2. Summary of the Industry in which the Company operates :

Our Company operates in the healthcare sector. The healthcare market for West India is expected to grow at a CAGR of 16% from ₹ 1.15 trillion in Fiscal 2022 to ₹ 2.25 trillion by Fiscal 2027. Healthcare has become one of India’s largest sectors, both in terms of revenue and employment. India’s healthcare industry comprises hospitals, medical devices and equipment, health insurance, clinical trials, telemedicine and medical tourism. These market segments are expected to diversify as an ageing population with a growing middle class increasingly favours preventative healthcare. The long-term outlook for the hospital sector is stable, with annual revenues likely to grow robustly over the next few years on account of rising domestic demand for healthcare as well as medical tourism. The Government aims to develop India as a global healthcare hub, and is planning to increase public health spending to 2.5% of the country's GDP by 2025. The Union Budget 2023 has allocated a whopping ₹ 88,956 crores to health expenditure, ₹ 2,350 Crore hikes to 2.71 percent from ₹ 86,606 crores in F.Y 2023-24.

The Indian healthcare sector is growing briskly due to its strengthening coverage, services, and increasing expenditure by public and private players. India’s healthcare delivery system is categorized into two major components - public and private. The government, i.e. public healthcare system, comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centers (PHCs) in rural areas. The private sector provides the majority of secondary, tertiary, and quaternary care institutions with a major concentration in metros, tier-I, and tier-II cities.

The adequacy of a country’s healthcare infrastructure and personnel is a barometer of its quality of healthcare. This, in turn, can be assessed from bed density (bed count per 10,000 population) and availability of physicians and nurses (per 10,000 population). The Indian medical tourism market was valued at US\$ 2.89 billion in 2020 and is expected to reach US\$ 13.42 billion by 2026. According to India Tourism Statistics at a Glance 2020 report, close to 697,300 foreign tourists came for medical treatment in India in FY19. India has been ranked 10th in the Medical Tourism Index (MTI) for 2020-21 out of 46 destinations by the Medical Tourism Association. (<https://www.ibef.org/industry/healthcare-india>)

SECTION III - RISK FACTORS

An investment in our Equity Shares involves a high degree of risk. Prospective Investors should carefully consider all the information in the Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares, but also to the industry in which we operate or to India. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in conjunction with “Our Business”, “Restated Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 116, 175 and 226, respectively of this DRHP, as well as the other financial and statistical information contained in this DRHP. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Issue including the merits and risks involved. Potential investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section.

This DRHP also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this DRHP. For further information, please refer to section titled “Forward-Looking Statements” beginning on page 24 of this DRHP.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Statements included in this DRHP. For further information, please refer “Restated Financial Statements” on page 175 of this DRHP. We have, in this DRHP, included various operational and financial performance indicators, some of which may not be derived from our Restated Financial Statements and may not have been subjected to an audit or review by our Statutory Auditors. The manner in which such operational and financial performance indicators are calculated and presented, and the assumptions and estimates used in such calculation, may vary from that used by other companies in same business as of our Company in India and other jurisdictions. Investors are accordingly cautioned against placing undue reliance on such information in making an investment decision and should consult their own advisors and evaluate such information in the context of the Restated Financial Statements and other information relating to our business and operations included in this DRHP.

Internal Risk Factors

Risks relating to our Business

1. ***We are highly dependent on our doctors, nurses and other healthcare professionals, as well as other key personnel and the loss of, or inability to attract or retain, such persons could adversely affect our business and results of operations.***

Our performance and the execution of our growth strategy depend substantially on our ability to attract and retain leading doctors and other healthcare professionals. We compete for these personnel with other healthcare providers. The market for doctors is highly competitive and there is a general shortage of doctors in India. The factors that doctors consider important before deciding where they will work include the level of compensation, the reputation of the hospital and its owner, the quality of the facilities, research opportunities and community relations. We may not compare favorably with other healthcare providers on these factors. Many of these healthcare professionals are well-known personalities in their fields and regions with large patient bases and referral networks, and it may be difficult to negotiate favourable terms and arrangements with them. Our performance also depends on our ability to identify, attract and retain other healthcare professionals, including nurses, to support the multi-speciality practices at our hospital. In particular, the worldwide nursing shortage makes it difficult for us to attract and retain nurses who may choose to pursue similar opportunities abroad and may also cause salaries and wages for nurses to rise. If we are unable to attract or retain doctors or other medical personnel as required, we may not be able to maintain the quality of our services and we could be forced to admit fewer patients to our hospitals. We are also highly dependent on members of our senior management team to manage our current operations and meet future business challenges.

2. ***There are outstanding legal proceedings involving our Company which may adversely affect our business, financial condition and results of operations.***

There are proceedings pending at different levels of adjudication before various courts, enquiry officers and appellate forums. Such proceedings could divert management's time, attention and consume financial resources in their defence. Further, an adverse judgment in some of these proceedings could have an adverse impact on our business, financial condition and results of operations. A summary of the outstanding proceedings involving our Company as disclosed in this Draft Red Herring Prospectus, to the extent quantifiable, have been set out below:

(₹ in thousands)

**To the extent quantifiable*

Orders passed in such proceedings adverse to our interests may affect our reputation and standing and may have a material adverse effect on our business, results of operations and financial condition. For further details, please refer "Outstanding Litigation and Material Developments" beginning on page 238 of this Draft Red Herring Prospectus.

3. ***We are highly dependent on our healthcare professionals including doctors, nurses that we engage on a consultancy basis. If such medical staff discontinue their association with us or are unable to provide their services at our hospitals for any reason or if we are unable to attract or retain such consultants/full time doctors, and other healthcare professionals, our business, results of operations and cash flows may be materially and adversely affected.***

Some of our doctors do not work exclusively with us and are permitted to engage in private practice outside of our business and to work at other hospitals that may compete with us. We may require to revise the compensation packages for our doctors and paramedical staff, to retain them for their professional services, which we may not be able to do in the event when the financial conditions of our hospitals are adversely affected. In such cases, there is no assurance that our medical staff will continue to provide services to us or devote the whole of their time to our hospitals. We may, as a result, be unable to effectively utilize their time and expertise in providing services to our patients. These arrangements may also give rise to conflicts of interest including with regard to how these doctors allocate their time and other resources between our hospitals and other clinics or hospitals at which they work and where doctors refer patients. Such conflicts may prevent us from providing a high quality of service at our hospitals and adversely affect the level of our patient intake which may have an impact on our business, results of operations and cash flows.

4. ***Our company has in the past not complied with some statutory provisions of the Companies Act, 2013/1956, further; there have been some instances of delay and non-filing of various forms which were required to be filed under the provisions of the Act, rules and regulations made thereunder with the RoC.***

Our company has not complied with certain statutory provisions of the Companies Act, 2013 in the past including but not limited to the details mentioned in this risk factor. The company has made non compliance of Section 135 of Companies Act, 2013 pertaining to Corporate Social Responsibility (CSR). The company had attracted CSR compliances in FY 2022 itself, when its Net Profit exceeded ₹ 5 crores in the FY 2020-2021. The company has made non compliance of section 135 of Companies Act, 2013 in terms of non-disclosure in the past Board Report filed with ROC and violation of mandatory 2% spending to be done by the company and related provisions. This continuing non compliance may materially and adversely affect the financial condition, results of operations and future prospects of the company.

5. ***We may generate revenue from the arrangements with government sponsored health schemes, any adverse change in these regulations/government policies related to such schemes may adversely affect our business, results of operations, cash flows and prospects.***

Our revenue is diversified across income streams, including insurance companies, third party administrators and corporations, self-payers and Central and State Government schemes. We provide medical services under various government schemes. Government schemes are an important source of new patient registrations and revenue for us. As a result, if the applicable tariffs specified in the agreements with government payers are revised downwards, or if the extent of coverage or limits are reduced, or if the payment terms are made longer or if the reimbursement policies are changed in the agreements with the government payers or if the government payers terminate their agreements with us, our number of new patient registrations will decline and our revenue and profitability could be negatively affected.

6. ***We are yet to apply for approvals and licenses for our proposed Valsad hospital in our subsidiary company Maitreya Hospital Pvt Ltd and can be applied only after operations are commenced, so in case we are unable to obtain required applicable approvals and licenses on time it will effect the companys revenues, credibility and future plans.***

We have yet not applied for any required approvals and licenses applicable to the proposed Valsad hospital, The proposed Valsad hospital is expected to commence operations from November, 2023 and thereafter, required licenses and approvals will be obtained. Any delay or failure to obtain the same on time can adversely affect the operations, schedule of implementation, revenues, credibility etc.

7. ***We are exposed to legal claims and regulatory actions arising from the provision of healthcare services and may be subject to liabilities arising from claims of malpractice and medical negligence which could materially and adversely affect our reputation and prospects.***

We are exposed to the risk of legal claims and regulatory actions arising out of the medical services provided by us. From time to time, we may be subject to claims alleging, among other things, medical negligence by our healthcare professionals and product liability for medical devices we use, pharmaceuticals we dispense and medical and pharmaceutical products we sell in our pharmacies. We could also be the subject of complaints from patients who are dissatisfied with the quality and cost of healthcare services.

We may from time to time receive complaints from, or be involved in, disputes with our clients and patients with regard to medical services. This can be attributed to various factors, such as the negligence of medical personnel, failure of medical equipment, inaccurate results of medical tests conducted by outsourced laboratories, individual patient-specific conditions and disease complications. In addition, people may contract serious communicable diseases during their stay or visit at our facilities, which could result in significant claims for damages against us and, as a result of reports and press coverage, damage our reputation.

We rely on our healthcare professionals to make proper diagnoses, administer proper treatment and make other clinical decisions. However, we do not have direct control over the clinical activities of our healthcare professionals, as their diagnoses and treatments of patients are subject to their professional judgment, and in most cases, must be performed on a real time basis.

In addition, some doctors who work are on a consultancy basis are subject to proceedings for medical negligence, which may lead to their removal from the register of medical practitioners for a period of time or permanently. Even though we are not a party to such proceedings, our reputation and business may be adversely impacted by their negative outcomes and publicity. Furthermore, our healthcare professionals are susceptible to contracting diseases that we treat in our facilities, and if our healthcare professionals become infected, it may significantly reduce the treatment and care capacity at our medical facilities. In addition, medical consumables used in various treatments and other products we sell may be subject to contamination, mislabelling, malicious tampering and other damage such as errors in the dispensing and packaging of pharmaceuticals, which may lead to injury or death to our patients. Current or former patients or their families may commence or threaten litigation for medical negligence or malpractice against us. If such claims succeed, we may become liable for damages and other financial consequences and may even be exposed to criminal liability, which may materially and adversely affect our reputation, financial condition, results of operations and cash flows. Additionally, clinical trials conducted at our facilities may cause unintended adverse consequences including personal injury, sickness or death of patients participating in such trials. We could be held liable and may be required to pay damages for such consequences.

As litigations and regulatory proceedings are inherently unpredictable, we cannot assure you that any potential claims or disputes will not have a material adverse effect on our business, results of operations, and financial condition. Although we defend ourselves vigorously against claims and lawsuits, these matters could:

- require us to pay substantial damages or amounts in judgments or settlements, which individually or in the aggregate could exceed amounts, if any, that may be recovered under our insurance policies where coverage applies and is available;
- harm our reputation and the goodwill associated with our brand;
- cause us to incur substantial expenses and/or substantial increases in our insurance premiums;
- require significant time and attention from our management; and
- require us to incur debt to finance any damages or amounts in judgment or settlement.

If any of our cases are not resolved in our favor, and if our insurance coverage or any applicable indemnity is insufficient to cover the damages awarded, we may be required to make substantial payments or modify or restrict our operations, which could have an adverse impact on our reputation and competitive position, as well as our business and financial results. Our insurance coverage may not adequately protect us against certain operating hazards and this may have an adverse effect on our business and revenues below.

Products that we sell could become subject to contamination, product tampering, mislabelling or other damage. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury, death or litigation. In addition, our operations involve the use of hazardous and flammable materials, including chemicals, radioactive and nuclear materials. Most of the radiation therapy and diagnostic imaging equipment we use contain radioactive and nuclear materials or emit radiation during operation. Radiation, radioactive materials and nuclear materials are extremely hazardous unless properly managed and contained. We source nuclear and radioactive material from authorized suppliers, and we store and dispose of such materials in accordance with the applicable rules and guidelines. We cannot eliminate the risk of contamination or injury from these materials. In the event of contamination or injury resulting from our use of hazardous materials, we could be held liable for any resulting damages, and any liability could exceed our resources. We also could incur significant costs associated with civil or criminal fines and penalties.

8. ***Our operations are geographically located in one area at present and any localized social unrest, natural calamities, etc. could have material adverse effect on business and financial operations.***

Our operations are based in Surat, Gujarat. As a result, any localized social unrest, natural disasters or breakdown of services and utilities, reduction in customers/patients, reputational harm, liabilities on account of medical negligence, increased competition in and around Gujarat could have material adverse effect on our business, financial position and results of operations.

9. ***We are dependent on certain field of specialty for a substantial portion of our revenue, i.e. cardiology, neurology, Orthopedics and general medicine. Any material impact on our earnings from these fields will impact our financial condition and results of operations significantly.***

While our hospital provides multi-speciality services, we derive a substantial portion of our revenue from our cardiology, neurosciences, orthopedics and general medicine services. For the Fiscal 2023, our revenue contributions from these services were 46%, 9%, 5% and 25% respectively of our revenue from operations, respectively. Thus, our financial conditions and results of operations are dependent on our revenue from these fields. Due to our dependence on the field of cardiology, neurosciences and general medicine services, a number of factors could cause material fluctuations or decline in our revenue. These factors could include our inability to use modern technology and infrastructure while undertaking surgeries and procedures in these fields or the innovation and implementation of modern techniques by other hospitals which we are unable to implement, a decrease in the number of new patients registered, a loss of key experienced medical professionals, liabilities on account of medical negligence, or regulatory changes. A decline in our revenue from these fields could materially and adversely impact our business, prospects, financial condition and results of operations.

10. ***Delay in receipt of payment from our patients/customers may affect our cash flows, which may, in turn affect our financial condition and results of operations.***

Our patients either pay for their medical expenses by themselves, through third party payers or through some other credit arrangements. Such third-party payers include central, state and local government bodies, private and public insurers, and corporate entities that pay for medical expenses of their employees. Agreements with third party payers typically specify the services covered, the approved tariffs for each of the services and the terms of payment. We are dependent on the timely payment of outstanding dues by such third-party payers and we suffer from recurring time lapses in recovering our fees and costs incurred from such third-party payers. Some patients who may pay the hospital fees in various installments, in such case of partial payments we may not be able to collect their remaining payments/installments in a timely manner or not at all.

11. ***Our Company is dependent on limited number of external suppliers for its medicine and consumables requirements. Any delay or failure on the part of such suppliers to deliver products at acceptable prices, may adversely affect our business, profitability and reputation.***

We rely on the limited number of suppliers for purchasing of medicines and consumables, which in turn, rely on third-party suppliers for sourcing of products. The contribution of our top five suppliers in our purchase of medicines and consumable items as a percentage of the total purchase during Fiscal 2023, 2022 and 2021 is 2.61%, 1.88% and 1.84% respectively.

Our reliance on a limited number of suppliers for our business exposes us to risks, that may include, but are not limited to, reductions, delay or failure on the part of our suppliers to deliver products in a timely manner, deterioration in the financial condition or business prospects of these suppliers, failure to negotiate favourable terms with our key suppliers, all of which could have a material adverse effect on the business, financial condition, results of operations and future prospects of our Company.

We do not have any long-term supply contracts with our suppliers. We generally make our purchases with suppliers through purchase orders. Thus, our suppliers may be unable to provide us with a sufficient quantity of medicines and consumables, at prices acceptable to us. Further, any unexpected rise in the prices of the medicines and consumables or shortage in supply or any adverse change in terms and conditions of supply would result in increase of our procurement cost. In case we are not able to pass on any such increase in cost to the patients because of competition or otherwise, it may affect the profitability of the Company.

We may not be able to renegotiate our pricing or delivery terms on a reasonable basis or find suitable alternative suppliers in the future, which may affect our business, financial condition, cash flows and results of operations. If we are required to identify alternative third parties for any of our required products, the process of qualification and approval could cause delays in providing services to clients. Any extended interruption in the supply of medicines and consumables could disrupt our operations and can have a material adverse effect on our business, results of operations or financial condition. Although we believe we have maintained stable relationships with these suppliers in the past, we cannot assure you that, we will be able to source adequate quantities of products in a timely manner from our existing suppliers in the future or we will be able to find alternative suppliers at acceptable prices and quality levels or at all. Our inability to do so may adversely affect our reputation, business, results of operations and cash flows

12. ***We face intense competition from other healthcare service providers. If we are unable to compete effectively, our business, results of operations and cash flows may be materially and adversely affected.***

We operate in a competitive environment. In most markets, we compete with hospitals, clinics, diagnostic chains and dispensaries of varying sizes with different specialties. We compete on the basis of factors such as our specialty and other service offerings, quality and selection of healthcare professionals, affordability, quality of care, technology, quality of facilities, patient satisfaction, brand and reputation. Our pharmacies in hospitals compete on factors such as price and product offerings. Some of our multi-specialty competitors offer services that we do not offer. Some of our competitors are owned or operated by governmental bodies or by private not-for-profit entities supported by endowments and charitable contributions, which can finance capital expenditures without incurring significant tax obligations. We may also face competition from new market entrants, healthcare companies which may enter the Indian market in the future.

13. ***We are yet to place orders for our Plant & Machineries, Medical Equipments, Office Equipment for our proposed Hospital at Valsad, Gujarat. Any delay in ordering the said machines or equipments may delay the implementation schedule, which may also lead to increase in prices of these equipments in future affecting our costs, revenue and profitability.***

We are yet to place orders for our plant and machinery, medical equipments and office equipments required for our proposed hospital, as specified in the chapter 'Objects of the Issue' on page 83 of this Draft Red Herring Prospectus. Any delay in procurement of plant and machinery, medical equipment etc may delay the implementation schedule. We may be subject to risks on account of inflation in the price of the plant and machinery and other equipments that we require. Hence our project could face time and cost over-run which could have an adverse effect on our operations.

14. ***Unsecured loan taken by our Company from our Promoters and Directors, Dr Narendra Singh Tanwar, Dr Pranav Thaker, Mr Vimal Patel and other promoter group can be recalled at any time.***

As on March 31, 2023, unsecured loan taken by our Company stood at ₹ 11033 thousands. The unsecured loan taken by our Company from our Promoters and Directors, Dr Narendra Singh Tanwar for ₹ 7500 thousands, Dr Pranav Thaker for ₹ 2500 thousands and Vimal Patel for ₹ 1033 thousands along with other promoter group may be recalled at any time. For further details, see "Financial Indebtedness" beginning on page 224 of this DRHP. In the event that any lender seeks a repayment of any such loan, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. We may not have adequate working capital to meet business requirements of our Company, and, as a result, any such demand by the lenders may affect our business, cash flows, financial condition and results of operations. Further, in respect of such unsecured loan, no proper agreement has been executed between the parties.

15. ***If we are unable to keep pace with technological changes, new equipment and service introductions, changes in patients' needs and evolving industry standards, our business and financial condition may be adversely affected.***

The healthcare services industry is characterized by periodic technological changes, new equipment and service introductions, changes in patients' needs and evolving industry standards, including, for example, changes associated with diagnosis process, treatments and patient-doctor interactions in telemedicine offerings. Our continued success depends on our ability to anticipate industry trends and identify, develop and market new value-added services that meet client demands, to continually enhance our equipment and technologies in a timely and cost-effective manner.

Developing new services and tools in a timely and cost-effective manner may be difficult, particularly as market preferences can change rapidly. Our assessment of the market and evolving customer preferences may not lead to new services that are commercially successful. We may also experience delays or failures in any stage of our service development, introduction or implementation. Our competitors may be more efficient at developing new services and may introduce those services to the market before us. The introduction of new or similar services by our competitors may result in reductions in our prices, profit margins, and market share. Further, as industry standards evolve, we may be required to enhance and develop our internal processes and procedures, as well as equipment and technologies, to comply with such standards and maintain the accreditations that we have received. The research, design and development of new services may also require significant resources, including financial and management time and attention. If we are unable to develop new services in a timely manner to meet market demand, or if there is insufficient demand for our services, our business, financial condition, results of operations and prospects

may be materially and adversely affected.

Rapid changes in the medical and healthcare industry require sourcing for and investing in new medical equipment and technology. We may not be able to continually invest in, procure and integrate the latest equipment and technologies at commercially suitable terms and in a timely manner. We may not be able to recover the financial outlay for the medical equipment and systems that we invest in. We may incur significant costs in replacing or modifying equipment in which we have already made a substantial investment. New equipment and services based on new or improved technologies or new industry standards can lead to earlier than planned redundancy of our medical equipment and result in asset impairment charges in the future. Although we sometimes sell obsolete equipment back to the suppliers of such equipment, there can be no assurance that we will be able to continue to do so on financially viable terms. We may experience short-term disruptions to our operations if our equipment is damaged or breaks down. Extended downtime of our medical equipment, and repair or replacement costs of such equipment, could result in loss of revenue, client dissatisfaction, and damage to our reputation. Injuries caused by medical equipment in our healthcare facilities due to equipment defects, improper maintenance or improper operation could also subject us to liability claims, which may not be insured completely or at all. Regardless of their merit or eventual outcome, such liability claims could result in significant legal defence costs for us, damage to our reputation, and a material adverse effect on our business, financial condition and results of operation.

Our operations are also subject to risks inherent in the use of complex medical equipment. Some equipment we use in our hospital involves radioactive substances. Failures, accidents, defects, improper use or lack of maintenance of our equipment may lead to injury of our patients and healthcare professionals. We may incur significant repair and maintenance costs and may experience disruptions in our operations in the event of any material malfunction or breakdown of our equipment in the future. In addition, we may not be able to respond to such failures or malfunctions in a timely manner or with acceptable cost, which could adversely impact our ability to provide patients with necessary treatments and quality services, result in injury of our healthcare professionals, and damage our reputation.

16. ***We may be unable to adequately protect our intellectual property and may be subject to risks of infringement claims.***

We own a registered trade mark  of our brand under the Trade mark Act, 1999. The measures we take to protect our intellectual property include relying on Indian laws and initiating legal proceedings, which may not be adequate to prevent unauthorised use of our intellectual property by third parties. We may also incur significant costs in connection with legal actions relating to such rights. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations and financial condition. Our failure to detect counterfeiting or imitation of our own brand products and trademarks and to mitigate the adverse impact from such counterfeiting and imitation could result in a decrease in our sales volume or market share.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management's attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Any of the foregoing could have an adverse effect on our business, results of operations and financial condition.

17. ***If we are unable to maintain bed occupancy rates at sufficient levels, we may not be able to generate adequate returns on our capital expenditure, could adversely affect our operating efficiencies and our profitability.***

Our ability to sustain current levels of profitability and operating efficiencies depends on our ability to maintain and increase bed occupancy rates, which in turn depends on factors such as brand recognition in the communities in which we operate, our ability to attract and retain quality healthcare professionals, our ability to develop super-specialty practices and our ability to compete effectively with other hospitals and clinics. Our average bed occupancy rate of our hospital was 57%, 63% and 63% in Financial Year 2023, 2022 and 2021 respectively. If we fail to maintain or improve our occupancy rates while our business, financial condition, results of operations and prospects may be materially and adversely affected.

18. ***We do not own the land on which our hospital at Vesu, Surat in state of Gujarat have been set-up. Any revocation or adverse changes in the terms of the lease may have an adverse effect on our business, prospects, results of operations and financial condition.***

We have entered into lease/leave and license agreements, with private lenders vide lease deed dated June 25, 2019 for our hospital unit located at Vesu, Surat in state of Gujarat. Though our lease agreement with the private owners is on a long-term basis and is subject to us complying with its terms and conditions, in the event of the lessors revoking the lease agreements or imposing terms and conditions that are unfavorable to us, we may suffer a disruption in our operations or have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

19. ***We derive a significant portion of our revenues from our tie up arrangements with Governmental organizations, insurance companies, third party administrators and corporations. The loss of any one or more of our major customers would have a material effect on our business operations and profitability.***

Our revenue comes from in-patient and out-patient and through tie-up arrangements with governmental organisations, insurance companies, third party administrators and corporate entities. While our In-patient and Out patients cannot be categorised under the top ten category however based on the patients who come through Governmental organisations, insurance companies, TPA's and corporate entities under the tie-up arrangements, our top 05 customers relating to such entities contribute 56.87%, 40.47% and 31.89% of our revenues during the financial year 2022-23, 2021-22 and 2020-21 respectively. Such tie-ups/contracts are typically for a specified term and we are exposed to the consequences of early termination. If at the time of contract renewal, our negotiations fail, including due to a failure to agree on the pricing for our services, our revenues and profitability would be affected due to significant loss incurred by us. Any commercial disputes with such parties or any inability to renew these contracts on favorable terms or at all, could have a material adverse impact on our business, financial condition and results of operations.

In addition, we provide medical services under various government schemes such as (i) Central Government Health Scheme, (ii) Ayushman Bharat – Pradhan Mantri Jan Arogya Yojana (AB-PMJAY), (iii) Employees State Insurance Scheme (ESIS), (iv) Ex Servicemen Contributory Health Scheme (ECHS) etc. Government schemes are an important source of new patient registrations and revenue for us. As a result, if the applicable tariffs specified in the agreements with government payers are revised downwards, or if the extent of coverage or limits are reduced, or if the payment terms are made longer, or if the reimbursement policies are changed in the agreements with the government payers, or if the government payers terminate their agreements with us, our number of new patient registrations will decline and our revenue and profitability could be negatively affected.

20. ***Setting up a new super speciality hospital at Valsad, Gujarat in our subsidiary requires a substantial capital outlay before we realize any benefits or returns on investments. We may be unsuccessful in implementing our growth plans of expansion in a timely manner or at all, which may have an adverse effect on our business, financial condition and results of operations.***

As a part of our growth strategy, we are in the process of building a super speciality hospital at Valsad, Gujarat. We have obtained the land on lease for the said hospital. The total cost of the project is about 18 crores which will be part funded from IPO proceeds and part funded from internal accruals plus bank/financial institution loan. For further details, please refer to the chapter titled "***Objects of the Issue***" on page 83 of this DRHP. We expect our long-term capital requirements to increase significantly to fund our intended growth and we cannot assure that we shall efficiently be able to obtain sufficient capital resources for these expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. Any downgrade in our credit ratings could increase our borrowing costs and adversely affect our access to capital. Further, in case we decide to raise additional funds through the issuance of equity or equity-linked instruments, the interests of our shareholders may be diluted.

Further, if we decide to meet our capital requirements through debt financing, our interest obligations shall increase and we may be subject to additional restrictive covenants under our respective financing arrangements. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations and financial condition could be adversely affected. Additionally, on account of such expansion, our finance cost, depreciation and other related expenses shall increase in the near future which can adversely impact our results of operations, cash flows and financial condition.

Our expansion plans remain subject to the potential problems and uncertainties that construction projects face including cost overruns or delays, labour shortages, increased costs of equipment or manpower, inadequate performance of the equipment and machinery installed at the premises, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving governmental, statutory and other regulatory approvals, incremental preoperating expenses, environment and ecology costs and other external factors which may not be within the control of our management. There can be no assurance that our budgeted costs may be sufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects.

The proposed expansion will require us to obtain various statutory approvals or amend existing statutory approvals. There can be no assurance that we will be able to obtain these registrations and approvals including approvals in relations to power and water procurement in a timely manner or at all, which in turn may materially and adversely affect our growth prospects, financial condition, results of operations and cash flows.

Our expansion plans and business growth could also strain our managerial, operational and financial resources. Our ability to manage future growth will depend on our ability to continue to implement and improve operational, financial and management information systems on a timely basis and to attract, expand, train, motivate, retain and manage our team. We cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects. Any of these factors may cause us to delay, modify or forego some or all aspects of our expansion plans.

Our return on our investment depends upon, among other things, successful implementation of our strategy, competition, demand of our products, government policies, interest rates and general economic conditions. If our return on investment does not meet our or market expectations, this could materially and adversely affect our business, cash flows, results of operations and financial condition.

21. ***We have substantial working capital requirements. Our inability to obtain and / or maintain sufficient cash flow, credit facilities and other sources of funding in a timely manner to meet our requirements of working capital or payment of our debts, could adversely affect our operations.***

Our business requires significant amount of working capital and major portion of our working capital is utilized towards trade receivables. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. As on 31st March, 2023, ₹ 97,341.07 thousands are outstanding debtors. In case of any such defaults from our debtors, may affect our business operations and financials. One of the object of the Issue is Working capital requirements. For further details regarding working capital requirement, please refer to the section “***Objects of the Issue***” on page 83 of this Draft Red Herring Prospectus.

22. ***The yield on 57,36,300 6%, Cumulative Non-Convertible Preference Shares outstanding as on the date of this DRHP is not paid and is being accumulated over the years.***

The 6% Cumulative Non Convertible Preference shares as are cumulative in nature, the yield can be rewarded in the form of dividend any time in accordance with section 55 or the Companies Act, 2013 read with relevant rules. It may have an adverse effect on the company if the yield is not paid pursuant to section 55 of the Companies Act, 2013 as it's a liability and will continue to be so.

23. ***The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled “Objects of the Issue”. Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.***

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management’s estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time on account of various factors such as our financial and market condition, business and strategy, which may not be within the control of our management. Our estimates may exceed the value and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. However, monitoring the utilisation of the Net Proceeds and the Board after consideration and approval by the Audit Committee will disclose the utilisation of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchanges on a half-yearly basis, deviations, if any, in the Use of Proceeds of the Issue as per Objects of the Issue stated in this Draft Red Herring Prospectus or by way of an explanatory statement to the notice for a general meeting.

24. ***Our Industry is highly regulated and requires us to obtain, renew and maintain statutory and regulatory permits, accreditations, licenses and comply with applicable safety, health, environmental, labour and other governmental regulations. Any regulatory changes or violations of such rules and regulations may adversely affect our business, financial condition and results of operations.***

Healthcare providers are subject to a wide variety of governmental, state and local environmental and occupational health and safety and other laws and regulations. Further, we are required to obtain and renew from time to time, a number of approvals, accreditations, licenses, registrations and permits from governmental and regulatory authorities such as in relation to establishment of hospitals, operation of our hospitals, procurement and operation of medical and other equipment, storage and sale of drugs. In particular, we are required to obtain certificate of registrations for carrying on certain of our business activities including from the Government of India, the State Governments and other such regulatory authorities that are subject to numerous conditions. For a description of the approvals and licenses obtained by us, refer “**Government and Other Approvals**” on page 247 of this DRHP. Moreover, health and safety laws and regulations in India have become increasingly stringent over time, and it is possible that they will become more stringent in the future. For detailed information in relation to the rules and regulations applicable to us, see “**Key Industry Regulations and Policies**” on page 132 of this DRHP.

The regulatory licenses that we require are typically granted for a limited term and are subject to renewal at the end of such terms. Further, we cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations and may have an adverse effect on our business, financial condition and results of operations. For a description of the pending approvals and licenses, see “**Government and Other Approvals**” on page 247 of this DRHP. We also maintain certain accreditations, including accreditations from the National Accreditation Board for Hospitals and Healthcare Providers (“NABH”) for our hospital. If we lose current accreditations or fail to renew such re-accreditations of our hospital by NABH and other agencies, or if we fail to obtain additional accreditations for our hospitals, our reputation, business operations could be adversely affected. Furthermore, in the event certain accreditations are made compulsory, either by law or as a condition for empanelment, our business, financial condition, results of operations and cash flows as we may not be able to obtain such accreditation in a timely manner, or at all.

In addition, as we are in process of starting a new super speciality hospital at Valsad, Gujarat in our subsidiary, we will need to obtain additional approvals or licenses that are required to operate such hospital and institute respectively. If we fail to obtain or renew any applicable approvals, accreditations, licenses, registrations or consents in a timely manner, or at all, we may not be able to start such operations, which consequently may affect our business, cash flows or results of operations. For details of pending approvals, please refer to chapter titled “**Government and other Statutory Approvals**” on page 247 of this DRHP.

Further, if we fail to comply with the requirements for applicable quality standards, or if we are otherwise unable to obtain or renew such quality accreditations in the future, in a timely manner, or at all, our business and prospects may be adversely affected. The qualifications and practice of our healthcare professionals is also strictly regulated by applicable laws, regulations, policies and guidelines, as well as by applicable codes of professional conduct or ethics. If our healthcare professionals fail to comply with applicable laws, regulations, policies or guidelines, they and/or we may be subject to penalties including fines, loss of licenses or restrictions on our healthcare facilities and operations, which could materially and adversely affect our business and reputation.

We may incur substantial costs in order to comply with current or future laws, rules and regulations, and we may not be able to maintain, at all times, full compliance with such laws, regulations, policies and guidelines. These current or future laws, rules and regulations may also impede our operations and impact our continued growth. Any non-compliance with the applicable laws, rules and regulations may subject us to regulatory action, including penalties and other civil or criminal proceedings, which may materially and adversely affect our business, prospects and reputation. There is no assurance that we will not be subject to such actions in the future, which could materially and adversely affect our business and reputation.

25. ***Our ability to provide affordable healthcare depends on the maintenance of a high volume of patients, occupancy rates, managing operating & project costs and effective capital management. Any increase in such costs could adversely affect our business, financial condition and results of operations.***

Our ability to provide affordable healthcare depends on our ability to maintain a high volume of patients, occupancy rates, and effectively manage capital, project costs, operating costs and capital expenditure.

Patient volume is affected by, among others, factors out of our control such as seasonal illness cycles, climate and weather conditions, and the employment status of individuals. As a result, our hospitals may experience a decrease in in-patient volume in times of an economic downturn or stagnation. Our inpatient admissions and treatment contribute significantly to our revenue, compared to our outpatient consultative care. In the event there is a decline in the number of inpatients serviced by us, our financial condition and results of operations will materially stand impacted. Set out below are details in relation to our in-patient and out-patient volume and revenue for the periods indicated:

(₹ in Thousands, except per number data)

Departments	March 31, 2023	March 31, 2022	March 31, 2021
Inpatient Volume (in No.s)	4079	4431	4551
Outpatient Volume (in No.s)	7208	6053	5438
Revenue from Inpatients (₹ in thousands)	252460.23	320260.74*	409237.30*
Revenue from Outpatients (₹ in thousands)	13847.86	16255.45*	18016.09*

*The revenues of FY 2020-21 and FY 2021-2022 were inflated due to COVID impact by ₹ 2300 thousands and ₹ 1200 thousands respectively. From FY 2022-23 the Revenues are normal revenues of the Hospital.

Our ability to effectively manage our capital is crucial to our ability to maintain our cost structure and any adverse development relating to patient volume and our operating or project cost may adversely affect our financial position and performance and require us to increase the fees charged to our patients, which may have a material adverse impact on our business, financial condition and results of operations. While we seek to manage our pricing model in light of these costs, we may not always be able to do so, including due to our fee arrangements and existing contracts, as well as regulatory restrictions

There is no assurance that we will be able to maintain or improve our admissions and occupancy rates as compared to the increase in our total capital expenditures in the future. Any failure by us to maintain or improve our admissions or occupancy rates may result in an ineffective deployment of capital expenditure and reduced profit margins, which may have an adverse impact on our business, financial condition, and results of operations.

26. ***We have experienced negative cash flows in the past and may continue to do so in the future and the same may adversely affect our cash flow requirements, which in turn may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

We have experienced negative net cash flows from investing and financing activities in the past and may continue to experience such negative operating cash flows in the future. The following table sets forth certain information relating to our cash flows on a restated basis for the periods indicated:

(₹ in thousands)

Particulars	FY 2023	FY 2022	FY 2021
Net cash (used in)/ generated from operating activities	16,380.62	793.57	44,502.25
Net cash generated from/ (used in) Investing Activities	3,138.95	(196.11)	(50,672.48)
Net cash generated from/ (used in) Financing Activities	(16,112.43)	(18,627.68)	21,627.08

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, future financial performance and results of operations could be materially and adversely affected. For further details, see “*Restated Financial Statements*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” beginning on pages 175 and 226 respectively of this DRHP.

27. ***We have certain contingent liabilities, which, if materialized, may affect our financial condition and results of operations.***

Our contingent liabilities as of March 31, 2023 were as follows:

(₹ in thousands)

Particulars	March 31, 2023
claims against the company not acknowledged as debt;	3,993.54

For further details of the contingent liabilities and commitments of our Company as on March 31, 2023, see “*Restated Financial Information*” on page 175 of this Draft Red Herring Prospectus. If a significant portion of these liabilities materialize, fully or partly, it could have an effect on our results of operations and financial condition. Further, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

28. ***Our arrangements with some of our doctors may give rise to conflicts of interest and time-allocation constraints, adversely affecting our operations***

Some of our doctors are not our employees. Our contracts and other arrangements with some of our visiting doctors permit them to maintain their own private practices, as well as positions, at other hospitals. Some of these doctors may also have admitting privileges at other hospitals in addition to our hospital. Certain of our senior doctors may also maintain positions at local clinics or affiliations with teaching hospitals. These arrangements may give rise to conflicts of interest, including with regard to how these doctors allocate their time and other resources between our hospitals and clinics and other hospitals or clinics at which they also work and where doctors refer patients. Such conflicts may prevent us from providing a high quality of service at our hospitals and adversely affect the level of our patient intake.

29. ***We could be exposed to risks relating to the handling of personal information, including medical data.***

Our information technology system is critical systems are critical to our business. We rely on the information technology system to store the personal details data of our patients. The regulatory guidelines generally require medical institutions to protect the personal data, of their patients or clients and prohibit unauthorized disclosure or usage of personal information, including medical data. Compliance with new and evolving privacy and security laws, regulations and requirements may result in increased operating costs which may in turn affect our business, financial condition, results of operations and prospects. We are vulnerable to the failures of our information technology system, which could affect our business, deficiencies in managing our information systems and data security practices may lead to leaks of patient records, test results, prescriptions, lab records and other confidential and sensitive information which could adversely impact our business and damage our reputation.

30. ***Our Promoters, Directors, related entities and other ventures promoted by our promoters are engaged in a similar line of business and we do not have a non-compete agreement or contract with any of these entities, and hence a potential conflict of interest may arise.***

A conflict of interest may occur between our business and the business of our Promoter Group Entities which could have an adverse effect on our operations. Conflicts of interest may also arise out of common business objectives shared by us, our Promoters, directors and their related entities. Our Promoters, directors and their related entities may compete with us and have no obligation to direct any opportunities to us. The Other promoter Group Entities, including those in similar line of business, may dilute our promoter's attention to our business, which could adversely affect our business, financial condition and ultimately results in conflicting interests. For more details regarding Promoter Group Companies/ Entities, refer chapter titled "Our Promoters and Promoter Group" beginning on page 164 of this Draft Red Herring Prospectus.

There can be no assurance that these or other conflicts of interest will be resolved in an impartial manner. Further, as on the date of filing this Draft Red Herring Prospectus, we do not have any non-compete agreement/arrangement with any of our Group Companies/Entities. Such a conflict of interest may have adverse effect on our business and growth. We shall adopt the necessary procedures and practices as permitted by law to address any conflict situations, as and when they may arise.

31. ***The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue Price.***

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Issue Price of the shares proposed to be offered through this Draft Red Herring Prospectus. For Details regarding average cost of acquisition of Equity Shares by our Promoters in our Company, please refer the table below:

Name of Promoter	No. of Equity Shares held	Average cost of Acquisition per Equity Share (in ₹)
Dr. Narendra Singh Tanwar	31,85,808	2.40
Mr. Vimalkumar Natverlal Patel	7,06,800	0.02
Dr. Pranav Rohitbhai Thaker	10,61,440	0.02

32. ***Our Company has in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.***

Our Company has entered into related party transactions with our Promoter, and Promoter Group Entities amounting to ₹ 19731.36 thousands, ₹ 50454.28 thousands and ₹ 64463.05 thousands in March 31, 2023, March 31, 2022 and March 31, 2021 respectively. While our Company believes that all such transactions have been conducted on an arm's length basis and we confirm that the related party transactions entered into by the company are in compliance with the relevant provisions of Companies Act and other applicable laws and are accounted as per Ind AS 24, however there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

For further information, relating to our related party transactions, see "Restated Financial Information" and "Management's Discussion and Analysis of Financial Condition and Results of Operations beginning on pages 175 and 226 respectively

33. ***Our agreements with banks and financial institutions for financial arrangements contain restrictive covenants for certain activities and if we are unable to get their approval, it might restrict our scope of activities and impede our growth plans.***

We have entered into agreements for short term and long-term borrowings with certain banks and financial institutions. These agreements include restrictive covenants which mandate certain restrictions in terms of our business operations such as to obtain either the prior written consent of such financial institutions or require us to give prior written intimation to such lenders, prior to, amongst other circumstances, prepayment of the outstanding principal amounts of the facilities availed by our Company; any amalgamation, demerger, merger, acquisition, corporate or debt restructuring; undertake any project, implementation of any scheme of expansion/ diversification or capital expenditure; invest by way of share capital or lend/ advance funds or place deposits with any other entity; undertake any guarantee obligation on behalf of any other company; any change in the constitution or remuneration of management, control, ownership, shareholding pattern, capital structure, profit sharing and/or management of our Company; and declaration or payment of dividend. Our ability to execute business plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be negatively impacted as a result of these restrictions and limitations. In the event of breach of a restrictive covenant, our lender could deem us to be in default and seek early repayment of loans. An event of default would also affect our ability to raise new funds or renew borrowings as needed for the smooth conduct of our operations and pursue our growth initiatives. Although we have received consent from our lender for the Issue, we cannot assure you that we will be able to receive such consents in future for other growth plans. For further details, see 'Financial Indebtedness' beginning on page 224 of this DRHP.

34. ***We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our growth and operations.***

We may require additional funds in connection with future business expansion and development initiatives. In addition to the net proceeds of this Issue and our internal accruals, we may need other sources of funding to meet these requirements, which may include entering into new debt facilities with lending institutions. If we decide to raise additional funds through the issuance of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financing could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our future growth and operations.

35. ***Our inability to continue to obtain equipment and ancillary services from our key suppliers could affect our business and results of operations.***

We are dependent on third-party suppliers, vendors and other partners to provide the necessary equipment, drugs and services that we will need for our continuing operations. We cannot assure you that we will be able to continue to obtain medical equipment, medicines, drugs on commercially acceptable terms, or at all, or that our suppliers, vendors and partners will continue to enter into or honour the contracts for their services. Our inability to continue to obtain equipment and drugs and enter into contracts with our vendors in a timely manner, or at all, could adversely affect our business and results of operations.

36. ***We are vulnerable to failures of our information technology system, which could adversely affect our business.***

Our information technology system is critical to our business. We rely on our technology system to, among other things, manage accounting and financial reporting, facilitate consultations among healthcare professionals, prepare and manage medical records, financial records, training programs and inventory. If we experience an interruption or a reduction in the performance, reliability or availability of our technology architecture from natural or man-made causes, or from disruptions from our local service providers, our operations and ability to manage our administrative systems could be adversely impacted. Any technical failures associated with our information technology system, including those caused by power failures, computer viruses and other unauthorized tampering, may impair our ability to provide services to our patients. Corruption of certain information could also lead to delayed or inaccurate judgments or diagnoses

in our treatment of patients, and could result in damage to the welfare of our patients. Any failure of our IT systems could materially and adversely affect the operation of all of our hospital.

In addition, since we rely on our technology systems to manage our accounting and financial functions, including processing payments to network healthcare providers and invoicing our clients, any technical failures or errors, including errors in manual data entry or programming, could materially and adversely impact our financial reporting, results of operations and cash flows, as well as our reputation and relationships with our network healthcare providers and clients.

We may be subject to cyberattacks and other cybersecurity risks and threats, including computer break-ins, phishing, and social engineering. Cybersecurity vulnerabilities may put us at risk for possible losses due to fraud, operational disruptions, or the unintended dissemination of sensitive personal information, proprietary information or confidential information. We may also be subject to liability as a result of any theft, loss, unauthorized disclosure or misuse of confidential, sensitive and/ or personal information stored on our systems. The development of our information technology system is generally outsourced to third party suppliers, over which we have limited control. Failure by such third-party suppliers to adequately secure or manage our information and systems, as well as their discontinuation of existing products and services that we rely on, may adversely affect our operations.

There can be no assurance that we will not encounter data migration or other errors, which could result in the loss of important data, interruptions, delays or cessations in the availability of our systems, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

37. ***Our Promoter and Promoter Group will continue to retain significant control in our Company after the Issue, which will allow them to influence the outcome of matters submitted to shareholders for approval. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control.***

After the completion of this Issue, our Promoters and Promoter Group will continue to hold significant shareholding in our Company. As a result, our Promoters and Promoter Group will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting, and our other shareholders will be unable to affect the outcome of such voting. Our Promoters and Promoter Group may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot assure you that our Promoters and Promoter Group will act in our interest while exercising their rights in such entities, which may in turn materially and adversely affect our business and results of operations. We cannot assure you that our Promoters and Promoter Group will act to resolve any conflicts of interest in our favour. If our Promoters and Promoter Group sells a substantial number of the Equity Shares in the public market, or if there is a perception that such sale or distribution could occur, the market price of the Equity Shares could be adversely affected. No assurance can be given that such Equity Shares that are held by the Promoters will not be sold any time after the Issue, which could cause the price of the Equity Shares to decline. For further details, please see “*Capital Structure*” beginning on page 65 of this DRHP.

38. ***The impact of the COVID-19 pandemic on our business and operations is uncertain and cannot be predicted.***

An outbreak of a novel strain of coronavirus disease 19 (“COVID-19”), was recognized as a pandemic by the World Health Organization, on March 11, 2020. On March 14, 2020, India declared COVID-19 as a “notified disaster” and imposed a nationwide lockdown beginning March 25, 2020. The lockdown lasted until May 31, 2020, and has been extended periodically by varying degrees by state governments and local administrations. In response to the COVID-19 outbreak, the governments of India and many other countries have taken preventive and protective actions, such as imposing countrywide lockdowns, restrictions on travel and business operations and advising or requiring individuals to limit their time outside their homes. Temporary closures of businesses had been ordered and numerous other businesses have been temporarily closed voluntarily. We have monitored and considered the impact of known events arising from the COVID19 pandemic including with respect to our liquidity and going concern, recoverable values of

property, plant and equipment, goodwill, intangible assets, trade receivables and the net realisable value of other assets. As the outbreak continues to evolve, we will continue to closely monitor the impact that COVID-19 may have on our Company, including any material changes to future economic condition, liquidity and result of operations of our business and prospects. While there have been progressive relaxations and calibrated easing of lockdown measures by the Government, the full impact of the COVID-19 pandemic is still unknown and difficult to predict. Possible additional “waves” or resurgences of COVID-19 cases may result in slower economic recovery, further disruptions to businesses and the imposition of stricter or extended government lockdown policies

We may encounter additional COVID-19 related difficulties and experience, including but not limited to:

- Directives or actions by governments, government authorities, local agencies and courts that affect our ability to operate our hospitals and/or the manner in which we operate our hospitals. For example, directives or actions to regulate various aspects of our operations (such as, amongst other things, prices, and mandatory bed allocation) and/or to oversee manage or administer the provision of healthcare to COVID-19 patients;
- Reluctance or unwillingness of some patients to seek healthcare services in hospitals due to their perception of an increased risk of infection when traveling to hospitals and coming into close contact with healthcare professionals;
- Delay in renewing or obtaining necessary registrations, approvals, licenses and permits from statutory and regulatory bodies;
- Heightened risk of COVID-19 infection to doctors, nurses and other healthcare professionals at our hospitals, which may lead to a shortage of manpower and additional labor and employment expenses;
- Possible delay in our planned projects; and
- Increased costs to ensure the safety of our workforce and continuity of operations while conforming to the measures implemented by various governments.

We have witnessed decline in the normal patients’ volumes; however, the decline is off-set by increase in the number of COVID-19 patients. There is no assurance that our business will not be adversely affected if the COVID-19 pandemic were to worsen or last for an extended period of time.

We have implemented safety protocols to ensure the safety and wellbeing of our healthcare professionals during the COVID-19 pandemic. We adopted digital consultation and telephone consultation as alternatives to physical visits in accordance with applicable laws and our confidentiality obligations. We provided PPE kits to healthcare team and supporting staff, distributed suitable face masks, face shields, and set up a screening team to check the body temperature and other symptoms of individuals entering our hospitals. However, we may not be able to fully mitigate the risks of our healthcare professionals contracting COVID19 due to the fact that they are in close contact with patients on a daily basis, and we have, in the past, occasionally been required to quarantine our healthcare professionals suspected of contracting the virus. An outbreak of COVID-19 among a concentrated group of our healthcare professionals could disrupt our business and operations in the affected facilities or areas.

The duration of the COVID-19 outbreak and its ultimate impact on us and the general economy cannot be predicted. The COVID-19 pandemic and its effects may last for an extended period of time, and could result in significant and continued market volatility, exchange trading suspensions and closures, declines in global and Indian financial markets, higher default rates, and a substantial economic downturn or recession. The foregoing could disrupt our operations, adversely affect our ability to establish and implement business development plans, and negatively impact our financial performance. In addition, if we do not respond appropriately to the pandemic, or if patients perceive our response to be inadequate, we could suffer damage to our reputation and our brand, which could adversely affect our business in the future. Our hospitals require authorization from the relevant state government in order to treat COVID-19 patients. The government of Gujarat have issued multiple orders, which, among others things, set the ceiling rate chargeable by private hospitals and laboratories for treatment and testing of COVID-19 patients. While we intend to comply fully with the government’s orders, there can be no assurance that the government will not take action against us in the future. The COVID-19 pandemic could also exacerbate the risks identified in this “Risk Factors” Chapter. Therefore, its impact, as well as the impact of any other infectious illness outbreaks that may arise

in the future, could adversely affect our consolidated results of operations, financial position and cash flows in ways that cannot necessarily be foreseen.

39. ***Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures and are also prohibited by the terms of our financing arrangements.***

The amount of our future dividend payments, if any, will depend upon factors that our Board deems relevant, including among others, our results of future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends. For further details on payment of dividend by our Company, please see “*Dividend Policy*” beginning on page 171 of this DRHP.

40. ***Our insurance cover may not adequately protect us and this may have an adverse effect on our business and revenues.***

Our Company has obtained insurance coverage in respect of certain risks. We have taken insurance policies such as Fire & Special Perils Policy, Burglary Insurance Policy and Vehicle Policies. Our insurance policies do not cover all risks, specifically risks such as error and omission medical establishment policy, business interruption insurance, money insurance, cash in transit, machinery/equipment breakdown, keyman insurance, group personal accident or mediclaim policy. Failure to effectively cover ourselves against the associated risks may potentially lead to material losses. There can be no assurance that our insurance policies will be adequate to cover the losses/ damages suffered or that such insurance coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. If we suffer a significant uninsured loss or if insurance claim in respect of the subject matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

41. ***We propose to utilize the Net Proceeds for purposes identified in the section titled “Objects of the Issue” in this DRHP. Any variation in the utilisation of the Net Proceeds as disclosed in this DRHP shall be subject to certain compliance requirements, including prior shareholders’ approval.***

We intend to use the Net Proceeds for various purposes, including but not limited to, (i) Making investment through equity in the subsidiary named ‘Maitreya Hospital Private Limited’ for setting up hospital at Valsad, Gujrat. ii) Redemption of part of issued Non-Convertible Redeemable Preference Shares iii) Funding the working capital requirements of the company and (iv) general corporate purposes. We intend to deploy the Net Proceeds in financial year 2023-2024 and such deployment is based on certain assumptions and strategy which our company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Net Proceeds, please refer chapter titled ‘Objects of the Issue’ beginning on page 83 of this Draft Red Herring Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled Objects of the Issue beginning on page 83 of the Draft Red Herring Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However, in accordance with Section 27 of the Companies Act, 2013, and relevant provisions of SEBI ICDR Regulations, 2018, a company shall not vary the objects of the Issue without our Company being authorized to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoter and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

42. ***There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.***

The Issue proceeds are entirely at the discretion of the issuer/management. As per SEBI ICDR Regulations, appointment of monitoring agency is required only if Issue size exceeds ₹ 10,00,000 thousands. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

43. ***Our Promoters and certain members of Promoter Group and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their normal remuneration and reimbursement of expenses.***

Our Promoters and certain members of our Promoter Group and Directors are interested in our Company, in addition to normal remuneration or benefits and reimbursement of expenses, to the extent of their shareholding or their relatives' holding in our Company. Further, other than as disclosed in "Restated Financial Statements", "Our Management" and "Our Promoter and Promoter Group" on pages 175, 149 and 164 of this DRHP, there are no other transactions entered into by our Company with our Promoter, Promoter Group, Directors or Key Management Personnel. While we believe that all such transactions have been conducted on an arm's length basis, we cannot assure you that we might have obtained more favourable terms had such transactions been entered into with unrelated parties. For further information on the interest of our Directors, Promoter and Key Management Personnel, other than reimbursement of expenses incurred or normal remuneration or benefits, see "Our Management" and "Our Promoter and Promoter Group" beginning on pages 149 and 164, respectively of this DRHP.

EXTERNAL RISKS

44. ***The Issue Price, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price of our Company, may not be indicative of the market price of the Equity Shares on listing or thereafter. "***

The market price of the Equity Shares, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.

There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

45. ***A slowdown in economic growth in India could adversely affect our business.***

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or any future volatility in global commodity prices could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting housing, tourism and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial or political turmoil or war especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

46. ***The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

47. ***Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.***

Our business, results of operations and financial condition could be materially adversely affected by changes in the laws, rules, regulations or directions applicable to us, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations. For further details, please see “*Key Regulations and Policies in India*” on page 132 of this DRHP.

The governmental and regulatory bodies may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, results of operations and financial condition

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations, including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals.

The Government of India has notified four labour codes which are yet to completely come into force as on the date of this Draft Red Herring Prospectus, namely, (i) The Code on Wages, 2019, (ii) The Industrial Relations Code, 2020, (iii) The Code on Social Security, 2020 and (iv) The Occupational Safety, Health and Working Conditions Code, 2020. Such codes will replace the existing legal framework governing rights of workers and labour relations

There can be no assurance that the Government of India will not implement new regulations and policies requiring us to obtain approvals and licenses from the Government of India or other regulatory bodies or impose onerous requirements and conditions on our operations. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and financial condition.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time-consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

48. ***Financial and geo-political instability in other countries may cause increased volatility in Indian financial markets.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial, political turmoil and war in Europe and elsewhere in the world in recent times has affected the Indian economy. Any worldwide financial and geo-political instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability and geo-political issues in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption or geo-political concerns could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

49. ***We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.***

We are incorporated in India and we conduct our corporate affairs and our business in India. Our Equity Shares are proposed to be listed on Stock Exchanges. Consequently, our business, operations, financial performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India's various neighbouring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares. For example, our manufacturing facilities are located in western India, hence any significant disruption, including due to social, political or economic factors or natural calamities or civil disruptions, impacting this region may adversely affect our operations.

50. ***If inflation were to rise further in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.***

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has initiated fiscal measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

51. ***A downgrade in ratings of India, may affect the trading price of the Equity Shares.***

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. India's sovereign rating is Baa3 with a "negative" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a "stable" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

52. ***Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.***

Our Articles and Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a corporate entity in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as one of our Shareholders than as a shareholder of a corporate entity in another jurisdiction.

RISKS RELATING TO THE EQUITY SHARES AND THE ISSUE

53. ***The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The Issue Price of our Equity Shares shall be based on numerous factors (For further information, please refer chapter titled "*Basis for Issue Price*" beginning on page 99 of this Draft Red Herring Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue.

The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- i. quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- ii. changes in revenue or earnings estimates or publication of research reports by analysts;
- iii. results of operations that vary from those of our competitors;
- iv. speculation in the press or investment community;
- v. new laws and governmental regulations applicable to our industry;

- vi. future sales of the Equity Shares by our shareholders;
- vii. general market conditions; and
- viii. domestic and international economic, legal and regulatory factors unrelated to our performance.

54. ***Any future issuance of Equity Shares by us or sales of Equity Shares by our Promoter could adversely affect the trading price of our Equity Shares and in the case of the issuance of Equity Shares by us result in the dilution of our then current shareholders.***

As disclosed in “*Capital Structure*” on page 65, an aggregate of 20% of the Issue shall be considered as minimum Promoters’ Contribution and locked in for a period of eighteen (18) months and the balance Equity Shares held by the Promoter following the Issue will be locked-in for six (6) months from the date of Allotment. Except for the customary lock-in on our ability to issue equity or equity-linked securities discussed in “*Capital Structure*” on page 65, there is no restriction on disposal of Equity Shares by the Promoter. As such, there can be no assurance that our Company will not issue additional Equity Shares after the lock-in period expires or that our Promoter will not sell, pledge or encumber his Equity Shares after the lock-in periods expire. Future issuances of Equity Shares or convertible securities and the sale of the underlying Equity Shares could dilute the holdings of our Shareholders and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the then trading price of our Equity Shares or the Issue Price. Sales of Equity Shares by the Promoter could also adversely affect the trading price of our Equity Shares.

55. ***You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.***

Previously, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if Securities Transaction Tax (“STT”) was paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of Equity Shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

56. ***Foreign investors are subject to foreign investment restrictions under Indian laws which limit our ability to attract foreign investors, which may adversely affect the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of Equity Shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of the Equity Shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all.

57. ***There is no guarantee that our Equity Shares will be listed on the EMERGE Platform of NSE in a timely manner or at all.***

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Emerge Platform of NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Justification for “Holding Period” levels

The justifications for the holding levels mentioned in the table above are provided below:

Current Assets	
Inventories	In the hospital sector, choosing a projected Inventory Holding Period of 31 days reflects a focused effort to optimize medical supply management. This decision is driven by the need to ensure a lean and efficient inventory system, minimizing wastage and obsolescence of medical supplies while maintaining adequate stock levels for patient care. With a shorter holding period, the management aims to enhance patient safety, reduce costs, and improve overall operational effectiveness, ultimately leading to better resource allocation and a higher standard of medical service delivery.
Trade receivables	In the context of the hospital sector, the projected Trade Receivable Holding Period of 69 days is a strategic decision aimed at accommodating the unique payment dynamics of patients, insurance claims, and medical billing processes. This extended period recognizes the complexities involved in healthcare billing cycles, allowing for timely processing and reimbursement. By aligning with industry norms, the management aims to ensure sustainable cash flow, efficient revenue management, and continued high-quality patient care without compromising financial stability.
Current Liabilities	
Trade Payables	In the hospital sector, the chosen projected Trade Payables Holding Period of 34 days reflects a strategic approach to supplier relationships and financial stability. This decision strikes a balance between timely payments to maintain supplier trust and negotiating

	favorable credit terms. It accommodates the sector's unique demands while ensuring cash preservation for critical medical investments. By optimizing the holding period, the management aims to secure consistent supplies, nurture partnerships, and uphold financial well-being, enabling sustained excellence in patient care and operational efficiency within the hospital's constrained budgetary environment.

Our Company proposes to utilize upto ₹ 50,000 thousands of the Net Proceeds in Fiscal 2024 towards our working capital requirements. The balance portion of our working capital requirement for the Fiscal 2024 will be arranged from borrowings and internal accruals/net worth.

Rationale for the Increase in working capital requirement for 31st March, 2023 and 31st March, 2024

In anticipation of a significant increase in turnover and our commitment to providing favourable credit terms to our valued customers, an expansion of our working capital is essential. This strategic decision is rooted in our business objectives and customer-centric approach. The projected increase in turnover is based on thorough market research and analysis, indicating a positive outlook for our business. Factors such as expanding market opportunities, favorable industry trends, and successful marketing initiatives contribute to this anticipated growth. To capitalize on these opportunities and ensure seamless operations, a bolstered working capital is necessary to support quality medical services and utmost patient satisfaction.

Our patient-centric approach recognizes the importance of fostering strong and enduring relationships with our stakeholders. We acknowledge that offering competitive credit terms is a key driver of customer satisfaction and loyalty. By providing extended payment periods, flexible financing options, and customer-friendly credit policies, we aim to enhance our customers' purchasing power and differentiate ourselves in the market. However, it is vital to recognize that delivering such favorable credit terms necessitates an increase in our working capital reserves.

To address the increased working capital requirement, we propose conducting a comprehensive financial analysis to identify specific areas where the need will arise. Optimizing cash flow management through strategies such as streamlined collections and favorable supplier credit terms will maximize the efficiency of our working capital utilization.

INDUSTRY OVERVIEW

The information contained in this section has been extracted from various websites and publicly available documents from various industry sources. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Global Economy

Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, then rise to 3.1 percent in 2024. The forecast for 2023 is 0.2 percentage point higher than predicted in the October 2022 World Economic Outlook (WEO) but below the historical (2000–19) average of 3.8 percent. The rise in central bank rates to fight inflation and Russia’s war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.

The balance of risks remains tilted to the downside, but adverse risks have moderated since the October 2022 WEO. On the upside, a stronger boost from pent-up demand in numerous economies or a faster fall in inflation is plausible. On the downside, severe health outcomes in China could hold back the recovery, Russia’s war in Ukraine could escalate, and tighter global financing conditions could worsen debt distress. Financial markets could also suddenly reprice in response to adverse inflation news, while further geopolitical fragmentation could hamper economic progress.

In most economies, the priority remains to achieve sustained disinflation amid the cost-of-living crisis. With tighter monetary conditions and lower growth potentially affecting financial and debt stability, it is necessary to deploy macro-prudential tools and strengthen debt restructuring frameworks. Accelerating COVID-19 vaccinations in China would safeguard the recovery, with positive cross-border spillovers. Fiscal support should be better targeted at those most affected by elevated food and energy prices, and broad-based fiscal relief measures should be withdrawn.

Emerging Market and Developing Economies

For emerging market and developing economies, growth is projected to rise modestly, from 3.9 percent in 2022 to 4.0 percent in 2023 and 4.2 percent in 2024, with an upward revision of 0.3 percentage point for 2023 and a downward revision of 0.1 percentage point for 2024. About half of emerging market and developing economies have lower growth in 2023 than in 2022.

Growth in emerging and developing Asia is expected to rise in 2023 and 2024 to 5.3 percent and 5.2 percent, respectively, after the deeper-than-expected slowdown in 2022 to 4.3 percent attributable to China’s economy. China’s real GDP slowdown in the fourth quarter of 2022 implies a 0.2 percentage point downgrade for 2022 growth to 3.0 percent—the first time in more than 40 years with China’s growth is below the global average. Growth in China is projected to rise to 5.2 percent in 2023, reflecting rapidly improving mobility, and to fall to 4.5 percent in 2024 before settling at below 4 percent over the medium term amid declining business dynamism and slow progress on structural reforms. Growth in India is set to decline from 6.8 percent in 2022 to 6.1 percent in 2023 before picking up to 6.8 percent in 2024, with resilient domestic demand despite external headwinds. Growth in the ASEAN-5 countries (Indonesia, Malaysia, Philippines, Singapore, and Thailand) is similarly projected to slow to 4.3 percent in 2023 and then pick up to 4.7 percent in 2024.

Overview of the Indian Economy

The Indian economy was impacted by the global pandemic caused by COVID-19 and still recovering from the impact of this virus. Economic growth hindered in the last year and businesses are still trying to recover from the downfall caused due to the pandemic in 2020. The real Gross Domestic Product (GDP) growth is projected to contract in 2020-21 as compared to strong growth in 2019-20. GDP growth, however, is expected to rebound strongly in 2021-22 owing to the reform measures undertaken by the Government.

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of the COVID-19 pandemic shock. Real GDP in the first quarter of 2022-23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022-2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalization of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the

pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food, Public Distribution, and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

Road Ahead

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favor of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second-highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

Viability Gap Funding (VGF) support will aid in the development of hospitals and healthcare centers under a public-private partnership

India's Covid-19 emergency response and health system preparedness package of Rs 150 billion was announced in three phases (for the medium term of 1-4 years) to address immediate requirements in the wake of the pandemic. A separate health-worker life insurance cover of Rs 5 million under Pradhan Mantri Garib Kalyan Yojana was also announced to offer support to families of frontline health workers fighting the virus.

In addition to emergency funding for the pandemic response, the economic package includes long-term measures to improve healthcare infrastructure. The Government's emphasis on healthcare offers substantial opportunities for private investment to create affordable healthcare facilities and services. To boost private investment in social infrastructure, the Government has announced an outlay of Rs. 81 billion with viability-gap funding ("VGF") limits, enhanced from 20% to 30% of project cost for both the Central and State Governments to attract private investments in the social infrastructure space.

VGF support will aid in the development of hospitals and healthcare centers under public-private partnerships. It creates an investment opportunity of Rs 150-200 billion under the social-infrastructure space. Support to private investments via enhanced VGF will help grow the current health infrastructure by 4-5%. Increased public expenditure on health (National Health Policy targets public health expenditure at 2.5% of GDP by 2025) also means increased Government focus on the development of health systems and research centers. The development of healthcare infrastructure will gain preference in the current situation with a rise in healthcare spending/demand in India.

Healthcare Industry

Healthcare has become one of India's largest sectors, both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance, and medical equipment. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services, and increasing expenditure by public as well as private players.

India's healthcare delivery system is categorized into two major components - public and private. The government, i.e. public healthcare system, comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centers (PHCs) in rural areas. The private sector provides the majority of secondary, tertiary, and quaternary care institutions with a major concentration in metros, tier-I, and tier-II cities.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost-competitive compared to its peers in Asia and Western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe. The low cost of medical services has resulted in a rise in the country's medical tourism, attracting patients from across the world. Moreover, India has emerged as a hub for R&D activities for international players due to its relatively low cost of clinical research.

Indian Healthcare Market Opportunity

The Indian healthcare sector is expected to record a three-fold rise, growing at a CAGR of 22% between 2016–22 to reach US\$ 372 billion in 2022 from US\$ 110 billion in 2016. By FY22, Indian healthcare infrastructure is expected to reach US\$ 349.1 billion. In the Economic Survey of 2022, India’s public expenditure on healthcare stood at 2.1% of GDP in 2021-22 against 1.8% in 2020-21 and 1.3% in 2019-20. In FY22, premiums underwritten by health insurance companies grew to Rs. 73,582.13 crores (US\$ 9.21 billion). The health segment has a 33.33% share in the total gross written premiums earned in the country. The Indian medical tourism market was valued at US\$ 2.89 billion in 2020 and is expected to reach US\$ 13.42 billion by 2026. According to India Tourism Statistics at a Glance 2020 report, close to 697,300 foreign tourists came for medical treatment in India in FY19. India has been ranked 10th in the Medical Tourism Index (MTI) for 2020-21 out of 46 destinations by the Medical Tourism Association. The e-health market size is estimated to reach US\$ 10.6 billion by 2025. As per information provided to the Lok Sabha by the Minister of Health & Family Welfare, Dr. Bharati Pravin Pawar, the doctor population ratio in the country is 1:854, assuming 80% availability of 1268 thousands registered allopathic doctors and 565 thousands AYUSH doctors.

Road Ahead

India’s healthcare sector is extremely diversified and is full of opportunities in every segment, which includes providers, payers, and medical technology. With the increase in competition, businesses are looking to explore the latest dynamics and trends which will have a positive impact on their business. The hospital industry in India is forecast to increase to Rs. 8.6 trillion (US\$ 132.84 billion) by FY22 from Rs. 4 trillion (US\$ 61.79 billion) in FY17 at a CAGR of 16–17%.

India is a land full of opportunities for players in the medical devices industry. The country has also become one of the leading destinations for high-end diagnostic services with tremendous capital investment for advanced diagnostic facilities, thus catering to a greater proportion of the population. Besides, Indian medical service consumers have become more conscious of their healthcare upkeep. Rising income levels, an aging population, growing health awareness, and a changing attitude toward preventive healthcare are expected to boost healthcare services demand in

the future. Greater penetration of health insurance aided the rise in healthcare spending, a trend likely to intensify in the coming decade. The Government aims to develop India as a global healthcare hub and is planning to increase public health spending to 2.5% of the country's GDP by 2025.

Classification of Hospitals

Classification of hospitals based on services offered

Primary care/ dispensaries/ clinics

Primary care facilities are outpatient units that offer basic, point-of-contact medical and preventive healthcare services, where patients come for routine health screenings and vaccinations. These do not have intensive care units (“ICU”) or operation theatres. Primary care centres also act as feeders for secondary care/ tertiary hospitals, where patients are referred to for treatment of chronic/ serious ailments.

Secondary care

Secondary care facilities diagnose and treat ailments that cannot be treated in primary care facilities. These act as the second point of contact in the healthcare system. There are two types of secondary care hospitals - general and specialty care.

- General secondary care hospitals

These hospitals are approached for common ailments and attract patients staying within a radius of 30 km. The essential medical specialties in general secondary care hospitals include internal medicine, general surgery, obstetrics and gynecology, pediatrics, ear-nose-throat (ENT), orthopedics, and ophthalmology. Such a hospital typically has one central laboratory, a radiology laboratory, and an emergency care department. Generally, secondary care hospitals have 50-100 in-patient beds, 2-3 beds of which are allocated for the ICU segment. The remaining beds are equally distributed between the general ward, semi-private rooms, and single rooms.

- Specialty secondary care hospitals

These hospitals are located in district centers, treating patients living within a radius of 100-150 km. They usually have an in-patient bed strength of 100-200, 3-4 beds of which are reserved for critical care units. The balance is for private rather than general ward beds. Apart from medical facilities offered by a general secondary care hospital, specialty secondary care hospitals treat ailments related to gastroenterology, cardiology, neurology, dermatology, urology, dentistry, and oncology. These hospitals may also offer some surgical specialties, but they are optional. Diagnostic facilities in a specialty secondary care hospital include a radiology department; biochemistry, hematology and microbiology laboratories; and a blood bank. They also have a separate physiotherapy department.

Tertiary care

Tertiary care hospitals provide advanced healthcare services, usually on referral from primary or secondary medical care providers.

- Single-specialty tertiary care hospitals

These treat a particular ailment (such as cardiac and cancer). Prominent facilities in India include: Escorts Heart Institute & Research Centre (New Delhi); Tata Memorial Cancer Hospital (Mumbai); HCGEL Oncology (Bengaluru); Sankara Nethralaya (Chennai); National Institute of Mental Health & Neuro Sciences (NIMHANS, Bengaluru); and Hospital for Orthopaedics, Sports Medicine, Arthritis and Trauma (HOSMAT, Bengaluru)

- Multi-specialty tertiary care hospitals

These hospitals offer all medical specialties under one roof and treat complex cases such as multi-organ failure, high-risk, and trauma cases. Most of these hospitals derive a majority of their revenue through referrals. Such hospitals are located in state capitals or metropolitan cities and attract patients staying within a 500 km radius. They have a minimum of 300 in-patient beds, which can go up to 1,500 beds. About one-fourth of the total beds are reserved for patients in need of critical care. Medical specialties offered include cardio-thoracic surgery, neurosurgery, nephrology, surgical oncology, neonatology, endocrinology, plastic and cosmetic surgery, and nuclear medicine. In addition, these hospitals have histopathology and immunology laboratories as a part of its diagnostic facilities. Lilavati Hospital and Hiranandani Hospital in Mumbai, Medanta Hospitals in NCR region and NIMS in Hyderabad are multi-specialty tertiary care hospitals.

Quaternary care hospitals

Quaternary care hospitals are an extension of tertiary care in reference to advanced levels of medicine which are highly specialized and not widely accessed, and usually only offered in a very limited number of hospitals. Experimental medicine and some types of uncommon diagnostic or surgical procedures are considered quaternary care.

Classification of hospitals by facilities/services offered

	Primary care	Secondary care	Tertiary care
Services	Provides all services as required for the first point of contact	Provides all services as required, including organised medical research	Provides all services as required, including provision for experimental therapeutic modalities and organised research in chosen specialities
Multi-disciplinary	Yes	Yes	Single- or multi-speciality
Type of service	Only medical services and excludes surgical services	Overall medical and surgical services	Complex surgical services with sophisticated equipment
Type of patient	Only outpatient	Inpatient and outpatient	Primarily inpatient
No of beds	0 beds	50-200 beds	>200 beds
Dependent on	Secondary and tertiary care hospitals for further diagnosis and support	Tertiary care hospital for diagnostic and therapeutic support on referral and for patient transfer	Tertiary care/secondary hospital for referrals for its workload
Investment	Low investment required	Medium	High

Classification based on the complexity of the ailment

Healthcare delivery may also be classified as primary, secondary, and tertiary, on the basis of the complexity of the ailment being treated. For instance, a hospital treating heart diseases may be classified as a primary facility if it addresses conditions such as high cholesterol; as a secondary facility if it treats patients suffering strokes; or as a tertiary facility if its deals with cardiac arrest or heart transplants.

Indicative split of ailments & medical treatments provided basis various categories of hospitals & complexities of ailment

Ailment/ condition	Primary	Secondary	Tertiary
Acute infections	Fever	Typhoid/ jaundice	Hepatitis B,C
Accidents/ injuries	Dressing	Fracture	Knee/ joint replacements / brain haemorrhage
Heart diseases	High cholesterol	Strokes	Cardiac arrest/ heart attacks/ heart transplantation/ heart defects like hole in heart, CABG* surgery for heart ailments
Maternity	Diagnosis/ check-ups	Normal delivery/ caesarean	Normal delivery/ caesarean/ post-delivery complications such as brain fever
Cancer	Lump diagnosis/ check-ups	Tumour – medical and radiation therapy	Medical, surgical-robotic surgery to remove minimal access tumour and radiation therapy

*CABG: Coronary artery bypass graft

Classification based on ownership

Hospitals can also be classified based on their ownership and management:

Type	Examples
Government	• Brihanmumbai Municipal Corporation hospitals, KEM Hospital, Cooper Hospital (Mumbai)
Private	• Asian Heart Institute, Apollo Hospitals, Medanta, Fortis, Max Healthcare
Trust	• Lilavati (Mumbai), Hinduja (Mumbai)
Trust owned, but managed by a private party	• Two operational models are followed by trusts and private parties: • Medical service agreement - Max Super Speciality Hospital, Patparganj • Operation and management contract - Balabhai Nanavati Hospital in Mumbai; Apollo Hospital in Ahmedabad is owned by a trust but managed by the Apollo Group
Owned by one private player, managed by another	• East Coast Hospital in Puducherry was earlier managed by Fortis Healthcare

Covid-19 Impact

Covid-19 calamity was a litmus test for us as a beginner but we could successfully manage private as well as government-supported patients. We were amongst the care providers during the peaks of this one it's kind of pandemic in South Gujarat. In continuation to this, now we are in the good books of our catchment clients as a preferred provider.

Marketing

Our clinical and operational expertise has led us to build our reputation based on positive word-of-mouth made possible by our patients. Many of our senior doctors have been trained in some of the leading medical institutions in India and across the world, and are well-known in the industry and well-recognized in their area of work, which we believe further enhances our reputation and pulls prospective patients to our hospitals. We got good Google ratings and reviews with few critics to improve ourselves and be under constant pressure to raise the bars of quality services.

Information Technology and Data Management

Our patient records are maintained in electronic form on our integrated IT system, which allows these records to be quickly securely transmitted within one of our hospitals, throughout our hospital network and to offsite locations as needed for quick diagnoses and treatment. We store client and patient medical information at data centers that employ monitored security systems. We have internal rules requiring our employees to maintain the confidentiality of our clients' medical information.

We use a third-party hospital information management software system to assist us with various functions including managing our financial accounting, stock management, sales and human resource functions. We monitor and

coordinate procurement, stocking, billing, housekeeping, staffing and patient treatments through our integrated IT system. Our integrated IT system simplifies scheduling and billing for our patients and doctors, improves our inventory management and results in efficiencies across our operations. Authorization of access is granted only through our approval process. When anyone needs access to the data centre or the servers, an email request/approval mechanism is in place for record purposes.

All the data on our servers are periodically backed up to prevent loss of data, and we properly store our backup data at an offsite location to be used in case of any disasters.

Intellectual Property

We rely on our branding and intellectual property rights for the success of our business. Accordingly, in order to protect our intellectual property, we obtain appropriate statutory registrations.

Competition

We face competition from players who operate in the same region as us. We also face competition from hospitals and hospital chains that provide secondary and tertiary healthcare services (across a myriad of specialties). The main players in South Gujarat are Unique Hospital, Sunshine Global Hospital, Mahavir Hospital, Shalby Hospital, United Green Hospital, and SIMS Hospital. We also compete with government-owned hospitals, and nursing homes, smaller clinics, hospitals owned or operated by non-profit and charitable organizations, and hospitals affiliated with medical colleges. We will also have to compete with any future healthcare facilities located in the regions in which we operate. An increase in competition could result in downward pressure on prices, lower demand for our services, reduced margins, an inability to take advantage of new business opportunities, and a loss of market share.

Risk Management and Internal Controls

We have established a Risk Management Committee to ensure compliance with legal requirements, industry standards, and internal requirements across all aspects of our business and operations. Quality management processes have a positive impact on employees and patients by improving management processes and patients' hospital experience, their health and safety, and clinical outcomes.

We have a risk management system aimed at identifying, analyzing, assessing, mitigating, and monitoring risk or potential threats to achieving our strategic and business objectives covering various aspects of our business, including operations, legal, regulatory, strategic, and financial. In addition to our regular internal and clinical audits which focus on internal business processes, we are subjected to periodical audits and inspections by external statutory, regulatory, and other agencies in the course of the application of grants, and the renewal of licenses, permits, and accreditations from a prestigious organization like NABH. We also have an established internal control system to optimize the use and protection of assets, facilitate accurate and timely compilation.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of, amongst others equity shares. Pursuant to the SEBI UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the SEBI UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019, until March 31, 2019, or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020, decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

The Issue will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Issue Opening Date. If the Issue is made under UPI Phase III of the UPI Circular, the same will be advertised in shall be advertised in all editions of [●], an English national daily newspaper, in all editions of [●], a Hindi national daily newspaper and in all editions of [●] Gujarati national daily, Gujarati being the regional language of Surat, where our Registered Office is located, each with wide circulation, on or prior to the Issue Opening Date and such advertisement shall also be made available to the Stock Exchange for the purpose of uploading on their websites.

All SCSBs offering the facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchange and NPCI in order to facilitate collection of requests and/or payment instructions of the Retail Individual Bidders using the UPI Mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalized under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the Book Running Lead Manager will be required to compensate the concerned investor.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Offer Period.
