Internal Risk Factors

Risks relating to our Business

- 1. We derive significant portion of our revenues from Rice Bran Oil and any reduction in demand or in the production of such products could have an adverse effect on our business, results of operations and financial condition.***

We derive a significant portion of our revenue from the sale of Rice Bran Oil. We manufacture, market and sell Rice Bran Oil under our own brands “Tulsi” and “Sehat” through thirty-eight (38) distributors who in turn sell to various retailers across Maharashtra. We also manufacture and sell Rice Bran Oil to FMCG companies like Mother Dairy Fruit & Vegetable Private Limited, Marico Limited and Empire Spices and Foods Ltd. For the three months ended June 30, 2023 and Fiscals 2023, 2022 and 2021, our revenue from our Rice Bran Oil under our own brands and to other brands of leading FMCG companies on a contractual basis amounted to ₹ 5,666.42 lakhs, ₹ 29,698.16 lakhs, ₹ 29,030.38 lakhs and ₹ 18,555.68 lakhs contributing 33.77%, 42.57%, 49.81% and 43.77% during three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021 of our revenue from operations, respectively. Consequently, any reduction in demand from the consumers of Rice Bran Oil or lack of preference for Rice Bran Oil could have an adverse effect on our business, results of operations and financial condition.

- 2. Our business is dependent on the sale of our products to certain FMCG companies with whom our Company has not entered into any long-term agreements purchasing our Rice Bran Oil. The loss of such customers, a significant reduction in purchases by such customers, or a lack of commercial success of their product of which we are a major supplier could materially adversely affect our business, results of operations and financial condition.***

We supply rice bran oil in bulk to certain leading FMCG companies like Mother Dairy Fruit & Vegetable Private Limited, Marico Limited and Empire Spices and Foods Ltd. We have historically derived, and may continue to derive, a significant portion of our income from sales to these FMCG companies. The details of contribution by these FMCG companies to our total revenue from operations during three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, is set out below:

(₹ in lakhs, except for percentages)

Particulars	For Period/ Fiscal							
	June 30, 2023		2023		2022		2021	
	Amount	% of revenue from operations	Amount	% of revenue from operations	Amount	% of revenue from operations	Amount	% of revenue from operations
FMCG customers	4,261.32	25.40%	21,816.02	31.27%	23,559.38	40.42%	15,478.98	36.51

Any reduction in orders from our FMCG customers would adversely affect our income. The demand from our FMCG customers determines our revenue levels and results of operations, and our sales are directly affected by their production and inventory levels. Over the years, we have developed strong relationships with our FMCG customers through whom we have been able to increase the quality of our offerings. Our business depends on the continuity of business with these customers.

We have not entered into any long-term agreements with our FMCG customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. Consequently, there is no commitment on the part of our FMCG customers to continue to place new purchase orders with us and as a result, our cash flow and consequent revenue may fluctuate significantly from time to time. Further, we may not find other FMCG customers for the surplus or excess capacity, in which case we may be forced to incur a loss due to lack of utilization of our production capacity. Our FMCG customers can terminate their relationships with us due to a change in preference or any other reasons, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products. Our Company's FMCG customers are under no obligation to place orders with us and may either cancel, reduce or delay orders. The orders placed by our FMCG customers are dependent on factors such as customer satisfaction with the quality of our products, pricing of our products, customer's inventory management, amongst others.

Although, we have a strong emphasis on quality, pricing, timely delivery of our products and personal interaction by the senior management with our customers, any change in the buying pattern of our customers can adversely affect the business and the profitability of our Company.

3. *We derive significant portion of our revenues from the sale of De-Oiled Rice Bran (DORB) and any reduction in demand from its consumers could have an adverse effect on our business, results of operations and financial condition.*

DORB is a by-product produced during the manufacturing of Rice Bran Oil. We sell DORB to the southern states of Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu which is used by fish & poultry farmers, traders and certain end user industries for their products. Sale of DORB amounted to ₹ 7,591.87 lakhs, ₹ 26,097.18 lakhs, ₹ 16,340.18 lakhs and ₹ 16,108.96 lakhs contributing 45.25%, 37.40%, 28.03% and 38.00% during three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, respectively of our revenue from operations. Any reduction in demand from the consumers of DORB could have an adverse effect on our business, results of operations and financial condition.

4. *Our operations are dependent on the supply of large amounts of raw material such as rice bran. We do not have long term agreements with suppliers for our raw materials and any increase in the cost of, or a shortfall in the availability of, such raw materials could have an adverse effect on our business and results of operations, and seasonable variations could also result in fluctuations in our results of operations.*

Rice bran oil is extracted from the hard outer brown layer of rice called bran. There are various rice mills and traders of paddy and rice bran which are situated near our Manufacturing Facilities ensuring the supply of rice bran to us when required. The ease of availability of rice bran in abundance, which is our main raw material, ensures the smooth operations of our Manufacturing Facilities, production and sale of our finished goods. In addition to the ease in availability, rice bran is also available to us at a competitive price which in turn enhances our ability to compete aggressively in pricing of our finished product as compared to our competitors.

Our business depends on the availability of reasonably priced rice bran. We source rice bran from local suppliers. The price and availability of rice bran depend on several factors beyond our control, including overall economic conditions, paddy crop productivity in the season, market demand and competition for such materials, production and transportation cost, duties and taxes. In addition, we do not have long term supply contracts with any of our raw material suppliers and we typically place orders with them in advance of our anticipated requirements. The absence of long term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require and we may be unable to pass these costs onto our customers. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect our operations. If, for any reason, primary suppliers of raw materials curtail or discontinue their delivery of such materials or products to us in the quantities we need, or on commercially acceptable terms, production schedules could be disrupted and our business and results of operations could be adversely affected.

5. *Our products are in the nature of commodities, and their prices are subject to fluctuations that may affect our profitability.*

Our earnings are to an extent dependent on the prices of the commodities that we sell mainly physically refined rice bran oil. These fluctuate due to factors beyond our control, including, amongst others, world supply and demand, supply of raw materials, weather, crop yields, trade disputes between governments of key producing and consuming countries and governmental regulation. Global demand for agricultural commodities may be adversely affected in periods of sustained economic downturn, while supply may increase due to weather patterns or long-term technological developments, all of which are factors beyond our control. High commodity prices have also led to an exponential rise in raw material prices, which resulted in a decrease in our gross profit margin in percentage terms for the Financial Years 2023 and 2022. Nonetheless, it is difficult to predict the specific price fluctuations that may occur and the exact impact which they may have on our earnings, and it is possible for such price fluctuations to adversely affect our business, results of operations and financial condition.

6. *In case we fail to successfully establish our corn de-oiling plant our revenues and reputation could be severely affected which in turn could also affect our financial condition.*

We intend to set up corn de-oiling manufacturing facility, adjoining our existing manufacturing unit at Brahmapuri, which involves crushing and processing of grains like corn using a process called dry-milling. The plant proposed to be installed is based on "Zero Liquid Discharge - ZLD", Unloading & Pre-Cleaning, Storage (Silo), Dry Milling, Solvent Extraction, Storage of Crude Oil, Refining & Storage of Refined Oil & Packaging based on the DRI-CORN Technology. The de-oiled corn cake obtained from this process along with de-oiled rice bran (DORB) from our existing manufacturing facilities will be supplied to RBS Renewables Private Limited, an Associate company, which is setting-up Ethanol manufacturing unit adjoining to our existing Brahmapuri unit. Our Company has a thirty percent (30%) stake in this Associate company. Our Company will be entering into an arrangement with RBS Renewables Private Limited to supply the de-oiled corn cake and de-oiled rice bran (DORB).

In the event of failure to establish this corn de-oiling plant and related activities with our Associate company may adversely affect our business, results of operations and financial condition.

7. *Our business operations require significant working capital. If we experience insufficient cash flows to meet required payments on our working capital requirements, there may be an adverse effect on the results of our operations.*

Our business operation requires significant working capital specifically for raw materials and finished goods to undertake manufacturing operations. The working capital requirements for FY 2025 of our Company is estimated at ₹ 1,200.00 lakhs and will be funded out of the Net Proceeds, whereas the balance working capital requirements would be arranged from our internal accruals and borrowings from banks and financial institutions. For further details, please see "Objects of the Issue" on page 82. However, we may not be able to obtain financing on better and favourable terms from bankers or financial institutions, if and when we decide to avail institutional funding. Further, we cannot assure you that our bankers or financial institutions may implement new credit policies, adopt new pre-qualification criteria or procedures, raise interest rates or add restrictive covenants in loan agreements, some or all of which may significantly increase our financing costs, or prevent us from obtaining financings totally. All of these factors may increase in working capital requirements and if we experience insufficient cash flows to meet required payments on our working capital requirements, there may have an adverse effect on our financial condition, cash flows and results of operations.

8. *Any failure to protect or enforce our rights to own or use intellectual properties and brand name could have an adverse effect on our business and competitive position.*

We have registered one (1) trademark and one (1) copyright, including for our key brand ‘Tulsi’. We have also applied for registration of two (2) trademarks relating to our key brand, ‘Tulsi’ and ‘RBS Sehat’ and one (1) copyright, which remain pending at various stages of the registration process. We may not be able to prevent infringement of our trademarks and a passing off action may not provide sufficient protection until such time that this registration is granted. For further details, see “*Government and Other Approvals*” beginning on page 204.

Though there are no past or pending litigations or multiple legal actions taken in respect of its trademarks / intellectual property rights which have led to significant costs or expenses during the last three (3) Financial Years, we may not be able to prevent infringement of our registered names and trademarks.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights which may force us to alter our brand offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain brand offerings. Further, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our business, results of operations, cash flows and financial condition.

8. *Our Company has availed certain unsecured loans which may be recalled at any time.*

Our Company has availed certain unsecured loans of which an amount of ₹ 3,491.01 lakhs is outstanding as on October 31, 2023 which may be recalled at any time. In the event, any of such lenders seek a repayment of any these loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, we may not have adequate working capital for our business operations. Therefore, any such demand may adversely affect our business, financial condition and results of operations. For further details, see “*Financial Indebtedness*” on page 182.

9. *We currently have two products i.e. Rice Bran Oil and De-oiled Rice Bran (DORB). Our inability to manage our operations may have an adverse effect on our business, results of operations and financial condition.*

We currently offer two products primarily (i) Rice Bran Oil and De-oiled Rice Bran (DORB). We manufacture, distribute, market and sell Rice Bran Oil to FMCG companies like Mother Dairy Fruit & Vegetable Private Limited, Marico Limited and Empire Spices and Foods Ltd. We also sell Rice Bran Oil to consumers directly under our own brands “Tulsi” and “Sehat”. As a result of operating such a specific business, our management requires considerable expertise and skill to manage and allocate an appropriate amount of time and attention to each business. Operating such business also makes forecasting future revenue and operating results difficult, which may impair our operations and your ability to assess our prospects. In addition, our cost controls, internal controls, and accounting and reporting systems must be integrated and upgraded on a continual basis to support our business. In order to manage and integrate our business effectively, we will be required to, among other things, stay abreast with key developments in the geography that we operate, implement and continue to improve our operational, financial and management systems, develop the management skills of our managers and continue to train, motivate and manage our employees and also be aware of our competitors and their business activities. If we are unable to manage our operations, our business, results of operations and financial condition may be adversely affected.

10. *We derive significant portion of our revenues from the sale of Rice Bran Oil under our own brands. Any reduction in demand of our products or loss of any distributor could have an adverse effect on our business, results of operations and financial condition.*

We distribute, market and sell Rice Bran Oil under our own brands “Tulsi” and “Sehat”. For the three months ended June 30, 2023 and Fiscals 2023, 2022 and 2021, our revenue from our Rice Bran Oil business was ₹ 1,405.10 lakhs, ₹ 7,882.14 lakhs, ₹ 5,471.00 lakhs and ₹ 3,076.70 lakhs contributing 8.37%, 11.30%, 9.39% and 7.26%, respectively of our revenue from operations. Consequently, any reduction in demand from the consumers of Rice Bran Oil or lack of preference for Rice Bran Oil could have an adverse effect on our business, results of operations and financial condition.

We manufacture, market and sell Rice Bran Oil under our own brands “Tulsi” and “Sehat” through thirty-eight (38) distributors who in turn sell to various retailers across Maharashtra. In the event of a loss of any distributor or the distributors preferring to sell the products of our competitors or offering us a lesser price than what is offered to other FMCG companies may affect on our business, results of operations and financial condition.

11. *Unfavourable local weather patterns may have an adverse effect on our business, results of operations and financial condition.*

As an edible oil company, our business is sensitive to weather conditions, including extremes such as drought, floods and natural disasters. There is growing concern that carbon dioxide and other greenhouse gases in the atmosphere may have an adverse impact on global temperatures, weather patterns and the frequency and severity of extreme weather and natural disasters. The availability of raw materials for our operations, which includes, amongst others, rice bran may be adversely affected by longer than usual periods of heavy rainfall in certain regions or a drought caused by weather patterns such as the El Nino. For example, Maharashtra and Karnataka received less rainfall during the 2023 monsoon season leading to a drought like situation affecting farming in the region. Such events may have an adverse impact on the availability and prices of raw materials mainly rice bran for our operations, which may increase the costs of our operations as well as negatively affect our business, results of operations and financial condition.

12. Any failure of diversification into blended oil products may adversely affect our business, results of operations and financial condition

As a part of our diversification plans, we intend to enter the manufacturing, distribution, marketing and selling of blended oil products. We intend to enter a new product category viz. blended oil for both our FMCG clients and our customers. We have already applied to “AGMARK” for certification. Blending of edible oil is generally in the 80:20 ratio with one of the base oil being 80% of the blend. For example, our competitors are selling refined blended oil with rice bran oil forming 80% of the blend whereas other edible oil forms 20% of the blend. We will also leverage our existing relationship with our FMCG clients for obtaining supply contracts to achieve high volume of sales. We will be able to sell this new product by the end of the second quarter of Fiscal 2025.

In the event of any failure to successfully diversify into blended oil products due to lack of demand from the public for our blended oil products under our own brand or lack of demand from FMCG companies for our blended oil products may adversely affect our business, results of operations and financial condition.

13. Failure in our endeavour to diversify into cleaning products may adversely affect our business, results of operations and financial condition.

We market and sell Rice Bran Oil under our brands “Tulsi” and “Sehat”. To promote and increase our sales and market share, we can offer bundled products to our customers at a competitive price which will enhance the sales of Rice Bran Oil under our brands “Tulsi” and “Sehat”. To achieve this objective, we are in the process of setting up a separate subsidiary for manufacturing of cleaning products such as soaps and detergents. We plan to enter into arrangements with this entity for the supply of soaps/detergents that could be bundled and sold along with our Rice Bran Oil brands viz. “Tulsi” and “Sehat”.

Any failure to successfully launch our cleaning products or any failure of our strategy to sell them as a package with our Rice Bran Oil brands “Tulsi” and “Sehat” may adversely affect our business, results of operations and financial condition.

14. There are outstanding legal proceedings involving our Company, Subsidiary, Directors and Promoters which may adversely affect our business, financial condition and results of operations.

There are proceedings pending at different levels of adjudication before various courts, enquiry officers and appellate forums. Such proceedings could divert management’s time, attention and consume financial resources in their defence. Further, an adverse judgment in some of these proceedings could have an adverse impact on our business, financial condition and results of operations. A summary of the outstanding proceedings involving our Company, Subsidiary, Directors and Promoters, as disclosed in this Draft Red Herring Prospectus, to the extent quantifiable, have been set out below:

Orders passed in such proceedings adverse to our interests may affect our reputation and standing and may have a material adverse effect on our business, results of operations and financial condition. For further details, please see “*Outstanding Litigation and Material Developments*” beginning on page 200 of this Draft Red Herring Prospectus.

15. ***Our customers expect us to maintain high quality standards and any failure by us to comply with such quality standards may have an adverse effect on demand from end customers and on our reputation, business, results of operations and financial condition.***

We are committed to ensuring and maintaining the required industry and customer standards while providing products to our customers. We have emphasized on building strong quality management systems in our manufacturing processes as well as the raw materials used for manufacturing our products. Any failure by us to maintain compliance with these quality standards may disrupt our ability to supply products which meet our customers’ requirements. This may further lead to loss of reputation and goodwill of our Company, cancellation of the orders, loss of customers, rejection of the product, which will require us to incur additional cost, that may not be borne by the end customer, to replace the rejected product, which could have an adverse effect on our business and financial condition.

We have adopted a quality control system throughout the entire production process in our manufacturing facilities. Each of our manufacturing facilities has its own quality control and quality assurance team comprising of twenty-three (23) personnel and has implemented quality control procedures.

Each of our manufacturing facilities has a QC laboratory to conduct tests on raw materials and refined rice bran oil. We undertake tests on raw materials such as rice bran and oils procured by us on sample basis in terms of various parameters including oil content, moisture, fatty acids, odour, nutrients etc to comply with quality parameters. We also undertake tests on our refined rice bran oil for colour, stability, free fatty acid content and all statutory testing compliances as per FSSAI standards. The tests on refined rice bran oil are conducted on each batch manufactured during the refining process.

Our Manufacturing Facilities hold certifications such as ISO 22000:2018, HACCP, Kosher, Halal and GMP.

For further details see, “*Our Business – Testing and Quality Control*” on page 133. If we fail to comply with applicable quality standards in future or if the relevant accreditation institute declines to certify our products, or if we are otherwise unable to obtain such quality accreditations in the future, our business prospects and financial performance may be affected. However, there has been no major instance of failure to comply with the quality standards by our Company in the past three (3) Fiscals which has led to the loss of any customer.

Our relationship with our end customers is therefore dependent to a large extent on our ability to regularly meet their requirements, including consistent product quality. Any significant failure or deterioration of our quality management systems could result in defective or substandard products, which, in turn, may result in delays in the delivery of our products and the need to replace defective or substandard products. It may further lead to decrease in orders or cessation of business from affected customers which, in turn, may adversely impact our reputation, business, results of operations and financial condition.

16. ***Our business is dependent on our Manufacturing Facilities which are strategically located near Nagpur, Maharashtra. Any shutdown of operations of our Manufacturing Facilities may have an adverse effect on our business and results of operations.***

We have two (2) Manufacturing Facilities, near Nagpur, Maharashtra of which one (1) is in Mahadula and one (2) is in Bramhapuri, which is strategically located in Central India. Our Manufacturing Facilities are supported by infrastructure for storage of raw materials and finished goods, together with quality control equipment and processing team. These Manufacturing Facilities are subject to the normal risks of industrial production, including natural disasters, directives from government agencies and power interruptions. For further details, please see “*Our Business — Manufacturing Facilities*” on page 128. We cannot assure you that we will not go through closure or shutdown of Manufacturing Facilities in the future.

Any extended power supply interruption will result in reduced production at the affected facility. We depend on public/ state power supply utilities for the supply of power to our Manufacturing Facilities. For further details, please see “*Our Business — Utilities*” on page 133. Any shortage or interruption in the supply of electricity may adversely affect our operations and increase our production costs. This could lead to delays in delivery of our products or non-delivery, resulting in loss of revenue and damage to our reputation or customer relationships. Our Manufacturing Facilities use complex equipment and machinery, and the breakdown or failure of equipment or machinery may result in us having to make repairs or procure replacements which may require considerable time and expense and as a result, our results of operations and financial condition could be adversely affected.

17. ***Any downgrade of our debt ratings could adversely affect our business.***

Currently, our borrowings facilities availed from the bank are rated by a credit rating agency. We have received the following credit rating in respect of our credit rating facilities during last three fiscals 2023, 2022 and 2021:

Type of credit rating	Fiscal 2023	Fiscal 2022	Fiscal 2021
Long –term rating	ACUITE BBB/ Stable	ACUITE BBB/ Stable	NIL
Short- term rating	ACUITE BBB/ Stable	ACUITE BBB/ Stable	NIL

These ratings assess our overall financial capacity to pay our obligations and are reflective of our ability to meet financial commitments as they become due. Though the credit rating have not been downgraded in the past three financial years, there can be no assurance that these ratings will not be revised or changed by the above rating agencies due to various factors, including on account of the COVID-19 pandemic. Any downgrade in our credit ratings may increase interest rates for refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to raise new capital on a competitive basis.

18. ***Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.***

Our proposed Objects of the Issue are set forth under “*Objects of the Issue*” beginning on page 82. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act 2013, we cannot undertake any deviation in the utilisation of the Net Proceeds without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations. Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter our Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI. In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in the Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

19. ***Our Company has not made any alternate arrangements for meeting our requirements for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

As on date, we have not made any alternate arrangements for meeting our working capital requirements which may increase on account of the Objects of the Issue. We meet our working capital requirements through our internal accruals and borrowings from banks and financial institutions. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our additional working capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please see “Objects of the Issue” beginning on page 82.

20. ***The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled “Objects of the Issue”. Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.***

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management’s estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time on account of various factors such as our financial and market condition, business and strategy, which may not be within the control of our management. Our estimates may exceed the value and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. Our Company is not required to appoint monitoring agency for the purpose monitoring the utilisation of the Net Proceeds since the size of the Fresh Issue is less than ₹ 10,000 lakhs. Further, our Board after consideration and approval by the Audit Committee will disclose the utilisation of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchange on a quarterly basis, deviations, if any, in the Use of Proceeds of the Issue as stated in the section titled “Objects of the Issue” beginning on page 82 or by way of an explanatory statement to the notice for a general meeting.

21. ***In the event of failure of setting up of the Ethanol manufacturing unit by our Associate company may adversely affect our results of operations and financial condition.***

We intend to set up corn de-oiling manufacturing facility, adjoining our existing manufacturing unit at Brahmapuri, which involves crushing and processing of grains like corn using a process called dry-milling. The de-oiled corn cake obtained from this process along with de-oiled rice bran (DORB) from our existing manufacturing facilities will be supplied to RBS Renewables Private Limited, an Associate company, which will be setting-up this Ethanol manufacturing unit in Brahmapuri, Nagpur, Maharashtra near adjoining to our existing Brahmapuri unit, Nagpur around the same time. Our Company has a thirty percent (30%) stake in this Associate company. Our Company will be entering into an arrangement with RBS Renewables Private Limited to supply the de-oiled corn cake and de-oiled rice bran (DORB).

Our Associate company has no experience in setting up of the Ethanol manufacturing unit. Further, our Associate company has no experience in running the Ethanol manufacturing unit. We will deploy qualified and experienced consultants and personnel for running Ethanol manufacturing unit once it is completed. If we are unable to run the Ethanol manufacturing unit and/or generate revenue/profits, it may have an impact on our profits and our capital invested in the Associate company. Accordingly, our results of operations, financial condition may get adversely affected.

22. ***In addition to own fleet of commercial vehicles, we are dependent on third party transportation and logistics service providers for delivery of our products to our customers as well as raw materials to our Manufacturing Facilities. Any delay in delivery of our products or raw materials or increase in the charges of these entities could adversely affect our business, results of operations and financial condition. We also may be exposed to the risk of theft, accidents and/or loss of our products in transit.***

Our manufacturing operations are dependent on timely and cost-efficient transportation of raw materials to our facilities and of the products we manufacture to our customers. As on June 30, 2023, we have our own fleet of 62 commercial vehicles for transporting raw materials to our manufacturing units and delivery of our products to our customers. In addition to our own fleet, we transport our raw materials and our finished goods through third party transportation and logistics service providers. Depending on the terms of supply, the raw material is delivered by our suppliers on to pay or paid basis or we rely on third party logistic companies and freight forwarders for the delivery of our raw materials. We do not have formal contractual relationships with such logistic companies and freight forwarders. Any disruption in services by such third party logistic companies and freight forwarders could impact our manufacturing operations and delivery of our finished goods to our customers. Further, transportation strikes could also have an adverse effect on supplies and deliveries to and from our customers and suppliers. Although for the three months period ended June 30, 2023 and during Fiscals 2023, 2022 and 2021, we did not face any significant disruptions from third party transportation and logistics service providers, any disruptions of logistics in the future could impair our ability to

deliver our products on time, which could materially and adversely affect our business, results of operations and financial condition. Further, depending on the terms of sales, we also rely on third party logistic companies to deliver our finished goods on to pay or paid basis. We are subject to the risk of increases in freight costs. If we cannot fully offset any increases in freight costs through increases in the prices for our products, we would experience lower margins which in turn may adversely affect our business, results of operations and financial condition.

Furthermore, we are exposed to the risk of theft, accidents and/or loss of our products in transit. While we believe we have adequately insured ourselves against such risk, we cannot assure you that our insurance will be sufficient to cover the losses arising due to such theft, accidents and/or loss of our products in transit. While there have been no material instances of theft, accident or loss not covered by insurance or transportation strikes for the three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, we cannot assure you that such incidents will not occur in future. Any such acts could result in serious liability claims (for which we may not be adequately insured) which could adversely affect our business, results of operations and financial condition. Any losses or claims from damage containers, not covered by our insurance, could adversely affect our business, results of operations and financial condition.

23. ***Our Company has not entered into long-term agreements for the supply of raw materials with our suppliers. We are subject to uncertainties in the supply of raw materials and there is no assurance that our suppliers will continue to sell raw materials to us as per our requirements. This could impact the business and financial performance of our Company.***

The primary raw materials essential to the manufacturing are rice bran and certain chemicals such as hexane, bleaching earth, carbon, caustic soda, citric acid used during solvent extraction and oil refining process. We procure rice bran from various rice mills and traders who are situated near our Manufacturing Facilities. Further, we procure the chemicals required for solvent extraction and oil refining process from domestic vendors.

We usually do not enter into long-term supply contracts with any of our raw material suppliers. However, our relationship with our customers and repeat business from them has also allowed us to develop a long-standing relationship with various raw materials suppliers. The terms and conditions on warranties for product quality and return policy are set forth in the purchase orders. Pricing and production volumes are negotiated for each purchase order. The orders placed by us are dependent on factors such as demand for our Company's products, customer's inventory management, amongst others. Our suppliers in turn are also dependent on factors such as fluctuation in demand, supplier's inventory management and pricing amongst others. There are no contractual commitments other than those set forth in the purchase orders. The purchase price of our raw materials generally follows market prices. As a result, our suppliers can terminate their relationships with us due to a change in preference or any other reason on immediate basis, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in the supply of raw materials. Our suppliers are under no obligation to accept our orders and may also cancel, reduce or delay orders.

Although, we lay strong emphasis on quality, timely delivery of raw materials and personal interaction by our senior management with suppliers, any change in the price of raw materials and preference of suppliers can adversely affect the business and the profitability of our Company.

24. ***Our inability to manage our inventory and foresee accurate demand for our products for a future period may adversely affect our reputation, business, results of operation and our financial performance.***

The estimations on demands of our products are typically based on our projections, inventory levels at our Manufacturing Facilities, our understanding of the anticipation of consumption and spending by our consumers. If we are unable to provide our products to our consumers due to any disruptions at our manufacturing facilities or shortage of raw materials, we may incur the risk of customers choosing other products over our products. Further, rice bran which is a primary raw material required to manufacture our products, has a lower shelf life. Hence, in case of lower demand for our products, we may incur a risk of loss in the quality of rice bran due to its perishable nature. While we closely monitor our inventory requirements for our product, we may be exposed to various risks including the aforementioned risks. All of these factors could adversely affect our reputation, business, results of operation and our financial performance.

25. ***Our success largely depends upon the services of our Directors, Senior Management Personnel and Key Managerial Personnel (KMP) and our ability to attract and retain them. Demand for Senior Management Personnel and Key Managerial Personnel (KMP) in the industry is intense and our inability to attract and retain our Senior Management Personnel and Key Managerial Personnel may affect the operations of our Company.***

Our Directors, Senior Management Personnel and Key Managerial Personnel have substantially contributed for our growth. Our success is substantially dependent on the expertise and services of our Directors, Senior Management Personnel and Key Managerial Personnel. They provide expertise which enables us to take well informed decisions in relation to our business and prepare our Company for future challenges. Our future performance will depend upon the

continued services of these personnel. Demand for Senior Management Personnel and Key Managerial Personnel in the industry is intense. However, our Board of Directors, as a part of their role and responsibilities, have been entrusted with the obligation of selecting, compensating, monitoring, replacing and succession planning for Senior Management Personnel and Key Managerial Personnel of our Company. In the event of an exit by any Senior Management Personnel and/or Key Managerial Personnel, appropriate steps for replacement of the person are taken by our Company to ensure smooth transition of roles and responsibilities so as to avoid any disruptions in the operations and management of the business of the Company.

The loss of the services of such Director or Senior Management Personnel or Key Managerial Personnel of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

26. *Failure to identify and effectively respond to changing consumer preferences and spending patterns in a timely manner, may adversely affect the demand for our products, causing our business, results of operations, financial condition and cash flows.*

The edible oil market is characterized by frequent changes, particularly in consumer preferences, new products and product variations. The popularity and demand of our rice bran oil may vary over time due to changing consumer preferences, including those relating to new edible oil products or shift to other edible oil products like sunflower oil, ground nut oil etc. Consumer preferences in the FMCG markets are difficult to predict and changes in those preferences or the introduction of new products by our competitors could put our products at a competitive disadvantage. Our continued success depends on our ability to anticipate, gauge and react in a timely and cost-effective manner to changes in consumer preferences for our products, as well as to where and how consumers shop for those products. We continually work to enhance the recognition of our brands and products and refine our approach as to how, when and where we can market and sell our products. While we aim to introduce new brands and products from time to time, we recognize that consumer preferences cannot be predicted with certainty and can change rapidly, and that there is no certainty that, these will be commercially viable or effective or accepted by our consumers.

If we are unable to foresee or respond effectively to the changes in market conditions, new and changing trends or desired consumer preferences, accurately anticipate and forecast demand for products, then there may be a decline in the demand and sales for our products, thereby reducing our market share and preventing us from acquiring new customers and retaining existing customers, which could have an adverse effect on our business, results of operations, financial condition and cash flows.

27. *Our brands and reputation are critical to the success of our business and may be adversely affected due to various reasons, which could have an adverse effect on our business, financial condition, cash flows and results of operations.*

Our brands and reputation are among our most important assets, as they attract consumers to our products over those of our competitors. The recognition and reputation of our brands “Tulsi” and “Sehat” amongst our consumers and distributors has contributed to the growth and success of our business. Our brand reputation may be adversely affected in many ways. For example, the name of our Company is similar to the name of a known personality or celebrity in India and he is associated to a listed company which also sells edible oil products under its own brands. Any damage to reputation of this celebrity could adversely impact our reputation and sales if there is a public perception that our Company is also related to him or the company he is associated with. Other factors that could affect our brand image include adverse media coverage. Adverse publicity regarding our brands may also erode our brand image. In addition, owing to allegations of product defects or lack of consumer interest in certain products, we may be required from time to time to recall products entirely or from specific markets, which may have an adverse effect on our reputation, business, financial condition, cash flows and results of operations and may also lead to a loss of confidence of consumers in our products.

28. *Our inability to respond adequately to increased competition may adversely affect our business, financial condition and results of operations.*

We face competition from various domestic manufacturers and FMCG companies. Various players in the industry compete with each other for providing rice bran oil. We have a number of competitors offering products similar to us. Our product quality, timely delivery, product innovation, customization in products helps us to maintain strong relationship with our customers and provides edge over our competitors. We intend to continue competing vigorously to increase our market reach and sales volumes to manage our growth in an optimal way. Certain of our competitors may have better access to financial resources, technology, research and development capability, market reach and operations in different geographies and diversified product portfolios, which may allow them to better, respond to market trends.

We may not be able to compete effectively with our competitors across our product portfolio, which may have an adverse impact on our business, financial condition, results of operations and future prospects.

29. *In the event of any accident at our Manufacturing Facilities, our Company may be held liable for damages and penalties which may impact the financials of our Company.*

Any mishandling of our equipment and machineries by our employees/ labour could also lead to serious and sometimes fatal accidents. These accidents can cause personal injury and loss of life, severe damage to and destruction of property and equipment, environmental damage and may result in the suspension of operations and the imposition of civil and criminal liabilities. As on June 30, 2023, we maintain an insurance coverage of ₹ 8.099.29 lakhs which is 92.86% of our written down value of the property, plant and equipment (excluding land).

While we believe that the insurance coverage maintained by us would be reasonably adequate to cover the normal risks associated with such accidents, to the extent that we suffer loss or damage for accidents for which our insurance is inadequate or which exceeds our insurance coverage, the loss would have to be borne by us. There has been no material incident in the past three financial years requiring the Company to claim insurance from the insurance company. However, we cannot ensure that such accidents will happen in future which may have adverse impact our financial position, our reputation with suppliers, customers, regulators, employees and the public, which could in turn affect our financial condition and business performance.

For further details, see the section titled “Our Business — Insurance” on page .

30. *We are operating in a labour intensive industry, hence we may face labour disruptions and other planned and unplanned outages that could interfere or temporarily disrupt our operations.*

Our Company’s manufacturing activities are labour intensive. Strikes and other labour action may have an adverse impact on our manufacturing operations, though we have not experienced any such labour disruption in the last three financial years. We cannot guarantee that we will not experience any strike, work stoppage or other industrial action in the future. Any such event could disrupt our manufacturing operations either temporarily or for a significant period of time, resulting in increased wages and other costs leading to a material adverse effect on our business, results of operations or financial condition. For further details, please see “Our Business – Manpower” on page 137 of this Draft Red Herring Prospectus.

31. *In the event we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business operations, our business and results of operations may be adversely affected.*

Our operations are subject to extensive government regulations and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India, generally for carrying out our business operations. We may need to apply for more approvals, including the renewal of approvals which may expire from time to time, and approvals in the ordinary course of business.

We intend to enter the crushing and processing of grains like maize corn using a process called dry-milling by setting up of a corn de-oiling manufacturing facility adjoining our existing manufacturing unit at Brahmapuri. We may need to apply to obtain/amend requisite approvals to carry on operations of aforesaid corn de-oiling manufacturing facility.

Any inability to obtain/ renew the approvals may have an adverse effect on our operations. We cannot assure you that such approvals will be issued or granted to us, or at all. If we fail to obtain or retain any of these approvals or licenses or renewals thereof, in a timely manner or at all, our business operations may be adversely affected.

The approvals required by us are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business operations are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer disruption in our operations, any of which could adversely affect our business operations. For further details, please see chapters titled “Key Regulations and Policies” and “Government and Other Approvals” beginning on pages 139 and 204.

32. *Our business may expose us to potential product liability claims and recalls, which could adversely affect our results of operation, goodwill and the marketability of our products.*

We may be exposed to risks of products recalls and returns. In addition, we may be exposed to potential product liability claims, and the severity and timing of such claims are unpredictable. We face the risk of loss resulting from, and the adverse publicity associated with, product liability lawsuits, whether or not such claims are valid. We may also be subject to claims resulting from manufacturing defects or negligence in storage or handling which may lead to the deterioration of our products. Product liability claims, regardless of their merits or the ultimate success of the defence

against them, are expensive. Even unsuccessful product liability claims would likely require us to incur substantial amounts on litigation and require our management's time and focus. Accordingly, such product liability claims, may adversely affect our results of operation, goodwill and the marketability of our products.

33. *We are exposed to the risks of significant breaches of data security, and malfunctions or disruptions of information technology systems.*

Our information technology systems are vital to our business. We are currently utilizing an enterprise resource planning solution which assists us with various functions including procurement, inventory, finance & accounting, raw material management and debtors & creditors management. Although we carry out periodic security checks, these systems may be potentially vulnerable to data security breaches, whether by employees or others, which may result in unauthorized persons getting access to sensitive data. Though there have been no instances of security breaches in the past, inability to prevent such data security breaches in future could lead to the loss of trade secrets and the data related to our products and other proprietary information could be compromised. These systems are also susceptible to outages due to fire, floods, power loss, telecommunications failures, natural disasters, computer viruses or malware, break-ins and similar events. Effective response to such disruptions or malfunctions will require effort and diligence on the part of our third-party distribution partners and employees to avoid any adverse effect to our information technology systems.

34. *Industry information included in this Draft Red Herring Prospectus has been has been obtained or extracted from government websites also extracted from publicly available information, data and statistics and has been derived from various government publications and industry sources.*

The industry and market information contained in this Draft Red Herring Prospectus has been obtained or extracted from government websites also extracted from publicly available information, data and statistics and has been derived from various government publications and industry sources. For further details, see, "*Industry Overview*" on page 116. Prospective investors are advised not to unduly rely on the industry information when making their investment decisions.

35. *Our Company has in the past entered into related party transactions with our Promoters and Promoter Group members and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.*

Our Company has entered into related party transactions with our Promoters and Promoter Group members in the past. While our Company believes that all such transactions have been conducted on an arm's length basis and are accounted as per AS 18 are in compliance with the provisions of the Companies Act, 2013 and other applicable laws however there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. For further details, see "*Restated Financial Statements*" beginning on page 179.

36. *Our inability to comply with repayment and other covenants in the financing agreements or otherwise meet our debt servicing obligations could adversely affect our business, financial condition, cash flows and credit rating.*

Our Company has entered into agreements in relation to financing arrangements with certain banks for working capital facilities, term loans and vehicle loans. As of October 31, 2023, we had total secured outstanding borrowings of ₹7,698.75 lakhs. The agreements with respect to our borrowings contain restrictive covenants, including, but not limited to, (a) change or alteration in the capital structure; (b) effect any scheme of amalgamation or reconstruction; (c) undertake any project or implementation of new scheme of expansion/ diversification; (d) declaration of payment of dividend; and among others.

Further, under the terms of our secured borrowings, we are required to we are required to, inter alia (a) create charge on movable fixed assets, book debts and current assets, both present and future of our Company; (b) create charge on raw material, semi-finished goods, finished goods, receivables; (c) create charge on immovable properties of our Company; (d) create pledge on stock of our Company; and (f) provide personal guarantee of our Promoters and certain promoter group members. Many of our financing agreements also include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities or entering into certain transactions. For further details, see "*Financial Indebtedness*" beginning on page 182.

Our Company has also provided corporate guarantees to lenders of RBS Renewables Private Limited, our Associate company for availing of financial assistance for an aggregate principal amount of Rs. 12,200 lakhs from Axis Bank Limited and HDFC Bank Limited. For further details, see "*Restated Financial Statements*" beginning on page 179.

Our ability to execute business plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be negatively impacted as a result of these restrictions and limitations. In the event of breach of a restrictive covenant, our lenders could deem us to be in default and seek early repayment of loans. An event of default would also affect our ability to raise new funds or renew borrowings as needed for the smooth conduct of our operations and pursue our growth initiatives. Although we have received consents from our lenders for the Issue, we cannot assure you that we will be able to receive such consents in future for other growth plans.

37. *Our operations are subject to evolving health, safety and environmental laws and regulatory standards.*

We are subject to laws and government regulations, including in relation to safety, health and environmental protection and hazardous waste management. These safety, health and environmental protection laws and regulations impose controls on air and water discharge, noise levels, management of materials used in manufacturing activities, storage, handling, employee exposure to hazardous substances and other aspects of our manufacturing operations. These laws also regulate the storage, treatment and disposal of wastes, remediation of contaminated soil and groundwater, air quality standards, water pollution and discharge of hazardous materials into the environment. For further details, see “*Key Regulations and Policies*” on page 139.

The discharge or emission of chemicals, dust or other pollutants into the air, soil or water that exceed permitted levels and cause damage to others may give rise to liabilities towards the government and third parties and may result in our incurring costs to remedy any such discharge or emissions. Environmental laws and regulations in India have become and continue to be more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment, and emissions management and other expenditure to comply with environmental standards. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings, including public interest litigation, being commenced against us, third party claims or the levy of regulatory fines.

Further, our products, including the process of manufacture, storage and distribution of such products, are subject to numerous laws and regulations in relation to their quality, safety and health. For instance, the provisions of the FSS Act are applicable to us and our products, which sets forth requirements relating to the license and registration of food businesses and general principles for food safety standards, and manufacture, storage and distribution. The Legal Metrology Act, 2009, as amended (the “Legal Metrology Act”) regulates trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number. For further details, see “*Key Regulations and Policies*” on page 139.

There is a risk that we may fail to comply with such regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities, as well as the withholding or delay in receipt of regulatory approvals for our new products. We cannot assure you that we will not be involved in future litigation or other proceedings or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which may be significant. As a consequence of unanticipated regulatory or other developments, future environmental and regulatory expenditure may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations or financial condition. In addition, we could incur substantial costs, our products could be restricted from entering certain markets, and we could face other sanctions, if we were to violate or become liable under environmental laws or if our products become non-compliant with applicable regulations. Our potential exposure includes fines and civil or criminal sanctions, third-party property damage or personal injury claims and clean-up costs. The amount and timing of costs under environmental laws are difficult to predict. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings being commenced against us, third party claims or the levy of regulatory fines, which may adversely affect our reputation, business, financial condition, cash flows and results of operations.

38. *We have certain contingent liabilities that have not been provided for in our Restated Financial Statements, which if realised, could adversely affect our financial condition.*

Our contingent liabilities as at June 30, 2023 as per our Restated Financial Statements were as follows:

(₹ in lakhs)

Particulars	Amount
Income Tax Demand AY 2012-13	95.94
Income Tax Demand AY 2013-14	54.71
Income Tax Demand AY 2018-19	95.41
Total	246.06

We cannot assure you that these contingent liabilities will not become established as liabilities. In the event any of these contingent liabilities become established as liabilities, it may have an adverse effect on our financial condition and results of operations.

39. ***Our Promoters and Promoter Group will continue to retain significant control in our Company after the Issue, which will allow them to influence the outcome of matters submitted to shareholders for approval. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control.***

After the completion of this Issue, our Promoters and Promoter Group will continue to hold significant shareholding in our Company. As a result, our Promoters and Promoter Group will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting, and our other shareholders will be unable to affect the outcome of such voting. Our Promoters and Promoter Group may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot assure you that our Promoter and Promoter Group will act in our interest while exercising their rights in such entities, which may in turn materially and adversely affect our business and results of operations. We cannot assure you that our Promoters and Promoter Group will act to resolve any conflicts of interest in our favour. If our Promoters and Promoter Group sells a substantial number of the Equity Shares in the public market, or if there is a perception that such sale or distribution could occur, the market price of the Equity Shares could be adversely affected. No assurance can be given that such Equity Shares that are held by the Promoter will not be sold any time after the Issue, which could cause the price of the Equity Shares to decline. For further details, please see “*Capital Structure*” beginning on page 53.

40. ***Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures and are also prohibited by the terms of our financing arrangements.***

The amount of our future dividend payments, if any, will depend upon factors that our Board deems relevant, including among others, our results of future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. The declaration and payment of dividends, if any, will be recommended by our Board of Directors and approved by our Shareholders, at their discretion, subject to the provisions of our Articles of Association and applicable law, including the Companies Act, 2013. There can be no assurance that our Company will pay dividends in the future. We may decide to retain all of our earnings, if any, for use in the operations and expansion of our business. Accordingly, realization of a gain on shareholder investments will depend on the appreciation of the price of the Equity Shares. For further details of payment of dividend by our Company during last three Fiscals, please see “*Dividend Policy*” beginning on page 177.

41. ***Our insurance cover may not adequately protect us against all material hazards and accidents.***

Our operations are subject to accidents which are inherent to any manufacturing process such as risks of equipment failure, worker accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including accidents that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environment. Our operations are subject to various risks in the manufacturing industry such as fire & other perils, burglary, earthquake, accidents, health emergencies. Accordingly, we maintain insurance policies for our Manufacturing Facilities, offices, buildings, plant and machinery, furniture, fixture and fittings and stocks due to fire and other perils. We also maintain marine cargo insurance policy to insure consignments shipped by sea and to cover inland movement of cargos by road or rail. We have also maintained insurance policies for our vehicles. We also have taken employees compensation policy for our employees at our Manufacturing Facilities. Further, we have also taken group mediclaim policy for our employees at our registered office.

Further, there are no instances in the past where the insurance claimed by us exceeds the liability insurance cover. As on June 30, 2023, we maintain an insurance coverage of ₹ 8,099.29 lakhs which is 92.86% of the written down value of property, plant and equipment (excluding land). Additionally, we have insurance on inventory amounting to ₹ 6,100.00 lakhs which is 128.27% of the inventory and marine sales turnover insurance amounting to ₹ 50,000.00 lakhs. For details, see the section titled “*Our Business — Insurance*” on page 137. Further, our insurance policies may not be sufficient to cover the economic loss that we may have to suffer due to an unfortunate incident. While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, to the extent that we suffer loss or damage for events for which we are not insured or for which our insurance is inadequate or which exceeds our insurance coverage, the loss would have to be borne by us, and as a result, our results of operations and financial condition could be adversely affected.

42. ***We do not own our Registered Office and Corporate Office and have taken the same on leave and license basis and any revocation or adverse changes in the terms of the leave and license may have an adverse effect on our business, prospects, results of operations and financial condition.***

Our Company has entered into a leave and license agreement with one of promoter group members, Snehlata Kisanlal Bhaiya in respect of our Registered Office. Further, our Company has entered into a leave and license agreement with Pratap Arjundas Motwani and Shankar Arjundas Motwani in respect of our Corporate Office. These leave and license agreements have limited validity. If the owner of the premises revokes this agreement or imposes terms and conditions that are unfavourable to us, our Company may suffer a disruption in its operations or have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

43. ***Our Company is unable to trace share transfer deeds pertain to certain instances of share transfers happened in the past and we have relied on the minutes of meetings of Board of Directors and the statutory register.***

Our Company is unable to trace share transfer deeds pertain to certain instances of share transfers happened between the year 2009 to 2012. Therefore, to derive the details in relation to share transfers happened during the aforesaid period, we have relied on minutes of meetings of Board of Directors and the statutory register. Similarly, for the build-up of our Promoters' shareholding in our Company, we have unable to trace share transfer deeds pertain to certain instances of share transfers and therefore relied on the minutes of meetings of Board of Directors and the statutory register. We have conducted an extensive search to trace our records, we have not been able to retrieve the aforementioned documents. We cannot assure you that any such records will be available in the future. For further details, please see "Capital Structure" beginning on page 65.

44. ***We have made non-compliances of Section 135 of the Companies Act, 2013 for the Financial Years 2023, 2022 and 2021. We may be subject to regulatory action, including monetary penalty that may be imposed on us.***

We have spent ₹ 14.49 lakhs, ₹ 12.34 lakhs and ₹ 0.90 lakhs as required under Section 135(5) of the Companies Act, 2013 towards CSR activities for the Financial Years 2023, 2022 and 2021 respectively. However, there have been delays in spending of the same and we could not transfer the unspent amount towards said contribution to a separate bank account before spending the same. Therefore, a notice maybe issued upon our Company and fines or penalties may also be imposed upon our Company. Although, the Registrar of Companies has not issued any notice to us in this regard, there can be no assurance that no action will be taken against us by the Registrar of Companies for the non-compliance as mentioned above. If any adverse actions are taken against us, our financial results could be affected. For further details, please see "Restated Financial Statements" beginning on page 179.

45. ***We have not been able to obtain certain records of the educational qualifications and work experience of some Directors and have relied on declarations and affidavits furnished by them.***

We have not been able to obtain certain old records of the educational qualifications of the following Directors (i) Prashant Kisanlal Bhaiya - Bachelor's degree in commerce; (ii) Tushar Ramesh Mohata – Higher secondary education. We have relied on the declarations and affidavits furnished by them for the above. For further details, please see "Our Management" beginning on page 153.

46. ***We have issued Equity Shares at a price that may be lower than the Issue Price in the last 12 months.***

During the last one year we have issued Equity Shares at a price that may be lower than the Issue Price. For further details, see "Capital Structure" beginning on page 65. The prices at which Equity Shares have been issued by us in last one year should not be taken to be indicative of the Price Band, Issue Price and the trading price of our Equity Shares after listing.

External Risk Factors

47. ***The Issue Price, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price of our Company, may not be indicative of the market price of the Equity Shares on listing or thereafter. "***

The Issue Price of the Equity Shares is proposed to be determined through a book-building process. The market price of the Equity Shares, market capitalization to total revenue multiple and price to earnings ratio based on the Issue Price may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.

There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

48. *A slowdown in economic growth in India could adversely affect our business.*

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or any future volatility in global commodity prices could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting housing, tourism and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial or political turmoil, especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

49. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

50. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.*

Our business, results of operations and financial condition could be materially adversely affected by changes in the laws, rules, regulations or directions applicable to us, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations. For further details, please see "Key Regulations and Policies" beginning on page 139.

The governmental and regulatory bodies may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, results of operations and financial condition.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations, including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals.

The Government of India has notified four labour codes which are yet to completely come into force as on the date of this Draft Red Herring Prospectus, namely, (i) The Code on Wages, 2019, (ii) The Industrial Relations Code, 2020, (iii) The Code on Social Security, 2020 and (iv) The Occupational Safety, Health and Working Conditions Code, 2020. Such codes will replace the existing legal framework governing rights of workers and labour relations.

There can be no assurance that the Government of India will not implement new regulations and policies requiring us to obtain approvals and licenses from the Government of India or other regulatory bodies or impose onerous

requirements and conditions on our operations. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and financial condition.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time-consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

51. *Significant differences exist between Indian GAAP and other accounting principles, such as IFRS and US GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.*

Our financial statements included in this Draft Red Herring Prospectus are prepared and presented in conformity with Indian GAAP, in each case restated in accordance with the requirements the SEBI ICDR Regulations and the Guidance Note on "Reports in Company Prospectuses (Revised 2016)" issued by the ICAI. Indian GAAP differs from other accounting principles with which prospective investors may be familiar in other countries, such as IFRS and U.S. GAAP. As a result, the restated financial statements for Financial Years 2023, 2022 and 2021 may not be comparable to our historical financial statements. Accordingly, the degree to which the Financial Statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Persons not familiar with Indian accounting practices should limit their reliance on the financial disclosures presented in this Draft Red Herring Prospectus.

52. *Financial and geo-political instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial and geo-political turmoil in Asia, Europe and the Middle East and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial and geo-political instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability and geo-political issues in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption or geo-political concerns could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

53. *We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Our Equity Shares are proposed to be listed on Stock Exchanges in India. Consequently, our business, operations, financial performance and the market price of our Equity Shares will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;

- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India's various neighbouring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies;
- general elections in the year 2024; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares. For example, our Manufacturing Facilities are located in western India, hence any significant disruption, including due to social, political or economic factors or natural calamities or civil disruptions, impacting this region may adversely affect our operations.

54. *If inflation were to rise further in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has initiated fiscal measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

55. *A downgrade in ratings of India, may affect the trading price of the Equity Shares.*

India's sovereign rating is Baa3 with a "negative" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a "stable" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

RISKS RELATING TO THE EQUITY SHARES AND THE ISSUE

56. *Investors bear the risk of fluctuations in the price of Equity Shares and there can be no assurance that a liquid market for our Equity Shares will develop following their listing of our Equity Shares on the Stock Exchanges.*

The purchase price of our Equity Shares in the Issue will be determined by our Company in consultation with the BRLM, pursuant to the Book Building Process. This price will be based on numerous factors, as described under in "Basis for the Issue Price" beginning on page 99. This price may not necessarily be indicative of the market price of our Equity Shares after the Issue is completed. You may not be able to re-sell your Equity Shares at or above the Issue price and may as a result lose all or part of your investment.

Equity Shares allotted in this Issue are expected to trade on Stock Exchanges after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

The price at which our Equity Shares will trade at after the Issue will be determined by the marketplace and may be influenced by many factors, including:

- Our financial condition, results of operations and cash flows;
- The history and prospects for our business;
- An assessment of our management, our past and present operations and the prospects for as well as timing of our future revenues and cost structures;
- The valuation of publicly traded companies that are engaged in business activities similar to ours;
- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements of significant claims or proceedings against us;
- new laws and government regulations that directly or indirectly affecting our business;
- additions or departures of Key Managerial Personnel;
- changes in the interest rates;
- fluctuations in stock market prices and volume; and
- general economic conditions

The Indian stock markets have, from time to time, experienced significant price and volume fluctuations that have affected market prices for the securities of Indian companies. As a result, investors in our Equity Shares may experience a decrease in the value of our Equity Shares regardless of our financial performance or prospects.

57. *Any future issuance of Equity Shares by us or sales of Equity Shares by our Promoter could adversely affect the trading price of our Equity Shares and in the case of the issuance of Equity Shares by us result in the dilution of our then current shareholders.*

As disclosed in “*Capital Structure*” beginning on page 65, an aggregate of 20% of the Issue shall be considered as minimum Promoters' Contribution and locked in for a period of three (3) years and the balance Equity Shares held by the Promoters following the Issue will be locked-in for one (1) years from the date of Allotment. Except for the customary lock-in on our ability to issue equity or equity-linked securities discussed in “*Capital Structure*” beginning on page 65, there is no restriction on disposal of Equity Shares by Promoters. As such, there can be no assurance that our Company will not issue additional Equity Shares after the lock-in period expires or that our Promoters will not sell, pledge or encumber his Equity Shares after the lock-in period expires. Future issuances of Equity Shares or convertible securities and the sale of the underlying Equity Shares could dilute the holdings of our Shareholders and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the then trading price of our Equity Shares or the Issue Price. Sales of Equity Shares by the Promoters could also adversely affect the trading price of our Equity Shares.

58. *You will not be able to immediately sell any of the Equity Shares you purchase in this Issue on the Stock Exchanges.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately three Working Days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three (3) Working Days of the Bid/ Issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors' ability to dispose their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

59. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Previously, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if Securities Transaction Tax (“STT”) was paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of Equity

Shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

60. ***QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Bidders are not permitted to withdraw their Bids after Bid/ Issue Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing.

Retail Individual Bidders can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

61. ***Foreign investors are subject to foreign investment restrictions under Indian laws which limit our ability to attract foreign investors, which may adversely affect the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of Equity Shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of the Equity Shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all.

62. ***There is no guarantee that our Equity Shares will be listed on the Emerge Platform of National Stock Exchange of India Limited in a timely manner or at all***

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the EMERGE Platform of National Stock Exchange of India Limited. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

* To be finalised upon determination of the Issue Price and updated in the Prospectus prior to filing with the RoC. The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds from the Fresh Issue.

Moreover, if the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the gross proceeds from the Fresh Issue in accordance with Regulation 230(2) of the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilising our internal accruals, general corporate purposes and seeking additional debt from existing and future lender. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Fresh Issue. Means of finance

As indicated above, our Company proposes to deploy the entire Net Proceeds towards the objects as described above during the Financial Year ending March 31, 2024 & March 31, 2025. However, if the Net Proceeds are not completely utilised for the objects stated above in the Financial Year ending March 31, 2025 due to factors such as (i) economic and business conditions; (ii) increased competition; (iii) market conditions outside the control of our Company and its management; and (iv) other commercial considerations such as availability of alternate financial resources, the same would be utilised (in part or full) in a subsequent period as may be determined by our Company in accordance with applicable law. Our Company may, however, propose to utilize the proceeds prior to the specific dates mentioned in the schedule of deployment, in accordance with requirements of our Company. Any such change in our plans may require rescheduling of our expenditure programs and increasing or decreasing expenditure for a particular object vis-à-vis the utilization of Net Proceeds. For further details, please see “Risk Factors” beginning on page 26.

The fund requirements for all the Objects of the Issue are proposed to be entirely funded from the Net Proceeds. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance under Regulation 230(1)(e) the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue or through existing identifiable internal accruals.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO RAMDEVBABA SOLVENT LIMITED (“THE COMPANY”) AND IT’S SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA

Outlined below are the special tax benefits available to the Company and its shareholders as per the Income tax Act, 1961 (“IT Act”) as amended from time to time and applicable for financial year 2023-24 relevant to assessment year 2024-25 (AY 2024-25) and Indirect Tax Laws as amended from time to time and applicable for financial year 2023-24. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

I. Under the IT Act

1. Special Tax Benefits to the Company

- Lower Corporate Tax rate under Section 115BAA

A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 (“the Amendment Act, 2019”) granting an option to domestic companies to compute corporate tax at a reduced rate of 25.17% (22% plus surcharge of 10% and cess of 4%) from the Financial Year 2019-20, provided such companies do not avail specified exemptions/incentives (e.g. deduction under Section 10AA, 32(1) (iia), 33ABA, 35(2AB), 80-IA etc.) The Amendment Act, 2019 also provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax (“MAT”) under Section 115JB. The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available. Corresponding amendment has been inserted under Section 115JAA dealing with MAT credit.

The company has exercised the above option in the Financial Year 2022-23.

2. Special Tax Benefits available to Shareholders

There are no Special Tax Benefits available to the Shareholders (other than Resident Corporate Shareholder) of the Company.

With respect to a Resident Corporate Shareholder, a new section 80M is inserted in the Finance Act, 2020, to remove the cascading effect of taxes on inter-corporate dividends during financial year 2020-21 and thereafter. The section provides that where the gross total income of a domestic company in any previous year includes any income by way of dividends from any other Domestic Company or a Foreign Company or a Business Trust, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the amount of income by way of dividends received from such other Domestic Company or Foreign Company or Business Trust as does not exceed the amount of dividend distributed by it on or before the due date. The “due date” means the date one month prior to the date for furnishing the return of income under sub-section (1) of section 139.

NOTES:

- The above statement of Special Tax Benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
- The above statement covers only certain Special Tax Benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This statement also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
- The above statement of Special Tax Benefits is as per the current Direct Tax Laws relevant for the assessment year 2024-25. Several of these benefits are dependent on the Company or its Shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.

- In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
- As the Company has opted for concessional corporate income tax rate as prescribed under section 115BAA of the Act, it will not be allowed to claim any of the following deductions:
 - a. Deduction under the provisions of section 10AA (deduction for units in Special Economic Zone)
 - b. Deduction under clause (iia) of sub-section (1) of section 32 (Additional Depreciation)
 - c. Deduction under section 32AD or section 33AB or section 33ABA (Investment allowance in backward areas, Investment deposit account, Site restoration fund)
 - d. Deduction under sub-clause (ii) or sub-clause (iia) or sub-clause (iii) of sub-section or subsection (2AA) or sub-section (2AB) of section 35 (Expenditure on scientific research)
 - e. Deduction under section 35AD or section 35CCC (Deduction for specified business, agricultural extension project)
 - f. Deduction under section 35CCD (Expenditure on skill development)
 - g. Deduction under any provisions of Chapter VI-A other than the provisions of section 80JJAA or section 80M;
 - h. No set off of any loss carried forward or depreciation from any earlier assessment year, if such loss or depreciation is attributable to any of the deductions referred above
 - i. No set off of any loss or allowance for unabsorbed depreciation deemed so under section 72A, if such loss or depreciation is attributable to any of the deductions referred above

This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. Indian Economy Overview

Strong economic growth in the first quarter of FY23 helped India overcome the United Kingdom (UK) to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Real GDP at constant prices in the second quarter of 2022–23 is estimated at US\$ 1.94 trillion (Rs. 160.06 trillion), showing a growth of 7.2% as compared to the First Revised Estimates of GDP for the year 2021-22 of US\$ 1.81 trillion (Rs. 149.26 trillion), indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. In FY22, India's service exports stood at US\$ 254.4 billion. Furthermore, India's overall exports (services and merchandise) was estimated at US\$ 770.18 billion in FY23.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Food Processing Industry

Introduction

Over the years, agricultural production in India has consistently recorded higher output. India ranked first in pulses & milk, second in vegetable primary, fruit primary wheat & rice and third in cereals, eggs primary in World Agriculture in 2019. An abundant supply of raw materials, increase in demand for food products and incentives offered by the Government has impacted food processing sector positively. During the 5 years ending 2020-21, Food Processing sector has been growing at an average annual growth rate of around 8.38 per cent as compared to around 4.87 per cent in Agriculture & allied sector (at 2011-12 prices). Food Processing Sector has also emerged as an important segment of the Indian economy in terms of its contribution to GDP, employment and investment. The sector constituted as much as 10.54 per cent and 11.57 per cent of GVA in Manufacturing and Agriculture sector respectively in 2020-21 (at 2011-12 prices).

Government Initiatives

Several policy initiatives have been taken from time to time by the Government to promote growth of the food processing sector in the country. Some of these are:

- (i) Exempting all the processed food items from the purview of licensing under the Industries (Development and Regulation) Act, 1951.
- (ii) 100% Foreign Direct Investment (FDI) permitted through automatic route for food processing sector subject to sectoral regulations.
- (iii) 100% Foreign Direct Investment, under Government approval route, for trading, including through ecommerce, in respect of food products manufactured or produced in India.
- (iv) Lower GST for raw and processed product; more than 70% food products are covered in lower tax slab of 0% & 5%.
- (v) Provision of profit linked tax holiday under Section 80 IB and investment linked deduction under Section 35 AD of Income Tax Act, 1961.
- (vi) Classifying loan to food & agro-based processing units and Cold Chain under agriculture activities for Priority Sector Lending. The Annex III of RBI's Master Directions dated 04.09.2020 on Priority Sector Lending covers the indicative list of food processing activities.
- (vii) Cold Chain and Food Parks covered under Harmonised Master List of Infrastructure Sub-sector.
- (viii) Incentivizing creation of infrastructure, expansion of Processing Capacity and developing technology to convert raw produce into value added products.
- (ix) Setting up of a Special Fund of 2000 crore in National Bank for Agriculture and Rural Development (NABARD) to provide affordable credit for designated Food Parks and agro-processing units.
- (x) Simplifying Application Forms of all the schemes and minimizing requirement of documents.
- (xi) Assisting creation of skill infrastructure in Food Processing Sector and skill development initiatives through the Sector Skill Council [i.e. Food Industry Capacity and Skill Initiative (FICSI)].

Road Ahead

- (i) Food processing sector has been identified as one of the priority sectors under "MAKE IN INDIA", an initiative of Hon'ble Prime Minister of India. With a view to attract investment to this sector, Ministry of Food Processing Industry has been implementing schemes for development of infrastructure for promoting food processing industries. Mega Food Parks with common utility/ facility like roads, electricity, water supply, sewage facility and common processing facility like pulping, packaging, cold storage, dry storage and logistics are being promoted in areas with strong agricultural resource base. These parks provide fully developed plots and factory sheds to entrepreneurs on long term lease basis where they can set up food processing units in "plug and play model".
- (ii) Government has also declared investment in Food Parks covered under the Harmonized List of Infrastructure Subsectors (HLIS) vide Government of India Notification dated 13th October, 2014.

Following this notification, it is expected that Mega Food Parks assisted by the Ministry will be able to access infrastructure lending on easier terms.

- (iii) In the context of “MAKE IN INDIA” campaign, the Ministry has been disseminating information to potential investors to attract investment to the sector through a dedicated “Investors Portal” in which a range of information like resource base, availability of land, state specific policies, fiscal incentives are shared with the potential investors. The Ministry is also collaborating with Invest India to help the investors in terms of locating joint venture partners, extending hand holding services, expediting regulatory approvals and providing investors after care services. The investor can also submit their query on the Investors portal which is promptly attended to by the Ministry for guiding the investors.

Edible Oil Industry

Introduction

Edible oils and Fats are essential ingredients for a wholesome and balanced diet and they are vital items of mass consumption. The Department of Food and Public Distribution deals with issues related to the Vegetable Oil Processing Industries, Price Control, Inter State trade & commerce and also supply & distribution of vanaspati, oilseeds, vegetable oil, cakes and fats. The Directorate of Sugar and Vegetable oils is staffed with qualified technical people who assist the Ministry in the coordinated management of Vegetable Oils Policy, particularly relating to production/availability and monitoring of prices.

Main types of Edible Oils

There are two sources of oils viz. primary source and secondary source. The primary sources of oil are nine principal oilseeds viz. groundnut, rapeseed/mustard, soyabean, sunflower, sesame, niger, safflower, castor and linseeds. Edible oils obtained through secondary sources include coconut, cottonseed, palm, rice bran and oilseed cakes.

As per the 4th Advance Estimates of Ministry of Agriculture released on 17.08.2022 for 2021-22, estimated Oilseeds production is about 376.97 lakh mt and estimated production of oils from these oilseeds in 2021-22 comes to about 89.66 lakh MT. The total availability of edible oils from primary as well as secondary sources is estimated at 115.71 lakh MT. Figures pertaining to domestic production of edible oils during 2021-22 (November to October) is estimated as follows:

Domestic Production of Edible Oils (2021-22) November to October (in lakh MT)

Mustard	36.44	Linseed	0.34
Soyabean	20.82	Coconut	5.56
Groundnut	22.92	Cottonseed	10.81
Sunflower	0.84	Rice bran	10.90
Sesame	2.38	Solvent extracted oils	3.50
Niger Seed	0.10	Tree & forest origin	1.50
Castor	5.66	Palm Oil	3.58

Consumption pattern of Edible Oils in India

India is a vast country and inhabitants of several of its regions have developed specific preference for certain oils largely depending upon the oils available in the region. For example, people in the South and West prefer groundnut oil while those in the East and North use mustard/rapeseed oil. Likewise several pockets in the South have a preference for coconut and sesame oil. Inhabitants of northern plain are basically consumers of fats and therefore prefer Vanaspati, a term used to denote a partially hydrogenated edible oil mixture of oils like soyabean, sunflower, ricebran and cottonseed oils. Many new oils from oilseeds of tree and forest origin have found their way to the edible pool largely through vanaspati route. Of late, things have changed. Through modern technological means

such as physical refining, bleaching and de-odorization, all oils have been rendered practically colorless, odorless and tasteless and therefore, have become easily interchangeable in the kitchen. Oils such as soyabean oil, cottonseed oil, sunflower oil, rice bran oil, palm oil and its liquid fraction- palmolein which were earlier not known have now entered the kitchen. The share of raw oil, refined oil and vanaspati in the total edible oil market is estimated roughly at 35%, 60% and 5% respectively. Per capita consumption of edible oils in the country as compared to world per capita consumption of edible oils since last five years has been as under:

<i>(Kg per annum)</i>					
YEAR	2017-18	2018-19	2019-20	2020-21	2021-22

Demand and Supply of Edible Oils

The production of domestic oilseeds has been steady since 2010-11. As oilseeds are cultivated on marginal land and largely dependent on rainfall, their production has been stagnant for the last couple of years. Favorable climatic conditions all over the country during the past year have led to an increase in the production of oilseeds and thereby edible oils. However, domestic demand for edible oils has been increasing at a pace faster than that of production due to growth in population and improvement in the standards of living of people, hence domestic production is insufficient to meet the demand. The short fall which is around 55% is met through imports.

As per the 4th Advance Estimates released by the Department of Agriculture, Cooperation and Farmers Welfare the estimated production of oilseeds for 2021-22 is 376.97 LMT as against 359.45 LMT in 2020-21. The total availability of edible oils from all sources (primary and secondary) for 2021-22 is estimated at 115.71 LMT as against 111.51 lakh tons in 2020-21. The gap between demand and supply is about 55% and is met through imports. Out of the total quantity of oils imported, Palm oils (Crude + Refined) constitute around 57% and are imported mainly from Indonesia and Malaysia, while Soyabean oil constitutes around 29% and is imported from Argentina and Brazil. Sunflower oil constitutes around 14% and is imported mainly from Ukraine. The domestic production and import of edible oils during the last five years is as follows:

<i>(In lakh MT)</i>					
YEAR (NOV-OCT)	DOMESTIC AVAILABILITY OF EDIBLE OILS #	IMPORTS OF EDIBLE OILS*	TOTAL AVAILABILITY/ CONSUMPTION	% SELF SUFFICIENCY	% SHARE OF IMPORTS
2017-18	103.80	145.92	249.72	41.6	58.4

Price Trend

Price pressures in oils and fats (weight of 7.8 per cent in CPI-Food and beverages) eased gradually since June 2022 as global prices of edible oils, particularly palm oil, declined sharply (Refer below the chart on the left). Edible oil prices increased sharply during March-May 2022 on account of a rise in global prices as the Ukraine conflict and imposition of export ban on crude palm oil by Indonesia in April 2022 severely impacted the supply of edible oils in the global market. Moreover, depreciation of the Indian Rupee on the back of high dependence on imports of edible oils also added to the rising domestic prices. The price momentum eased gradually with the softening of global prices, lifting of export ban and removal of export levy till October 31, 2022 by Indonesia. The government also

undertook several supply-side measures which included extending zero per cent basic customs duty (BCD) on crude palm oil, sunflower and soybean oil till March 2024, reduction in BCD on refined soybean, and sunflower and palm oil to 17.5 per cent and 12.5 per cent (from 32.5 per cent and 17.5 per cent), respectively, and reduction of import duty on refined palm oil to zero till March 2024. In addition to these, the government also imposed stock limits on edible oils and oilseeds till December 31, 2022 and exempted BCD and agricultural infrastructural development cess (AIDC) on allocated Tariff Rate Quota (TRQ) for import of 20 lakh metric tonne of crude soybean oil and sunflower oil for 2022-23. These measures together led to a steady decline in the prices of edible oils.

Import and Export Policy of Edible Oils in India

The country has to rely on imports to meet the gap between demand and supply. Import of edible oil is under Open General License. In order to harmonize the interests of farmers, processors and consumers and at the same time, regulate large import of edible oils to the extent possible, import duty structure on edible oils is reviewed from time to time. W.E. F. 14.06.2018, the import duty on all crude and refined edible oils was raised to 35% and 45% respectively while the import duty on Olive oil was increased to 40%. With effect from 01.01.2020, the import duty on Crude and Refined Palm Oil was revised to 37.5% and 45% respectively. With effect from 08.01.2020, import policy of Refined Palm Oil is amended from 'free' to 'Restricted' category. With effect from 27.11.2020, the import duty on crude palm oil has been revised from 37.5% to 27.5%. With effect from 14.10.2021, basic duty on Crude Palm Oil, Crude Soyabean Oil and Crude Sunflower Oil is Nil. The Agri-cess on these Oils has been brought down 5% for Crude Palm Oil, Crude Soyabean Oil and Crude Sunflower Oil. The basic duty on Refined Soyabean and Refined Sunflower Oil has been slashed to 17.5% and for RBD Palmolein Oil basic duty has been reduced to 12.5%. The present import duty structure has been extended till 31st March, 2024.

In order to ensure availability of edible oil in the country, export of edible oil has been banned w.e.f. 17.03.2008, which was extended from time to time. With effect from 06.02.2015, export of rice bran oil in bulk has been permitted. With effect from 27.03.2017, export of groundnut oil, sesame oil, soyabean oil and maize (corn) oil has been permitted. With effect from 06.04.2018, export of all edible oils except mustard oil was made free without quantitative ceiling; pack size etc, till further orders. Export of mustard oil is permitted in packs of up to 5 Kg with a Minimum Export Price (MEP) of USD 900 per MT.

Raw Materials

Rice Bran: Rice bran is the principal raw material used for the production of rice bran oil. Rice bran is a byproduct of the rice-milling process and is found in abundance in rice producing areas. As per Final Estimates for 2022-23 released on October 18, 2023, total production of rice during 2022-23 is estimated at record 1,357.55 Lakh tonnes. It is higher by 62.84 Lakh tonnes than previous year's Rice production of 1294.71 Lakh tonnes and by 153.65 Lakh

tonnes than the last five years' average production of 1,203.90 Lakh tonnes. As per the Final Advance Estimates of Area, Production and Productivity of Principal Crops during 2022-23 as per Department of Agriculture, Government of Maharashtra, Chandrapur district is one of the largest rice producing areas in Vidharba Region of Maharashtra with a production of 2,707.70 '00tonnes and therefore rice bran is easily available at competitive prices in this region.

Corn/Maize: Maize is the third most important cereal crop in India after rice and wheat. It accounts for around 10 percent of total food grain production in the country. India is also the fifth largest producer of Maize in 2020 as per FAO data and India's share in world production accounted to be 2.59 per cent in the same year. As per Final Estimates for 2022-23 released on October 18, 2023, the estimated production of maize during 2022-23 is 380.85 Lakh tonnes. As per the Final Advance Estimates of Area, Production and Productivity of Principal Crops during 2022-23 as per Department of Agriculture, Government of Maharashtra, the maize production in the State of Maharashtra was 38,881.60 '00 tonnes.

Rice Bran Oil

Rice bran oil is extracted from the hard outer brown layer of rice after chaff or rice husk. It is well known for its high smoke point of 232 °C i.e. 450 °F and mild flavour, making it fit for high-temperature cooking methods such as stir-frying and deep-frying. It has an ideal balance of Polyunsaturated Fats (PUFA) and Monounsaturated Fats (MUFA), in almost a 1:1 ratio. Since rice bran oil is made from bran it is rich in Vitamin E, an antioxidant.

Processing and Production of Solvent Extracted Oils

Capacity Utilisation in OY 2022-23 increased during the year. Solvent extraction processing of oilseeds including soyabean, oilcakes and rice bran during OY 2022-23 is provisionally reported at 265 lakh tonnes compared to 250 lakh tonnes during the previous year. The overall production of solvent extracted oils during OY 2022-23 from rice bran, oil cakes, minor oilseeds and soybean is reported at 40.8 lakh tonnes as against 38.5 lakh tonnes during 2021-22.

Ethanol Industry

Ethanol is one of the principal biofuels, which is naturally produced by the fermentation of sugars by yeasts or via petrochemical processes such as ethylene hydration. It has medical applications as an antiseptic and disinfectant. It is used as a chemical solvent and in the synthesis of organic compounds, apart from being an alternative fuel source.

The National Policy on Biofuels – 2018, provides an indicative target of 20% ethanol blending under the Ethanol Blended Petrol (EBP) Programme by 2030. By 2025, at 20% blending level, ethanol demand will increase to 1016 crore litres. Therefore, the worth of the ethanol industry will jump by over 500% from around Rs. 9,000 crore to over Rs. 50,000 crore. With a view to achieve blending targets, Department of Food and Public Distribution (DFPD) is making concerted efforts to enhance the ethanol distillation capacity in the country. Department of Food and Public Distribution (DFPD) is the nodal department for promotion of fuel grade ethanol producing distilleries in the country. Government has allowed ethanol production/ procurement from sugarcane-based raw materials viz. C & B heavy molasses, sugarcane juice / sugar / sugar syrup, surplus rice with Food Corporation of India (FCI) and Maize.

An in-house study was conducted to understand potential for ethanol production from the lens of water consumption. It concluded that sugar continues to be the most lucrative food crop for ethanol even though it has the highest water consumption per acre. Amongst grains, maize is the least water-intensive crop that can be used for ethanol production, although the rate of conversion to ethanol is lower than for rice and broken rice.

It is expected that capacity of molasses-based distilleries would increase from current levels of 426 crore litres to 730 and 760 crore litres by 2024-25 and 2025-26 respectively. 75 crore litres capacity is being added by existing grain-based distilleries; further OMCs are planning to set up about 10-15 new grain-based distilleries thereby adding capacity by 100-150 crore litres. Hence, capacity of grain-based distilleries is expected to reach 350, 450, 700 and 740 crore litres during 2022-23, 2023-24, 2024-25 and 2025-26 respectively from current levels of 258 crore litres.

Fast-moving consumer goods (FMCG) Industry

Fast-moving consumer goods (FMCG) sector is India's fourth-largest sector and has been expanding at a healthy rate over the years because of rising disposable income, a rising youth population, and rising brand awareness among consumers. FMCG market reached US\$ 56.8 billion as of December 2022. Total revenue of FMCG market is expected to grow at a CAGR of 27.9% through 2021-27, reaching nearly US\$ 615.87 billion.

There are three main segments in the sector — food and beverages, which accounts for 19% of the sector; healthcare, which accounts for 31% of the share; and household and personal care, which accounts for the remaining 50% share. The urban segment contributes to about 55% of the revenue share, while the rural segment accounts for 45%. Rise in rural consumption will drive the FMCG market. With household and personal care accounting for 50% of FMCG sales in India, the industry is an important contributor to India's GDP.

The Indian FMCG industry grew by 16% in 2021 a 9- year high, despite nationwide lockdowns, supported by consumption-led growth and value expansion from higher product prices, particularly for staples. Final consumption expenditure increased at a CAGR of 5.2% during 2015-20. According to Fitch Solutions, real household spending is projected to increase 9.1% YoY in 2021, after contracting >9.3% in 2020 due to economic impact of the pandemic. The FMCG sector's revenue growth will double from 5-6% in FY21 to 10-12% in FY22, according to CRISIL Ratings. Price increases across product categories will offset the impact of rising raw material prices, along with volume growth and resurgence in demand for discretionary items, are driving growth. The domestic FMCG market has grown at 12.6% YoY in Q3 2021.

Digital advertising will grow at 14.75% CAGR to reach Rs. 35,809 crore (US\$ 4.3 billion) by 2023, with FMCG industry being the biggest contributor at 42% share of the total digital spend.

OVERVIEW

We are in the business of manufacturing, distribution, marketing and selling of Physically Refined Rice Bran Oil (“**Rice Bran Oil**”). We manufacture and sell Rice Bran Oil to FMCG companies like Mother Dairy Fruit & Vegetable Private Limited, Marico Limited and Empire Spices and Foods Ltd. We also manufacture, market and sell Rice Bran Oil under our own brands “Tulsi” and “Sehat” through thirty-eight (38) distributors who in turn sell to various retailers across Maharashtra. Rice bran oil is the oil extracted from the hard outer brown layer of rice called ‘bran’. It is well known for its high smoke point of 232 °C i.e. 450 °F and mild flavour, making it fit for high-temperature cooking methods such as stir-frying and deep-frying. It has an ideal balance of Polyunsaturated Fats (PUFA) and Monounsaturated Fats (MUFA), in almost a 1:1 ratio. Since rice bran oil is made from bran, it is rich in Vitamin E, an antioxidant.

We also produce De-oiled Rice Bran (DORB), which is a by-product in the extraction of Rice Bran Oil and sell the same as cattle feed, poultry feed and fish feed in the States of Maharashtra, Goa, Gujarat, Madhya Pradesh, Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu. Other by-products such as fatty acid, lecithin, gums, spent earth and wax are sold in the open market.

Manufacture of Rice Bran Oil mainly involves two processes: (i) solvent extraction of crude oil from rice bran, having capacity of 2,55,000 MTPA; and (ii) refining the extracted crude rice bran oil, having capacity of 48,000* MTPA as on the date of this Draft Red Herring Prospectus. We own and operate two (2) Manufacturing Facilities, one (1) in Mahadula and one (1) in Bramhapuri near Nagpur, in the State of Maharashtra, which are strategically located in Central India. Our Manufacturing Facilities have extraction and refining divisions which enables integrated production and processing of Rice Bran Oil.

Our Strengths:

Strategic location of our Manufacturing Facilities.

Our Manufacturing Facilities are situated near Nagpur, Maharashtra giving us the strategic advantage to supply and distribute Rice Bran Oil in Maharashtra and DORB across various states in India. We are the preferred partner for our FMCG clients for manufacturing Rice Bran Oil as it can be easily distributed to central and southern India from Nagpur. Our strategic location also enables us to sell DORB to the southern states of Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu which is used by fish & poultry farmers, traders and certain end user industries for their products.

Easy availability of rice bran around our Manufacturing Facilities.

Rice bran oil is extracted from the hard outer brown layer of rice called bran. There are various rice mills which are situated near our Manufacturing Facilities ensuring the supply of rice bran to us on regular basis. Vidarbha region is one of the largest rice producing area in the State of Maharashtra and therefore rice bran is easily available at competitive prices. The ease of availability of rice bran in abundance, which is our main raw material, ensures the smooth operations of our Manufacturing Facilities, and production and sale of our finished products. In addition to the ease in availability, rice bran is also available to us at a competitive price which in turn enhances our ability to compete aggressively in pricing of our finished product as compared to our competitors.

Integrated operations and economies of scale.

Manufacture of Rice Bran Oil mainly involves two processes: (i) solvent extraction of crude oil from rice bran; and (ii) refining the extracted crude rice bran oil. We have integrated operations involving the extraction of oil from bran and refining of the extracted oil enabling us to meet the time, cost efficiency, quality and quantity requirements. Our Manufacturing Facilities have been designed in such a manner that for our operations, materials from one production process are transferred to the following production process through pipelines in a seamless way. This integration allows us not only to save costs but also helps us achieve economies of scale by controlling the inputs / production based on each previous process, improving our efficiency and margins.

Arrangements with FMCG companies for supply of Rice Bran Oil.

We have entered into arrangements with FMCG companies like Mother Dairy Fruit & Vegetable Private Limited, Marico Limited and Empire Spices and Foods Ltd for supply of Rice Bran Oil. We manufacture, distribute, market and sell rice bran oil under our own brands like “Tulsi and “Sehat”. As a part of our arrangement with these FMCG companies, we manufacture the Rice Bran Oil as per their quality and packaging requirements and distribute them to their assigned distributors in Central and Southern India. Sale to FMCG companies amounted to ₹ 4,261.32 lakhs, ₹ 21,816.02 lakhs, ₹ 23,559.38 lakhs and ₹ 15,478.98 lakhs contributing 25.40%, 31.27%, 40.42% and 36.51% of our revenue from operations during three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, respectively.

Focus on Quality Control.

We have over the years focused immensely on stringent quality control for our products. Each of our Manufacturing Facilities has a QC laboratory to conduct tests on raw materials, finished product and by-products. From the procurement of raw materials till the manufacture of our finished product, each stage involves stringent quality tests and controls.

Our quality control process is closely monitored by our Promoters who have a collective experience of more than four (4) decades in agro food business. We have in-house team for quality control and quality assurance comprising of twenty-three (23) personnel. We rely on the skill of our QC personnel for our growth and continued success of our business. For further information, see “- Testing and Quality Control” on page 133.

Our Promoters are complemented by a professional management team which shares the same vision and values as them to drive our growth. For further details please see “*Our Management*” on page 153.

We believe that we have attracted and retained experienced senior management team with operational and technical capabilities, management skills, business development experience and financial management skills. We believe that the combined strength of our Promoters, Directors and Senior Management team help us to implement our business strategies in an efficient manner and to continue to build on our track record of successful product offerings. We will continue to leverage on the experience of our management team and their understanding of our business to take advantage of current and future market opportunities.

Strategies:

Setting up of a corn de-oiling manufacturing facility.

We intend to set up corn de-oiling manufacturing facility, adjoining our existing manufacturing unit at Brahmapuri, which involves crushing and processing of grains like corn using a process called dry-milling. The plant proposed to be installed is based on "Zero Liquid Discharge - ZLD" : Unloading & Pre-Cleaning, Storage (Silo), Dry Milling, Solvent Extraction, Storage of Crude Oil, Refining & Storage of Refined Oil & Packaging based on the DRI-CORN Technology. The de-oiled corn cake obtained from this process along with de-oiled rice bran (DORB) from our existing manufacturing facilities will be supplied to RBS Renewables Private Limited, an Associate company, which is setting-up Ethanol manufacturing unit adjoining to our existing Brahmapuri unit. Our Company has a thirty percent (30%) stake in this Associate company. Our Company will be entering into an arrangement with RBS Renewables Private Limited to supply the de-oiled corn cake and de-oiled rice bran (DORB). This additional corn de-oiling facility will also help us to utilise our existing manufacturing facilities during off-season, thereby helping us to achieve higher operational efficiency and improve our operating margins. For further details, please see “*History and Certain Corporate Matters*” on page 145.

Addition of ‘Blended Oil’ as an additional product category

We intend to enter a new product category viz. blended oil for both our FMCG clients and our customers. We have already applied to “AGMARK” for certification. Blending of edible oil is generally in the 80:20 ratio with one of the base oil being 80% of the blend. For example, our competitors are selling refined blended oil with rice bran oil forming 80% of the blend whereas other edible oil forms 20% of the blend. We will also leverage our existing relationship with our FMCG clients for obtaining supply contracts to achieve high volume of sales. We are targeting to sell this new product by the end of the second quarter of Fiscal 2025.

Enhance our brand recall to increase our market share.

Branding, marketing and sales is a continuous exercise for any FMCG company, big or small. We intend to increase our brand recall and marketing efforts to increase our existing market share. We presently market our products and brands through various mediums like television, radio, social media and newspaper advertising. We will enhance our marketing efforts to reach out to other districts in and around the Vidharbha region of Maharashtra and also expand into other neighbouring states like Madhya Pradesh and Chhattisgarh.

Increasing operational efficiency

Our product portfolio consists of Rice Bran Oil sold under our own brands “Tulsi” and “Sehat”, in addition to the supply to other FMCG companies. Hence, operational efficiency and quality are the main focus of our operations. We continue to invest in increasing our operational efficiency throughout the organisation. We are addressing the increase in operational output through continuous process improvement, increasing recovery rate through timely extraction, technology development throughout the product range and consistency in quality. We also strive to achieve alignment of our people towards ‘process improvement’ through change management and upgradation of skills as a continuous activity. Awareness of this quality commitment is widespread among all the employees.

Entering new product categories like cleaning products.

We market and sell Rice Bran Oil under our brands “Tulsi” and “Sehat”. To promote and increase our sales and market share, we can offer bundled products to our customers at a competitive price which will enhance the sales of Rice Bran Oil under our brands “Tulsi” and “Sehat”. To achieve this objective, we are in the process of setting up a separate subsidiary for manufacturing of cleaning products such as soaps and detergents. We plan to enter into arrangements with this entity for the supply of soaps/detergents that could be bundled and sold along with our Rice Bran Oil brands viz. “Tulsi” and “Sehat”. For further details, please see “History and Certain Corporate Matters” on page 145.

Manufacturing Process

Solvent Extraction Process:

Oil Refining Process:

Process for solvent extraction

Solvent extraction

The extraction of crude rice bran oil is carried out with the application of food-grade Hexane. This extraction process yields two distinct products: high-quality crude rice bran oil and De-oiled Rice Bran (DORB).

The process involves:

1. **Screening:** This initial step involves the meticulous removal of impurities, chaff, and broken rice from the rice bran. The presence of these impurities significantly impacts both oil yield and the production of De-oiled Rice Bran in subsequent processes.
2. **Magnetic separation:** This critical stage entails the separation of iron impurities from the rice bran. Iron impurities can adversely affect the extrusion process during puffing, necessitating their removal.
3. **Quenching and Tempering:** This preheating process is instrumental in elevating the temperature of the rice bran before puffing. Following quenching and tempering, the temperature is precisely regulated within the 65-75 °C range, while moisture content is carefully maintained at 10-12%.
4. **Puffing:** In this pivotal phase, the rice bran powder undergoes palletisation, a crucial enhancement to the solvent extraction process that augments oil yield.
5. **Drying:** The puffed material extracted from the palleting machine is characterized by elevated moisture levels and temperature, rendering it unsuitable for direct extraction. Hence, the material must undergo a drying and cooling process to reduce moisture content to an optimal range of 7-9%.
6. **Oil Extraction:** Dried material collected from the dryer is transferred to extractor which undergoes oil separation with the help of food grade hexane.
7. **Distillation:** Oil and hexane mixture will be separated with the help of distillation process. Crude Oil (hexane free) is transferred to storage tank and hexane is accumulated in the storage tank and re-used in the extractor.
8. **Detoster:** Traces of hexane are removed with the help of detoster from oil extracted material (DORB) and then transferred to DORB packaging godown for drying and packing.

Oil Refining

The crude rice bran oil procured from the extraction phase undergoes further refinement to eliminate gums, wax, fatty acids, and residual odours. This is accomplished through a meticulous physical refining process. The result is a superior grade of edible oil, with Oryzanol as the major micro-nutrient. The refined rice bran oil is then hygienically packaged and dispatched for distribution.

The rice bran oil refining process involves:

1. **Enzymatic Degumming:** Rice Bran Crude oil is pumped in continuous and constant stream by pump heated to required temperature in the heat exchanger, mixed with pre – calculated quantity of enzyme in a gum conditioning mixer and fed to a in line mixer where the pre calculated quantity of water is added. Oil water mixture is then fed to the hydration tank and allowed sufficient residence time for the gums to agglomerate on hydration and then pumped to separator where the oil and hydrated gums are separated and pumped to lecithin section to convert gums into lecithin. Gums free oil is then transferred to bleaching section.
2. **Pre-Bleaching:** Bleaching is a process of selective removal of pigments and impurities by the physical interaction of food grades- bleaching earth and carbon with degummed oil to improve its quality. This process is the art of removing colour pigments, dirt, removal of polycyclic aromatic compounds and phospholipids. The bleaching process is done with the help of bleachers to improve colour of oil and pressure leaf filters are used to remove bleaching earth from the oil. The bleached oil is then transferred to dewaxing section and spent earth is sold in the open market.
3. **Dewaxing:** The pre-bleached oil is transferred to dewaxing section where the higher melting point constituents like waxes or triglycerides from oil are eliminated by gradually cooling pre-bleached oil at 15-16°C. This process helps in crystallization and amalgamation of wax and saturated triglycerides. The crystallized wax and saturated triglycerides are removed with the help of filter press and the dewaxed oil is transferred to post-bleaching section. The wax generated during the process is made available for sale to other industries. The dewaxing process in

refinery is a cost-effective way to increase profitability since it marks an essential step in the production of high-quality rice bran oil.

4. **Post-Bleaching:** The dewaxed oil undergoes the same bleaching treatment as referred in the pre-bleaching section to further remove the impurities from the dewaxed oil. Additionally, this process results in better colour, taste, and odour of the rice bran oil, leading to a superior end product that meets the quality standards of the market. Furthermore, the continuous bleaching process in oil refining reduces the environmental impact of oil refining by minimizing waste and emissions.
5. **De-odorisation:** The post-bleached oil is transferred to deodoriser. Deodoriser is a high vacuum vessel where oil is heated at high temperature under vacuum to remove various volatile components such as fatty acid and bad odour. The final refined rice bran oil is transferred to tanks for bulk institutional sales and further packaging. Fatty acids is transferred to storage tanks for sale.

Our integrated plants with solvent extraction and refining capacities of 2,55,000 MTPA and 48,000* MTPA, respectively, enable us to distribute, market and sell 6,090.47 MTPA, 23,969.42 MTPA, 22,357.43 MTPA and 19,510.00 MTPA, during three months period ended June 30, 2023 and Fiscals 2023, 2022 and 2021, respectively, Rice Bran Oil under our own brands and to other brands of leading FMCG companies on a contractual basis.

Testing and Quality Control

We have adopted a quality control system throughout the entire production process in our manufacturing facilities. Each of our manufacturing facilities has its own quality control and quality assurance team comprising of twenty-three (23) personnel and has implemented quality control procedures.

Each of our manufacturing facilities has a QC laboratory to conduct tests on raw materials and refined rice bran oil. We undertake tests on raw materials such as rice bran and oils procured by us on sample basis in terms of various parameters including oil content, moisture, fatty acids, odour, nutrients etc to comply with quality parameters. We also undertake tests on our refined rice bran oil for colour, stability, free fatty acid content and all statutory testing compliances as per FSSAI standards. The tests on refined rice bran oil are conducted on each batch manufactured during the refining process.

Our Manufacturing Facilities hold certifications such as ISO 22000:2018, HACCP, Kosher, Halal and GMP.

Utilities

All our manufacturing facilities have access to the necessary utilities, like electricity, fuel and water.

As part of the oil extraction and refining process, we consume a high amount of power and steam. We purchase electricity from state electricity authority which is our electricity provider. We have installed solar power plants at our Manufacturing Facilities having an aggregate installed capacity of 2,000 kilowatts reducing our reliance on our power requirements from public/state electricity authorities and promoting green energy. Each of our processing plants also has a backup diesel generator to supplement our electricity requirements in the event of power interruptions. We purchase diesel primarily from major state-owned petrochemical suppliers. All of our steam requirements are satisfied by our steam boilers. Each of our processing plants has a steam boiler. Our boilers are primarily dependent on biomass fuel such as husk, which is available in abundance from traders and rice mills in the Vidharbha region of Maharashtra.

We source the water supply from borewells and openwells for both of our Manufacturing Facilities. Water is mainly used to generate steam as required in the manufacturing process of our products. We have also installed RO plant at our manufacturing facilities for process water and drinking water.

Health, Safety and Environment

We have obtained ISO 22000:2018 certification for food safety management system and HACCP certification for manufacture & supply of refined rice bran edible oil in respect of our manufacturing units. We aim to comply with applicable health and safety regulations and other requirements in our operations and have adopted a health and safety policy, hygiene policy, prohibition of child labour policy, prohibition of consumption of alcohol and drugs policy that is aimed at complying with regulatory requirements, requirements of our licenses, approvals, various certifications and ensuring the safety of our employees and the people working at our manufacturing units or under our management.

We aim to significantly reduce accidents and occupational health hazards through a systematic analysis and control of risks and by providing appropriate training to our management and our employees. We have implemented health and safety measures to ensure a healthy and safe working environment at our facilities and to the general public.

Such measures include regular dashboard reporting and internal audit. We have health and safety software in place for incident reporting and management. Further, we provide regular trainings to our senior managements and employees. We are committed to environmental sustainability and have launched several environmental initiatives. We have installed a solar power plant at our Manufacturing Facilities having an aggregate installed capacity of 2,000 kilowatts reducing our reliance on our power requirements from public/state electricity authorities. Further, we have also installed zero liquid discharge systems comprising Effluent Treatment Plant (ETP) and a Sewage Treatment Plant (STP), which processes and treats our discharge and helps us in protecting the environment. We use the water treated by STP for gardening and other activities.

We manufacture, distribute, market and sell Rice Bran Oil under our brands “Tulsi” and “Sehat”.

Laws in relation to our business

The Food Safety and Standard Act, 2006 (“FSS Act”)

The FSS Act was enacted on August 23, 2006 with a view to consolidate the laws relating to food and to establish the Food Safety and Standards Authority of India (“FSSAI”), for laying down science-based standards for articles of food and to regulate their manufacture, storage, distribution, sale and import, to ensure availability of safe and wholesome food for human consumption and for matters connected therewith or incidental thereto. The FSS Act, among other things, also sets out requirements for licensing and registration of food businesses, general principles of food safety, and responsibilities of the food business operator and liability of manufacturers and sellers, and adjudication by Food Safety Appellate Tribunal.

For enforcement, under the FSS Act the ‘commissioner of food safety’, ‘food safety officer’ and ‘food analyst’ have been granted with detailed powers of seizure, sampling, taking extracts and analysis. Penalties are levied for various defaults such as for selling food not of the nature or substance or quality demanded, sub-standard food, misbranded food, misleading advertisement, food containing extraneous matter, for failure to comply with the directions of Food Safety officer, for unhygienic or unsanitary processing or manufacturing of food, for possessing adulterant. Apart from the penalties, there are punishments prescribed for selling, storing, distributing or importing unsafe food, for interfering with seized items, for providing false information, for obstructing or impersonating a Food Safety officer, for carrying out a business without a licence and for other subsequent offence.

The FSS Act also contains the provision for offences by the companies. Further, the Food Safety and Standards Rules, 2011 (“FSSR”) which have been operative since August 5, 2011, provide, among other things, the qualifications mandatory for the posts of the ‘commissioner of food safety’, ‘food safety officer’ and ‘food analyst’, and the procedure for taking extracts of documents, sampling and analysis.

In order to address certain specific aspects of the FSS act, the FSSAI has framed several regulations such as the following:

- (a) Food Safety and Standards (Licensing and Registration of Food Businesses) Regulations, 2011;
- (b) Food Safety and Standards (Packaging and Labelling) Regulations, 2011;
- (c) Food Safety and Standards (Food Product Standards and Food Additives) Regulations, 2011;
- (d) Food Safety and Standards (Prohibition and Restriction on Sales) Regulations, 2011;
- (e) Food Safety and Standards (Contaminates, Toxins and Residues) Regulations, 2011;
- (f) Food Safety and Standards (Laboratory and Sampling Analysis) Regulations, 2011; and
- (g) Food Safety and Standards (Health Supplements, Nutraceuticals, Food for Special Dietary Usage, Food for Special Medical Purpose, Functional and Novel Food) Regulations, 2016

The FSS Act also covers under its ambit foods for special dietary uses or functional foods or nutraceuticals or health supplements which is defined to mean as dietary substances which can be used by human beings to supplement their diet by increasing their total dietary intake. It also lists out certain ingredients that cannot be found in such nutraceuticals or health supplements and lays down that to be categorised as nutraceuticals or health supplements, the substance should not be represented as a conventional food. To further regulate nutraceuticals, the Food Safety and Standards (Health Supplements, Nutraceuticals, Food for Special Dietary Usage, Food for Special Medical Purpose, Functional and Novel Food) Regulations, 2016 (the “Nutraceutical Regulations”) have been brought into force on January 1, 2018. The Nutraceutical Regulations lay down general requirements that need to be met by companies producing such kinds of

food. The Nutraceutical Regulations specifically lays down that the quantity of nutrients added to the articles of food shall not exceed the recommended daily allowance as specified by the Indian Council of Medical Research. The Nutraceutical Regulations also lay down that the health claims in respect of an article of food shall be commensurate with the adequate level of documentation and valid proof made available for review by the Food Authority when called for. The Nutraceutical Regulations lays down the ways in which companies producing these kinds of food should label their packages and the kind of material that are prohibited from being used in their production. Import of foods, including Health Supplements and Nutraceuticals are subject to the FSS (Import) Regulations 2017. No person shall import any article of food without an import license from the Central Licensing Authority in accordance with the provisions of the Food Safety and Standards (Licensing and Registration of Food Businesses) Regulations 2011. The regulations largely define Nutraceuticals and Health Supplements in a similar manner.

The FSSAI has also issued a special guidance note on Food for Special Medical Purposes (FSMP). As per this guidance note an FSMP is a food which is intended to provide nutritional support to persons who suffer from specific disease, disorder or medical condition. FSMP's are to be used only under the guidance of medical advice and the same disclaimer should also be printed clearly on its package. The guidance note also provides a clear distinguish between the various categories of products covered under the Nutraceutical regulations.

The Guidance Note mandates strict adherence to General Hygiene Practices specified under Schedule 4 of Food Safety and Standards (Licensing and Registration of Food Businesses) Regulation, 2011 (“Schedule”)

The Schedule enumerates multiple compulsory measures to be adopted by food business operators in the interest of human nutrition, safety and hygiene. The Schedule mandates that the premises shall be clean, adequately lighted and ventilated, and sufficient free space for movement shall be made available. In relation to packaging of the products, it requires that the confectionary products should be wrapped/packaged only after proper cooling. No vessel, container or other equipment, the use of which is likely to cause metallic contamination injurious to health shall be employed in the preparation, packing or storage of food. The finished products should be refrigerated with proper labels indicating date of expiry. In relation to personal hygiene –all employees should wash their hands properly and they should be made aware of measures to avoid cross-contamination. Further, among other things, eating, chewing, smoking, spitting and nose blowing shall be prohibited within the premises especially while handling food, and persons suffering from infectious diseases shall not be permitted to work. Any cuts or wounds shall remain covered at all time and the person should not be allowed to come in direct contact with food.

Foreign Exchange Regulations

Foreign investment in Indian securities is governed by the provisions of the Foreign Exchange Management Act, 1999, as amended (“FEMA”) read with the applicable Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 as amended (“FEM Rules”). FEMA replaced the erstwhile Foreign Exchange Regulation Act, 1973. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the government approval route, depending upon the sector in which foreign investment is sought to be made. The DPIIT makes policy pronouncements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEM Rules. In case of any conflict, the FEM Rules prevail. Therefore, the regulatory framework, over a period of time consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT issued the FDI Policy which consolidates the policy framework on FDI issued by DPIIT, in force on October 15, 2020 and reflects the FDI policy as on October 15, 2020. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DPIIT. As per the FDI Policy, 100% FDI is permitted in our Company under the automatic route, subject to compliance with prescribed conditions. In this Issue, foreign investment is limited to investments by FPIs and NRIs. For further details, please see “*Issue Procedure*” on page 225.

Phased implementation of UPI

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of, among others, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. The board of directors of the SEBI, on June 28, 2023, have approved the proposal to reduce the time period for listing of equity shares pursuant to a public issue from six Working Days to three Working Days. The above timeline will be applicable on a voluntary basis for public issues opening on or after September 1, 2023 and on a mandatory basis for public issues opening on or after December 1, 2023. As of the date of this Draft Red Herring Prospectus, the SEBI has not issued any circulars or notifications in connection with the reduction in timeline for listing of equity shares pursuant to public issues.

Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the SEBI UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019, until March 31, 2019, or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: The Phase III shall commence voluntarily for all public issues opening on or after September 1, 2023 and shall be mandatory for all public issues opening on or after December 1, 2023 as per the SEBI Circular No. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. In this phase, the time duration from public issue closure to listing is reduced to three Working Days. Accordingly, we may need to make appropriate changes in the Red Herring Prospectus and the Prospectus depending upon the prevailing phase at the timing of the opening of the Issue.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint Sponsor Banks to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the FDI Policy of the Government of India and FEMA and the circulars and notifications issued thereunder. While the FDI Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”), formerly known as Department of Industrial Policy and Promotion issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Up to 100% foreign investment under the automatic route is currently permitted in the “Services” sector. For details, see “*Key Regulations and Policies*” on page 139.

Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government.
