable energy source and non-solar certificates issued to eligible entities for generation of electricity based on renewable energy sources other than solar. The REC Regulations determine the quantum of such certificates to be issued to the eligible entities and the method of dealing in the certificates.

The National Load Despatch Centre is the central agency which oversees the REC Mechanism, including, inter alia, registration of eligible entities, issuance of certificates, maintaining and settling accounts in respect of certificates, acting as repository of transactions in certificates and such related functions of the REC Mechanism as may be assigned by the CERC. There are certain conditions which are now imposed on electricity generating company, distribution licensee and captive generation plant to be eligible to apply for REC.

Integrated Energy Policy 2006

The Integrated Energy Policy, 2006, (“Policy”) is a report of an expert committee constituted by the Government of India, to explore alternative technologies and possible synergies that would increase energy system efficiency and meet the requirement for energy services. The aims and objectives of this Policy include, amongst others, providing appropriate fiscal policies to take care of externalities, tax measures, transparent and targeted subsidies, promoting energy efficiency, providing incentive for renewable energy production by linking the incentive to not just the outlay but also the output. The Policy also provides for the respective power regulators to mandate feed-in-laws for renewable energy, as may be appropriate and as provided under the Electricity Act.

Net Metering Regulations

These regulations have been formulated by various states to promote the generation of electricity from renewable energy sources in respect of the grid connected solar rooftop photovoltaic systems. These regulations regulate the supply of excess electricity from an eligible consumer allowing the consumer to export the excess quantum of electricity produced from his premises to the distribution licensee. Under these regulations, the eligible consumer can avail the benefit of the excess quantum supplied to be carried forward to the next billing cycle as credited units of electricity.

Grid Connected Solar Rooftop Programme

The aim of this initiative is to achieve a cumulative capacity of 40,000 MW from the rooftop solar projects by 2022. Phase-II of the Grid Connected Solar Rooftop Programme was approved by the Cabinet Committee on Economic

Affairs (“CCEA”) and provides for central financial assistance for residential rooftop solar installations upto 40% for rooftop systems up to a capacity of 3 kW and 20% for those with a capacity of 3-10 kW. The Phase-II also focuses on increasing the incentives for DISCOMs based on achievement of certain installed capacity.

Foreign Investment Regulations

In terms of the Consolidated FDI Policy, 2020, issued by the Department for Promotion of Industry and Internal Trade (formerly, Department of Industrial Policy and Promotion), 100% foreign investment is permitted under automatic route in the manufacturing sector.

State solar policies

Our Company’s operations are also subject to the solar policies framed in the states in which the solar power projects are implemented, and we supply our products to such projects. Such policies typically provide a framework for the governance of the solar power industry and projects, procedures for undertaking of bids, terms of the renewable purchase obligations, connectivity to grid lines and the measures to be taken to promote the development of solar power in the state, including incentives to manufacturers such as grants of concessions on certain taxes, research and development initiatives.

The Micro, Small and Medium Enterprises Development Act, 2006 (“MSME Act”):

MSME Act was enacted to provide for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises. Any person who intends to establish (a) a micro or small enterprise, at its discretion; (b) a medium enterprise engaged in providing or rendering of services may, at its discretion; or (c) a medium enterprise engaged in manufacture or production of goods pertaining to any industry specified in the First Schedule to the Industries (Development and Regulation) Act, 1951 is required to file a memorandum before such authority as specified by the State Government or the Central Government. The form of the memorandum, the procedure of its filing and other matters incidental thereto shall be such as may be specified by the Central Government, based on the recommendations of the advisory committee. Accordingly, in exercise of this power under the MSME Act, the Ministry of Micro, Small and Medium Enterprises notification dated September 18, 2015 specified that every micro, small and medium enterprises is required to file a Udyog Adhaar Memorandum in the form and manner specified in the notification.

B. EMPLOYMENT AND LABOUR LAWS

The Employees’ Provident Fund and Miscellaneous Provisions Act, 1952

The Employees Provident Funds and Miscellaneous Provisions Act, 1952, as amended from time to time (—EPF Act||), mandates provisioning for provident fund, family pension fund and deposit linked insurance in factories and other establishments for the benefits of the employees. All the establishments under the EPF Act are required to be registered with the appropriate Provident Fund Commissioner. Also, in accordance with the provisions of the EPF Act, the employer of such establishment is required to make a monthly contribution to the provident fund equivalent to the amount of the employee’s contribution to the provident fund. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities.

The Employees’ State Insurance Act, 1948 (the “ESI Act”)

The promulgation of Employees' State Insurance Act, 1948 envisaged an integrated need based social insurance scheme that would protect the interest of workers in contingencies such as sickness, maternity, temporary or permanent physical disablement, death due to employment injury resulting in loss of wages or earning.

All the establishments to which the Employees State Insurance (ESI) Act applies are required to be registered under the Act with the Employees State Insurance Corporation. The Act requires all the employees of the factories and establishments to which the Act applies to be insured in the manner provided under the Act. Further, employer and employees both are required to make contribution to the fund at the rate prescribed by the Central Government. The return of the contribution made is required to be filed with the Employee State Insurance department.

The Shop and Establishment Act, 1971

The Shop and Establishment Act serves as a vital regulatory framework in India, designed to govern a myriad of businesses engaging in trade or commerce. Its primary objective is to establish standard operating procedures, ensuring a conducive and healthy work environment. Enacted to enhance the management of working conditions, the Act extends its purview to shops, commercial establishments, restaurants, hotels, theatres, and various public places of amusement.

This legislation plays a pivotal role in safeguarding the welfare of labourers by stipulating regulations on leave policies, paid leaves, holidays, work hours, maternity benefits, conditions of child employment, and termination procedures. Moreover, the Shop and Establishment Act bestows legal status upon businesses, providing owners with a license that not only ensures compliance but also enhances credibility. Thus, obtaining registration under this Act becomes essential for businesses, offering a pathway to better benefits and a reputable standing in the commercial landscape.

The Equal Remuneration Act, 1976

Equal Remuneration Act, 1976 was enacted with the aim of state to provide Equal Pay and Equal Work as envisaged under Article 39 of the Constitution. The act provides for payment of equal remuneration to men and women workers and for prevention of discrimination, on the ground of sex, against female employees in the matters of employment and for matters connected therewith.

Payment of Gratuity Act, 1972

The Payment of Gratuity Act is applicable to every factory, mine, oilfield, plantation, port, railway companies and to every shop and establishment in which 10 or more persons are employed or were employed at any time during the preceding twelve months. This Act applies to all employees irrespective of their salary.

The Payment of Gratuity Act, as amended, provides for a scheme for payment of gratuity to an employee on the termination of his employment after he has rendered continuous service for not less than 5 years:

- (a) on his/her superannuation;
- (b) on his/her retirement or resignation;
- (c) on his/her death or disablement due to accident or disease (in this case the minimum requirement of five years does not apply)

A shop or establishment to which this act has become applicable shall be continued to be governed by this act irrespective of the number of persons falling below ten at any day.

Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965 is applicable to every factory and every other establishment employing twenty (20) or more persons. Every employee shall be entitled to be paid by his employer in an accounting year, bonus, in accordance with the provisions of this Act, provided he has worked in the establishment for not less than thirty working days in that year.

The Maternity Benefit Act, 1961

The purpose of the Maternity Benefit Act, 1961 is to regulate the employment of pregnant women in certain establishments for certain periods and to ensure that they get paid leave for a specified period before and after childbirth, or miscarriage or medical termination of pregnancy. It provides, inter alia, for payment of maternity benefits, medical bonus and prohibits the dismissal of and reduction of wages paid to pregnant women, etc. Government, further amended the Act which is known as The Maternity Benefit (Amendment) Act, 2016, effective from March 28, 2017 introducing more benefits for pregnant women in certain establishments

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (—SHWW Act||) provides for the protection of women at workplace and prevention of sexual harassment at workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following

acts or behaviour namely, physical contact and advances or a demand or request for sexual favors or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee, which shall always be presided upon by a woman.

EMPLOYMENT AND LABOUR LAWS

Certain other laws and regulations that may be applicable to our Company in India include the following:

- Industrial (Development and Regulation) Act, 1951 (“IDRA”)
- Industrial Disputes Act, 1947 (“ID Act”)
- Child Labour (Prohibition and Regulation) Act, 1986
- Inter-State Migrant Workers (Regulation of Employment and Conditions of Service) Act, 1979
- Contract Labour (Regulation and Abolition) Act, 1970 (CLRA) and Contract Labour (Regulation and Abolition) Central Rules, 1971 (Contract Labour Rules)
- Workmen Compensation Act, 1923 (“WCA”)
- Industrial Employment Standing Orders Act, 1946
- The Employees Compensation Act, 1923 (“EC Act”) and the rules framed thereunder
- Minimum Wages Act, 1948 (“MWA”) and the rules framed thereunder

C. ENVIRONMENTAL LAWS

Our Company is subject to Indian laws and regulations concerning environmental protection.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

Air (Prevention and Control of Pollution) Act, 1981

Air (Prevention and Control of Pollution) Act 1981 (-the Act) was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act, 1974 (-the Act) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

The Water (Prevention and Control of Pollution) Cess Act, 1977 (“Water Pollution Cess Act”)

The Water Pollution Cess Act has been enacted to provide for the levy and collection of a cess on water consumed by persons carrying on certain industries to augment the resources of the central pollution control board and state pollution control boards. The Water Pollution Cess Act also provides for a rebate to the extent of 25% of the cess payable, in favour of persons

who, being liable to cess under the Water Pollution Cess Act, install any plant for the treatment of sewage or effluents. However, this rebate is not applicable to persons consuming water in excess of the maximum prescribed quantity or who fail to comply with the provisions of section 25 of the Water Act or who fail to adhere to standards laid down by the Central Government under the Environment Act.

D. TAX LAWS

Income Tax Act, 1961

The Income Tax Act, 1961 deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of this Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of Income is compulsory for all assesses. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act.

The Goods and Services Tax ("GST")

The GST is applicable on the supply of goods or services as against the present concept of tax on the manufacture and sale of goods or provision of services. It is a destination-based consumption tax. It is dual GST with the Central and State Governments simultaneously levying it on a common tax base. The GST to be levied by the Centre on intra-State supply of goods and / or services is called the Central GST (CGST) as provided by the CGST Act and that to be levied by the States is called the State GST (SGST) as given under the SGST Acts. An Integrated GST (IGST) under the IGST Act is to be levied and collected by the Centre on inter-State supply of goods and services. The CGST and SGST is to be levied at rates to be jointly decided by the Centre and States.

Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration numbers known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. The registered assessed is then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

There are indirect taxes that are levied and collected by the Central and State Government which are now subsumed under GST. Some of the taxes which were applicable to the Company are as follows:

- Service Tax
- Value Added tax
- The Central Sales Tax Act, 1956

The Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made thereunder are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get itself registered and obtain an Importer Exporter Code.

E. INTELLECTUAL PROPERTY RELATED LAWS

The Trade Marks Act, 1999 ("Trademark Act")

The Trademark Act provides for the statutory protection of trademarks and for the prevention of the use of fraudulent marks in India. Certification marks and collective marks can also be registered under the Trademark Act. An application for trade mark registration may be made by any person claiming to be the proprietor of a trade mark used or proposed to be used by him, who is desirous of registering it. Applications for a trade mark registration may be made for in one or more

classes. Once granted, trade mark registration is valid for ten years unless cancelled.

The Trade Mark (Amendment) Act, 2010 has been enacted by the Government of India to amend the Trademark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trade mark in other countries.

F. CORPORATE LAWS

The Companies Act, 2013

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of President of India on 29th August 2013. At present almost all the provisions of this law have been made effective except a very few. The Ministry of Corporate Affairs, has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning and restructuring of separate legal entity as Companies. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law laid down transparency, corporate governance and protection of shareholders & creditors.

In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection

Competition Act, 2002

The Competition Act, 2002 came into effect on June 1, 2011 and has been enacted to “prohibit anti- competitive agreements, abuse of dominant positions by enterprises” and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The Act prohibits Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

Indian Contract Act, 1872

Indian Contract Act codifies the way we enter into a contract, execute a contract, implementation of provisions of a contract and effects of breach of a contract. The Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them.

The Registration Act, 1908 (“Registration Act”)

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

The Consumer Protection Act, 2019

The Consumer Protection Act provides better protection to the interests of consumers. This is enabled with the establishment of consumer councils and other authorities for the settlement of consumers’ disputes and matters connected therewith. The Consumer Protection Act protects the consumers against any unfair/restrictive trade practice that has been adopted by any trader or service provider or if the goods purchased by him suffer from any defect or deficiency. In case of consumer disputes, the same can be referred to the redressal forums set up under the Act.

G. FOREIGN REGULATIONS

The Foreign Trade (Development and Regulation) Act, 1992 (“FTA”)

In India, the main legislation concerning foreign trade is FTA. The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

Foreign Exchange Management Act, 1999

When a business enterprise imports goods from other countries, exports its products to them or makes investments abroad, it deals in foreign exchange. Foreign Exchange Management Act, 1999 (—FEMA) was enacted to consolidate and amend the law relating to foreign exchange with the objective of facilitating external trade and for promoting the orderly development and maintenance of foreign exchange market in India. FEMA extends to whole of India. This Act also applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention committed thereunder outside India by any person to whom the Act is applies. The Act has assigned an important role to the Reserve Bank of India (RBI) in the administration of FEMA.

H. GENERAL LAW

Sale of Goods Act, 1930

The law relating to the sale of goods is codified in the Sale of Goods Act, 1930. It defines sale and agreement to sell as a contract whereby the seller transfers or agrees to transfer the property in goods to the buyer for a price and provides that there may be a contract of sale between part owner and another and that the contract of sale may be absolute or conditional.

Transfer of Property Act, 1882 (“TP Act”)

The Transfer of Property Act, 1882 (the —TP Act) establishes the general principles relating to transfer of property in India. It forms a basis for identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for that purpose.

The Indian Stamp Act, 1899

Under the Indian Stamp Act, 1899, stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state.

Limitation Act, 1963

The law relating to Law of Limitation to India is the Limitation Act, 1859 and subsequently Limitation Act, 1963 which was enacted on 5th of October, 1963 and which came into force from 1st of January, 1964 for the purpose of consolidating and amending the legal principles relating to limitation of suits and other legal proceedings. The basic concept of limitation is relating to fixing or prescribing of the time period for barring legal actions. According to Section 2 (j) of the Limitation Act, 1963, period of limitation ‘means the period of limitation prescribed for any suit, appeal or application by the Schedule, and prescribed period ‘means the period of limitation computed in accordance with the provisions of this Act.

DETAILS OF BUSINESS OF OUR COMPANY

Our company is involved in the distribution of a wide range of solar inverters and solar panels. Our company is an authorized distributor of Sungrow India Pvt Ltd or "Sungrow" for Solar Inverters in North India, and we are also authorized distributors for Saatvik Green Energy Private Limited or "Saatvik" and LONGi Solar Technology Co. Ltd or "LONGi" for solar panels in North India. Additionally, we serve as an integrated solar energy solutions provider, delivering comprehensive engineering, procurement, and construction ("EPC") services to our commercial and residential customers, however the contribution of this segment is comparatively very less as compared to business of distribution of solar inverters and solar panels.

Our company also has its own brand called "Invergy". Under the Invergy brand, we sell hybrid solar inverters and lithium ferro phosphate (LFP) batteries. Invergy deals in OEM manufacturing for hybrid and LFP products. Invergy has its own quality and reliable protocol for contract manufacturing of these products. Invergy manages its own supply chain stream to provide easy and comfortable transitions.

"Invergy buys, make the contract manufacturing, and then sell to the end customers. Invergy has its own quality and reliable protocol for contract manufacturing of these products." Invergy takes an active role in overseeing and controlling the various

stages involved in the supply chain. The manufacturing contractor encompasses all the processes from the acquisition of raw materials to the delivery of the final products to Invergy and Invergy thereafter sell to the customers. The goal is to create a seamless and comfortable experience, ensuring that products move from manufacturing to the hands of customers without disruptions or delays.

Our Company got certification of ISO 9001:2015 in Quality Management System, certificate number - Q-205023102805, which is valid up to October 27, 2026.

RESTATED FINANCIAL INFORMATION

INDEPENDENT AUDITORS' REPORT ON RESTATED FINANCIAL STATEMENTS

To,
The Board of Directors
GP ECO SOLUTIONS INDIA LIMITED,
B-39, Sector -59, Noida, Uttar Pradesh, India

Dear Sirs,

We M/s N K M R & Co, Chartered Accountants have examined the attached Restated Financial Statements along with significant accounting policies and related notes of GP Eco Solutions India Limited (the "Company") for the period ended December 31, 2023, for the years ended March 31, 2023, March 31, 2022, and March 31, 2021 annexed to this report and prepared by the Company for the purpose of inclusion in the Offer Document in connection with its proposed Initial Public Offer ("IPO") on the SME Platform of NSE India Limited ("NSE EMERGE")

1. These Restated Financial Statements have been prepared in accordance with the requirements of:

(i) Part I of Chapter III to the Companies Act, 2013 ("the Act") read with Companies (Prospectus and Allotment of Securities) Rules 2014;

(ii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 ("ICDR Regulations") issued by the Securities and Exchange Board of India ("SEBI") in pursuance to Section 11 of the Securities and Exchange Board of India Act, 1992 and related amendments/clarifications from time to time;

(iii) The terms of reference to our engagements with the Company requesting us to carry out the assignment, in connection with the Draft Red Herring Prospectus / Red Herring Prospectus / Prospectus being issued by the Company for its proposed IPO of equity shares on SME Platform of NSE India Limited ("NSE EMERGE"); and

(iv) The Guidance Note on Reports in Company Prospectus (Revised 2019) issued by the Institute of Chartered Accountants of India ("Guidance Note").

2. The Restated Financial Statements of the Company have been extracted by the management from the Audited Financial Statements of the Company as at March 31, 2023, March 31, 2022, and March 31, 2021.

3. In accordance with the requirements of Part I of Chapter III of Act including rules made therein, ICDR Regulations, Guidance Note and Engagement Letter, we report that:

(i) The "Restated Financial Statement of Assets and Liabilities" as set out in Annexure I to this report, of the Company as at December 31, 2023, March 31, 2023, March 31, 2022, and March 31, 2021, are prepared by the Company and approved by the Board of Directors. These Restated Financial Statements of Assets and Liabilities have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV to this Report.

(ii) The "Restated Financial Statement of Profit and Loss" as set out in Annexure II to this report, of the Company as at December 31, 2023, March 31, 2023, March 31, 2022, and March 31, 2021, are prepared by the Company and approved by the Board of Directors. These Restated Financial statements of Profit and Loss have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV to this Report.

(iii) The "Restated Financial Statement of Cash Flow" as set out in Annexure III to this report, of the Company as at December 31, 2023, March 31, 2023, March 31, 2022, and March 31, 2021, are prepared by the Company and approved by the Board of Directors. These Statement of Cash Flow, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV to this Report.

4. Based on the above and also as per the reliance placed by us on the audited financial statements of the Company and report thereon given by M/s GSM & Company, the Statutory Auditor of the Company for the financial years ended March 31, 2023, March 31, 2022, and March 31, 2021 we are of the opinion that:

- a) The Restated Financial Statements have been made after incorporating adjustments for the changes in accounting policies retrospectively in respective financial years to reflect the same accounting treatment as per the changed accounting policy for all reporting years, if any;
- b) The Restated Financial Statements have been made after incorporating adjustments for prior period and other material amounts in the respective financial years to which they relate and there are no qualifications which require adjustments;
- c) Extra-ordinary items that need to be disclosed separately in the accounts has been disclosed wherever required;
- d) There were no adverse qualifications in the Audit Reports issued by the Statutory Auditors for the financial year ended on March 31, 2023, March 31, 2022, and March 31, 2021 which would require adjustments in this Restated Financial Statements of the Company;
- e) Profits and losses have been arrived at after charging all expenses including depreciation and after making such adjustments/restatements and regroupings as in our opinion are appropriate and are to be read in accordance with the Significant Accounting Polices and Notes to Accounts as set out in Annexure IV to this report;
- f) Adjustments in Restated Financial Statements have been made in accordance with the correct accounting policies, which includes the impact of provision of gratuity made in the Restated Financial Statements;
- g) There was no change in accounting policies, which needs to be adjusted in the Restated Financial Statements except mentioned in clause (f) above;
- h) There are no revaluation reserves, which need to be disclosed separately in the Restated Financial Statements;
- i) The company has not proposed any dividend for the said year.

5. For the purpose of our examination, we have relied on the Auditor's Report issued by the Statutory Auditors dated September 08, 2023, August 27, 2022 and November 19, 2021 on the financial statements of the Company as at and for the years ended March 31, 2023, March 31, 2022 and March 31, 2021, respectively.

6. Opinion:

2. RESTATED SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

2.1 BASIS OF PREPARATION

This Restated financial information of the Company have been prepared in accordance with Indian Generally Accepted Accounting Principles (Indian GAAP) under the historical cost convention on the accrual basis. Indian Generally Accepted Accounting Principles (Indian GAAP) comprises mandatory accounting standards as prescribed under section 133 of the Companies Act, 2013 (the Act and other relevant provisions of the Act) read with Rule 7 of Companies (Accounts) Rules, 2014 (as amended from time to time) as applicable and other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

This Restated financial information is presented in Indian Rupees (INR) and all values are rounded to the nearest lakh, except when otherwise indicated.

2.2 PRESENTATION OF FINANCIAL STATEMENT

This Restated Financial information of the Company are presented as per schedule III (Division II) of the Companies Act, 2013, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis.

2.3 SIGNIFICANT ACCOUNTING POLICIES

2.3.1 CURRENT VS NON-CURRENT CLASSIFICATION

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has identified twelve months as its operating cycle.

2.3.2 REVENUE RECOGNITION

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenues are generally measured and accounted for on accrual basis. The following specific recognition criteria must also be met before revenue is recognized.

Sale of goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. The company collects goods & service taxes (GST) on behalf of the government and, therefore, these are not economic benefits flowing to the company. Hence, they are excluded from revenue.

Revenue is recognised upon transfer of control of promised goods or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from sales of goods is recognised on output basis measured by units delivered, number of transactions etc.
- Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which coincides with the performance obligation under the contract with the customer.
- Revenue from services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred

Revenue is measured based on the transaction price, which is the consideration, adjusted for cash discounts, schemes discounts, claim paid, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from related party is recognised based on transaction price which is at arm's length.

Use of significant judgments in revenue recognition:

- The Company's contracts with customers could include promises to transfer multiple products and services to acustomer. The Company assesses The products / services promised in a contract and identifies distinct performance obligations in The contract. Identification of distinct performance obligation involves judgments to determine The deliverables and The ability of The customer to benefit independently from such deliverables.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Interest Income is recognised on time proportion basis taking into account the amount outstanding and the applicable interest rates and is disclosed in "other income".

2.3.3 EXPENSES

(i) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset till the date of such acquisition, construction or production is capitalized as part of the cost of that asset. All other borrowing costs are recognized as an expense in the period in which they are incurred

(ii) Retirement And Other Employee Benefits:

Short term employee benefits: All employee benefits payable wholly within twelve months of rendering the services are classified as short-term employee benefits. These benefits include salaries and wages etc and medical expenses and are recognised in the period in which the employee renders the related services.

Provident Fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the Provident Fund which is an amount determined as a fixed percentage of basic pay to the fund every month. The Company recognizes contribution payable to the provident funds an expense, when an employee renders the related service.

Gratuity Plan -The Company provides for gratuity, a defined benefit plan (the "Gratuity" plan) which is unfunded covering eligible employees in accordance with the payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses / gains are recognized in the other comprehensive income in the year in which they arise. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.
- Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:
 - Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
 - Net interest expense or income

There are no other post employment benefits or other long-term employee benefits provided by the Company.

Expenses incurred towards voluntary retirement scheme are charged to the statement of profit and loss in the year such scheme is accepted by the employees/workers.

(iii) **Other income and expenses**

All other income and expense are recognized in the period they occur.

2.3.4 Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.3.5 LEASES

COMPANY AS A LESSEE/RENT

The Company has taken one premises under lease/rent agreements-warehouse and industrial plots.

The determination of whether an arrangement is a lease/rent, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration.

2.3.6 TAXES

CURRENT INCOME TAX

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income (OCI) or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

DEFERRED TAX

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

MINIMUM ALTERNATE TAX (MAT)

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that it is probable that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the MAT Credit Entitlement asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

2.3.7 FINANCIAL INSTRUMENTS

Initial recognition:

The Company recognizes Financial assets and Financial liabilities when it becomes a party to the contractual provisions of the instruments. All Financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of Financial assets and Financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

Financial liabilities and equity instruments: Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Instruments (including convertible preference shares) that meet the definition of 'Equity' in its entirety and which do not have any component of liability, is classified as Equity and grouped under 'Instruments entirely equity in nature'. Equity instruments are recorded at the proceeds received, net of direct issue costs. The transaction costs of an equity transaction are accounted for as a deduction from equity to the extent they are incremental costs directly

attributable to the equity transaction that otherwise would have been avoided. The costs of an equity transaction that is abandoned are recognised as an expense.

Subsequent measurement:

i. Financial assets carried at amortized cost

A Financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii. Financial assets at fair value through profit or loss

A Financial asset which is not classified in the above category is subsequently fair valued through profit or loss.

iii. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.3.8 FAIR VALUE MEASUREMENTS

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement, the Company measures certain categories of financial instruments at fair value on each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:
i. In the principal market for the asset or liability, or
ii. In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2.3.9 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short-term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value, cheques on hand and balances with banks. They are held for the purposes of meeting short-term cash commitments (rather than for investment or other purposes). For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

2.3.10 PROPERTY, PLANT & EQUIPMENT (PPE)

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates. Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

The present value of the expected cost for decommissioning of an asset after its use is included in the cost of the respective asset, if the recognition criteria for a provision are met.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

DEPRECIATION

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

The estimated useful lives are as follows:

Plant and machinery: 15 years

Furniture and Fixtures: 10 Years

Computers: 3 Years

Vehicles: 8 Years

Depreciation on Property, plant & equipment added/disposed off during the year is provided on pro-rata basis with respect to date of acquisition/ disposal.

2.3.11 INVENTORIES

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Finished goods and work-in-progress: Cost includes cost of direct materials and labour and a proportion of fixed manufacturing overheads based on the normal operating capacity. Cost is determined on a weighted average basis.

Traded goods: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Stores and spares: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.3.12 PROVISIONS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of profit or loss, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as part of finance costs.

2.3.13 CONTINGENT LIABILITY

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

2.3.14 EARNING PER SHARE

Basic earning per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

2.3.15 INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as bank charges, fees, duties etc. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

2.3.16 CRITICAL ACCOUNTING JUDGEMENTS, ASSUMPTIONS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The following are the critical judgements, assumptions concerning the future, and key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next Financial year.

i. Useful lives of property, plant and equipment

As described above, the charge in respect of periodic depreciation for the year is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the management at the time the asset is acquired and reviewed annually. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset

ii. Employee benefits

The cost of defined benefit plans are determined using actuarial valuation, which involves making assumptions about discount rates, expected rates of return on assets, future salary increases, and mortality rates. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

iii. Taxation

Significant assumptions and judgements are involved in determining the provision for tax based on tax enactments, relevant judicial pronouncements and tax expert opinions, including an estimation of the likely outcome of any open tax assessments / litigations. Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available, based on estimates thereof. Significant assumptions are also involved in evaluating the recoverability of deferred tax assets recognised on unused tax losses.

iv. Provisions and contingencies

Critical judgements are involved in measurement of provisions and contingencies and estimation of the likelihood of occurrence thereof based on factors such as expert opinion, past experience etc.

v. Impairment of Trade receivable - Expected Credit loss

The Company makes allowances for doubtful trade receivables (Expected Credit Loss Allowance) based on a provision matrix which takes into account Company's past history and adjusted for current estimates.

vi. Estimation of uncertainties relating to the global health pandemic due to COVID-19 (COVID-19)

The Company, based on the internal and external information available up to the date of approval of these Restated Financial Information, has concluded that no adjustments are required in the carrying amounts of its Financial assets and other assets. Given the uncertainties associated with the nature and duration of the pandemic, actual results may differ from those estimated as at the date of approval of the Restated Financial Information. The Company will continue to monitor future economic conditions and update its assessment.

vii. Foreign Exchange Transactions:

A transaction in a foreign currency has been recorded in rupees by applying to the foreign currency the exchange rate existing at the time of the transaction.

Assets and Liabilities are translated at period-end exchange rates and the profit or loss so determined and also the realized exchange gains or losses are recognized in profit & loss account

viii. Party balances whether in debit or in credit are subject to confirmation.

ix. Previous year's figures have been regrouped and reclassified wherever considered necessary.

Other Notes to Financial Statements for the year ended 31st December 2023

The Equity Shares shall also be subject to laws as applicable, guidelines, notifications and regulations relating to the offer of capital and listing and trading of securities issued from time to time by SEBI, the Government of India, the Stock Exchanges, the RBI, the FIPB, the RoC and/or other authorities, as in force on the date of the Offer and to the extent applicable.

For details in relation to Offer expenses, see “Objects of the Issue” on pages 71.

Ranking of Equity Shares

The Equity Shares being issued and transferred in the Issue shall be subject to the provisions of the Companies Act, 2013 and the Memorandum & Articles of Association and shall rank *pari-passu* with the existing Equity Shares of our Company including rights in respect of dividend. The Allottees upon receipt of Allotment of Equity Shares under this issue will be entitled to dividends and other corporate benefits, if any, declared by our Company after the date of allotment in accordance with Companies Act, 2013 and the Articles of Association of the Company.

Authority for the Issue

This Issue has been authorized by a resolution of the Board passed at their meeting held on November 20, 2023, subject to

the approval of shareholders through a special resolution to be passed pursuant to section 62 (1) (c) of the Companies Act, 2013. The shareholders have authorized the Issue by a special resolution in accordance with Section 62 (1) (c) of the Companies Act, 2013 passed at the EGM of the Company held on November 27, 2023.

Mode of Payment of Dividend

The declaration and payment of dividend will be as per the provisions of Companies Act, 2013 and recommended by the Board of Directors at their discretion and approved by the shareholders and will depend on a number of factors, including but not limited to earnings, capital requirements and overall financial condition of our Company. We shall pay dividends in cash and as per provisions of the Companies Act, 2013. For further details, please refer to the chapter titled 'Dividend Policy' beginning on pages 160 of this Draft Red Herring Prospectus.

Offer for Sale

In the case of offer for sale, the dividend for the entire year shall be payable to the transferees and the company has to disclose the name of the entity bearing the cost of making offer for sale along with reasons. However, the present issue does not include offer for sale and hence the said disclosure is not applicable to us.

Face Value and Issue Price

The face value of each Equity Share is ₹ 10/-. The Issue Price of Equity Shares is ₹ [•] per Equity Share. The Issue Price shall be determined by our Company in consultation with the Lead Manager and is justified under the chapter titled Basis of Issue Price beginning on page 82 of this Draft Red Herring Prospectus.

Minimum Number of Allottees

Further in accordance with the Regulation 268(1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and all the monies blocked by SCSBs shall be unblocked within two (2) working days of closure of Issue.

Joint Holders

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Jurisdiction

Exclusive Jurisdiction for the purpose of this Issue is with the competent courts/authorities in India.

Further, the Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Nomination Facility to the Investor

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Applicant, or the first Applicant along with other joint Applicants, may nominate any one person in whom, in the event of the death of sole Applicant or in case of joint Applicants, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of Equity Share(s) by the person nominating. A buyer will be titled to make afresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon production of such evidence, as may be required by the Board, elect either:

To register himself or herself as the holder of the equity shares; or to make such transfer of the equity shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the equity shares, and if the notice is not complied with within a period of ninety (90) days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the equity shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant

would prevail. If the Applicants require changing of their nomination, they are requested to inform their respective depository participant.

Restrictions, if any on Transfer and Transmission of Equity Shares

Except for the lock-in of the pre-Issue capital of Promoters, Promoter Group, Public as provided in —Capital Structure on page 67 of this Draft Red Herring Prospectus and except as provided in the Articles of Association there are no restrictions on transfer of Equity Shares. Book Building Procedure

In terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the “SCRR”) read with Regulation 252 of SEBI ICDR Regulations, 2018, the Offer is being made for at least 25% of the post-Issue paid-up Equity Share capital of our Company. The Offer is being made under Regulation 229(2) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process wherein not more than 50% of the Offer shall be allocated on a proportionate basis to QIBs, provided that our Company and may, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Offer shall be available for allocation to Retail Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Subject to valid Bids being received at or above the Offer Price, undersubscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spillover from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Investors should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders’ depository account, including DP ID, Client ID, PAN and UPI ID, as applicable, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board

public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to three Working Days. Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Offer.

The Offer will be made under UPI Phase II of the UPI Circulars, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid/Offer Opening Date. If the Offer is made under UPI Phase III of the UPI Circular, the same will be advertised in shall be advertised in all editions of [●], a widely circulated English national daily newspaper and all editions of [●], a widely circulated Hindi national daily newspaper, as the registered office of our company is situated in Noida, Uttar Pradesh, therefore Hindi being regional language of State, each with wide circulation on or prior to the Bid/Offer Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of of SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022.

Further, pursuant to SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all Retail Individual Bidders applying in public issues where the application amount is up to ₹ 500,000 shall use UPI and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Offer and the same shall be advertised in all editions of the English national newspaper [●], all editions of Hindi national newspaper [●] and the registered office of our company is situated in Noida, Uttar Pradesh, therefore Hindi being regional language of State with wide circulation at least two Working Days prior to the Bid / Offer Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Offer Period.

- a) The Bid / Offer Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Offer Period may be extended, if required, by an additional three Working Days, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be published in all editions of the English national newspaper [●], all editions of Hindi national newspaper [●] and the registered office of our company is situated in Noida, Uttar Pradesh, therefore

Hindi being regional language of State with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.

- b) During the Bid/ Offer Period, Retail Individual Bidders, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidders in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Offer Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form
- f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Offer Period i.e. one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section “Issue Procedure” beginning on page 250 of this Draft Red Herring Prospectus.
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Offer Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

- a) RIs can withdraw their Bids until Bid/ Offer Closing Date. In case a RI wishes to withdraw the Bid during the Bid/ Offer Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB in the ASBA Account.
- b) The Registrar to the Offer shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Offer Price and the Anchor Investor Offer Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e) In case if the Retail Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%

1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Retail Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer. However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

BASIS OF ALLOTMENT

a. For Retail Individual Bidders

Bids received from the Retail Individual Bidders at or above the Offer Price shall be grouped together to

determine the total demand under this category. The Allotment to all the successful Retail Individual Bidders will be made at the Offer Price.

The Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Retail Individual Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Offer Price, full Allotment shall be made to the Retail Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares at or above the Offer Price, the Allotment shall be made on a proportionate basis up to a minimum of 2,000 Equity Shares and in multiples of 2,000 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Offer Price.

The Offer size less Allotment to QIBs and Retail shall be available for Allotment to Non- Institutional Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Offer Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares at or above the Offer Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. For QIBs

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI ICDR Regulations or RHP / Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Offer Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Offer Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

a) In the first instance allocation to Mutual Funds for 5% of the QIB Portion shall be determined as follows:

- In the event that Bids by Mutual Fund exceeds 5% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5% of the QIB Portion.
- In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
- Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

b) In the second instance Allotment to all QIBs shall be determined as follows:

- In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, up to a minimum of 2,000 Equity Shares and in multiples of 2,000 Equity Shares thereafter for 95% of the QIB Portion.

- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of 2,000 Equity Shares and in multiples of 2,000 Equity Shares thereafter, along with other QIB Bidders.
- Under-subscription below 5% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [•].
- Equity Shares.

d. ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

- a) not more than 60% of the QIB Portion will be allocated to Anchor Investors;
- b) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
- c) allocation to Anchor Investors shall be on a discretionary basis and subject to:

- a maximum number of two Anchor Investors for allocation up to ₹ 2 crores;
a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crore per such Anchor Investor; and
- in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

c) In the event that the Offer Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Offer Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors

d) In the event the Offer Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

e) Basis of Allotment for QIBs (other than Anchor Investors) and NIIs in case of Over Subscribed Offer:

In the event of the Offer being Over-Subscribed, the Issuer may finalize the Basis of Allotment in consultation with the NSE EMERGE (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).
- c) For Bids where the proportionate allotment works out to less than 2,000 equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted 2,000 equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of 2,000 equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of 2,000 equity shares subject to a minimum allotment of 2,000 equity shares.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 2,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this Prospectus.

Retail Individual Investor' means an investor who applies for shares of value of not more than ₹2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India ("DPIIT").

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("FDI") through press notes and press releases. The DPIIT, has issued consolidated FDI Policy Circular of 2020 ("FDI Policy 2020"), effective from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI and Master Direction – Foreign Investment in India (updated upto March 08, 2019). In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular and Master Direction. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2020 has to be obtained.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP / RBI, from time to time.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020 and amendments from time to time thereupon, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017 as amended from time to time. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral /statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident

entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral /statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "Capital Instruments") of a listed Indian company on a recognized stock exchange in India by Non- Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 as amended from time to time. The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
