An investment in our Equity Shares involves a certain degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares or the industry in which we operate. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our businesses, results of operations, financial condition and cash flows. If any of the following risks or other risks that are not currently known or are currently deemed immaterial actually occur, our businesses, results of operations, financial condition and cash flows could suffer, the trading price of our Equity Shares could decline, and you may lose all or part of your investment. Prospective investors should read this chapter in conjunction with “*Business Overview*”, “*Industry Overview*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 96, 88 and 178, respectively of, as well as the financial and other information contained in, this Draft Prospectus.

Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment which may differ in certain respects from that of other countries. This Draft Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus. For further details, please see the chapter titled “*Forward-Looking Statements*” beginning on page 13 of this Draft Prospectus.

Unless otherwise indicated or context requires otherwise, the financial information included herein is derived from our Restated Financial Statement for the nine months period ended December 31, 2023, financial year ended 2023, financial year ended 2022 & financial year ended 2021 included in this Draft Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this chapter. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue including the merits and risks involved. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may be having material impact in future.

INTERNAL RISK FACTORS

1. *Our Company does not own any manufacturing facility and we therefore depend on third-party manufacturers and therefore, we are subject to risks associated with the third-party manufacturing processes.*

We source paper from various third-party manufacturing units, situated across various states of India. We select our third-party manufacturer based on the quality, specification, quantity and price of the papers offered to us by such third-party manufacturers. We do not enter into third-party manufacturing agreements and orders are placed based on approval of sample from our customers and on purchase order basis. Further, we meet our supply requirements from dealers and distributors.

Further, we are subject to various risks associated with third-party manufacturing processes such as;

- Interruptions to the operations of third-party manufacturers due to strikes, lockouts, work stoppages or other forms of labour unrest, breakdown or failure of equipment as well as accidents;
- failure by our third-party manufacturers to maintain requisite licenses and approvals as also, to comply with applicable law and the directives of relevant governmental authorities;
- insufficient quality controls or failures in the quality controls of our third-party manufacturers;
- significant adverse changes in the financial or business conditions of our third-party manufacturers;
- performance by our third-party manufacturers below expected levels of output or efficiency;
- the possibility that our competitors will engage our third-party manufacturers, directly or indirectly, and thereby reduce the manufacturing capacity available to us;
- any inability on our part to renew arrangement with or find replacements for existing third-party manufacturers;

- ability to anticipate and respond to technological advances, new standards and changing consumer preferences; and
- sub-standard products impacting our production schedules or adversely impacting our relationships with key customers.

We cannot assure you that such incidents will not occur in the future or that we will be successful in continuing to receive uninterrupted supply of papers from our third-party manufacturer at prices acceptable to us, or at all. Any disruption or inefficiencies in the supply chain network may adversely affect our business and results of operations.

2. We are dependent on our Top 5 suppliers for uninterrupted supply of papers. Any disruption in supply of papers from these third-party manufacturers will adversely affect our operations.

We are highly dependent on the third-party manufacturers for supply of desired quality and quantity of papers. We procure the papers from various domestic manufacturers, depending upon the, quality, technical specification, time to delivery and price. However, our top 5 and top 10 suppliers contribute significantly to supply of the papers. While our company believes that we would not face difficulties in finding additional third-party manufacturers and suppliers of papers, any disruption of supply of papers from these suppliers or our procurement of papers at terms not favourable to us can adversely affect our operations and financial cost. The contributions of our top 5 and top 10 suppliers to our total supplies are as follows:

Particulars	For nine months period ended December 31, 2023	% to revenue from operations	Fiscals 2023	% to revenue from operations	Fiscals 2022	% to revenue from operations	Fiscals 2021	% to revenue from operations
Top 5	9531.93	71.97%	17,502.16	89.82%	11,897.77	94.17%	8,740.90	97.04%
Top 10	11,404.34	86.11%	18,543.96	95.17%	12421.69	98.31%	8,967.05	99.55%

There is over dependency on few suppliers. We cannot assure that we would be able to get the desired supply of papers, or any supply at all, from these suppliers, and any disruption in supply from one or more of them may adversely affect our revenues and profitability.

3. We are dependent on few customers. Any loss of business from one or more of them may adversely affect our revenues and profitability.

For the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021, our top 10 customers have contributed to 50.49%, 44.27%, 44.82% and 49.24%, respectively of our revenue from operation and our top 5 customers have contributed to 34.30%, 29.66%, 30.14% and 37.69%, respectively of our revenue from operation. We are significantly dependent on revenues from a limited number of customers and this trend may continue in the future. For the nine months period ended December 31, 2023, our top customer has contributed to 11.74% of our total sales. We believe we have maintained good and long-term relationships with our customers. However, there can be no assurance that we will continue to have such long-term relationship with them, also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. Our business and results of operations will be adversely affected if we are unable to develop and maintain a continuing relationship with certain of our key customers or develop and maintain relationships with other new customers. The loss of a significant customer or a number of significant customers may have a material adverse effect on our business prospects and results of operations.

One of our major customers contributes around 11.74% of our revenue from operations for the nine months period ended December 31, 2023. Any future disruption may lead to significant decline in the revenue and profit of our company. There is over dependency on a single customer. We cannot assure that we shall generate the same quantum of business, or any business at all, from this customer, and loss of business from one or more of them may adversely affect our revenues and profitability.

4. Our Company, its Directors and its Promoters are party to certain litigation and claims. These legal proceedings are pending at different levels of adjudication before various forums and regulatory authorities. Any adverse decision may make us liable to liabilities/penalties and may adversely affect our reputation, business and financial status.

Our Company, its Directors and its Promoters are currently involved in legal proceedings in India which are pending at different levels of adjudication before the concerned authority. We cannot assure you that these proceedings will be decided in favour of our Company, its Directors and its Promoters, as the case may be. Any adverse decision in

such proceedings may render us liable to penalties and may have a material adverse effect on the financials and reputation of our Company, its Directors or its Promoters which may in turn have an adverse effect on our business. Additionally, during the course of our business we are subject to risk of litigation in relation to contractual obligations, employment and labour law related, personal injury, damage to property, etc.

A classification of these outstanding proceedings is given in the following table:

We may be required to devote management and financial resources in the defence or prosecution of such legal proceedings. Should any new developments arise, including a change in Indian laws or rulings against us by the appellate courts or tribunals, we may face losses and we may have to make further provisions in our financial statements, which could increase our expenses and our liabilities. Decisions in such proceedings, adverse to our interests, may have a material adverse effect on our business, cash flows, financial condition, and results of operations. Failure to successfully defend these or other claims, or if our current provisions prove to be inadequate, our business and results of operations could be adversely affected. Even if we are successful in defending such cases, we will be subject to legal and other costs relating to defending such litigation, and such costs could be substantial. In addition, we cannot assure you that similar proceedings will not be initiated in the future. Any adverse order or direction in these cases by the concerned authorities, even though not quantifiable, may have an adverse effect on our reputation, brand, business, results of operations and financial condition. For further details, please refer to "*Outstanding Litigation and Material Developments*" on page 196.

5. Trade Receivables form a substantial part of our current assets and net worth. Failure to manage our trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.

Our business is working capital intensive and hence, trade receivables form substantial part of our current assets and net worth. Our, Trade Receivables as on December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 were ₹4,520.41 lakhs, ₹3,377.30 lakhs, ₹2,209.91 lakhs and ₹1,431.53 lakhs, respectively. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

6. Our lenders have created charge over the assets of the Company in respect of borrowings that have been availed by us.

We have provided security in respect of borrowings/facilities availed by us from banks by creating charge over immovable and movable properties. The amount outstanding and payable by us as a secured borrowing (fund based as well as non-fund based) were ₹ 2,564.47 lakhs as on December 31, 2023. In case we are not able to repay our loans in time, the same may amount to a default under the loan documentation and all the penal and termination provisions therein would get triggered and the loans granted to the Company may be recalled with penal interest. This could severely affect our operations and financial condition. In addition to the above, our loan documentation includes certain conditions and covenants that require us to obtain consents from the lender bank prior to carrying out certain activities like changing shareholding/ directorship/ ownership, incurring additional indebtedness and creating any encumbrances on its assets. The lender also has the right to revoke the credit facilities at any time. Any failure to comply with any condition or covenant under our loan agreement that is not waived by the lending bank or is not otherwise cured by us, may lead to a termination of our credit facilities, acceleration of all amounts due under the said credit facilities, which may adversely affect our ability to conduct our business and operations or implement our business plans. Further, the said credit facilities can be renewed/ enhanced/ cancelled/ suspended/ reduced and the terms and conditions of the same can be altered by the lender, at their discretion. In the event, the lending bank refuse to renew/ enhance the credit facilities and/or cancel/ suspend/ reduce the said credit facilities and/or alter the terms and conditions to our derogation, then our existing operations as well as our future business prospects and financial condition may be severely affected.

For further details of secured loans of our Company, please see “*Financial Indebtedness*” and “*Financial Statements*” on pages 194 and 139.

7. ***Our Company has reported negative cash flow in the recent past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

Our Company has experienced negative net cash flow from operating and investing activities in the past, the details of which are provided below:

(₹ in lakhs)

Particulars	For nine months period ended December 31, 2023	Fiscals 2023	Fiscals 2022	Fiscals 2021
Net cash generated from/ (used in) Operating Activities	(346.85)	(332.12)	105.79	98.63

Net Cash (Used in) / Generated from Financing Activities	492.71	605.92	92.01	(86.09)

If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial condition. For further details, please see “*Financial Statements*” on page 139.

8. ***Our financing agreements contain certain restrictive covenants which may affect our financial and operational flexibility. In the event of breach of any covenants in our financing agreements, our lenders may take any action in connection with such breaches which may have a material adverse effect on our business, results of operation, financial condition and prospects.***

Our Company has entered into borrowing facilities with varying terms and tenures from the lenders. Our financing arrangements include conditions and covenants that require us to obtain consent from such lenders’ prior to carrying out certain activities and entering into certain transactions including change in capital structure. Some of the covenants include, effect any change in the capital structure, implement any scheme of expansion/modernization/diversification/renovation or acquire any fixed assets, formulate any scheme of amalgamation or reconstruction, enter into borrowing arrangements with other bank, undertaking guarantee obligations, declaring dividends except out of profits relating to that year, any change in their management setup and creation of any further charge, for which we have to obtain consent from the lenders.

9. ***We are dependent on our key managerial personnel, management team and other key employees, the loss of, or our inability to attract or retain, such persons could adversely affect our business, result of operations, financial condition, and cashflows.***

Our performance depends largely on the efforts and abilities of our key managerial personnel, management team and other key employees. We believe that the inputs and experience of our key managerial personnel, management team and other key employees are valuable for the development of our business and operations and the strategic directions taken by our Company. There is no assurance that these individuals or any other member of our key managerial personnel, management team or key other employees will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of

time to hire and train replacement personnel. We may also require to increase our levels of employee compensation more rapidly as compared to past in order to remain competitive in attracting employees. The loss of the services of such persons may have an adverse effect on our business, result of operations, financial condition, and cash flows.

10. *We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.*

We have not executed any long-term contracts with our customers. Our sales are based on purchase orders that are placed by our customers depending on their requirements. In the absence of long-term contracts, there can be no assurance that a particular customer would continue to source their supplies from us in the future. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. A reduction in the purchase orders placed by the customers may adversely affect our business and revenues and may require us to shift to different markets and/or look for alternative buyers. Further, any loss of our major customers arising out of competition or from cheaper sources can lead to reduced margins and our result and operations may be affected.

11. *Cyclical demand of paper could have adverse impact on Sales*

The paper industry is cyclical in nature and its performance depends on the global pulp and paper demand-supply situation. As long as the increase in supply matches the growth in demand and the economy continue to grow, the prices remain firm. However, as and when the demand reduces, creating cut throat competition among the manufacturers due to excess supply and forcing them to reduce the prices. Once the down cycle is over and the economy starts recovering, the demand surges and due to lesser supply available the prices again show upward movement. Our Company is deriving majority of its revenue, from the sale of paper. The reduction in sale prices will have adverse impact on the working of our Company. The cyclicity of the business could depress margins or growth, as the case may be, especially if our Company cannot rationalize costs in the downtrend or add scale or value-enhancing products during the uptrend.

12. *We require certain approvals, licenses, registration and permits for our business, and the failure to obtain or renew them in a timely manner may adversely affect our operations.*

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. If we are unable to renew any of the approvals, licenses, registrations and permits in a timely manner, it will damage our business prospects.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, see "**Government and Other Approvals**" on page 199.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

13. *We are dependent on third party transportation providers for the supply of products.*

As a supply chain solution provider, our success depends on the smooth supply and transportation of the various products as per the requirement of our customers which is subject to various uncertainties and risks. We rely on third parties to supply us with the products to our customers warehouse, factory or that of our godown. Our ability to procure supplies in a cost effective and timely manner is subject to various factors, some of which are not within our control. While we manage our supply chain as part of our management process, any significant problems with our supply. Though, our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. Further, disruptions of transportation due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could have a negative financial impact on our suppliers in turn impairing timely availability of products to us on time or increasing the costs of the products. Any such disruptions or failure to maintain continuous supply of products could materially and adversely affect our business, financial condition and results of operations.

14. *There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956/ 2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent.*

Our Company has not complied with certain statutory provisions in the past including but not limited to the following:

Form name	Error/ Discrepancy	Remarks
Form 32	Incomplete attachment	Consent to act as Director not attached
DIR 12- Change in designation of Alok Parekh	Late filing of form and consent not in Dir-2	Appointed as Chairman and MD on May 15, 2023, filed Dir -12 on July 13, 2023 and consent not as per DIR-2 format

MGT 7 2017-18	Incomplete attachment and late filing	List of shareholders is not on letterhead and MGT 7 filed on February 07, 2019

Any penalty or action taken by any regulatory authority in future for non-compliance with provisions of corporate and other laws could impact financial position of the company to that extent.

15. *Fluctuating prices of papers may affect our operations.*

We procure majority of our materials based on the specific requirements of our customers based on the existing market rates. We are subject to time gap between the date of sample testing to the date of actual delivery of products. Further, in certain instances our supplier follows minimum order quantity condition which may require us to buy the paper more than the demand in hand. The prices of these materials are subject to rapid fluctuations owing to changes in demand-supply forces which are not within our control. Increase in prices, by our suppliers (including our group entity) shall lead to an increase in cost of the final product. Further, while we may be able to pass such increase in cost to our customers there cannot be any assurance that our customer will accept such price escalation at all or that they may not cancel the order. Since, we procure material based on specific requirements of our customers, we cannot be certain that we may find alternate buyer for the products. This would have an adverse impact on our business, financial conditions and results of operations.

16. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have in the past entered into transactions with some of our Promoters, relatives of our Promoters, Directors, and enterprises over which our Directors have a significant influence. While all such transactions have been conducted on an arm's length basis and are in compliance with the Companies Act, 2013 and rules made thereunder, SEBI Listing Regulations, relevant Accounting Standards and other statutory compliances, we cannot assure you that we might have obtained more favourable terms had such transactions been entered into with unrelated parties. Further, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, results of operations, financial condition, and cash flows. In the event any conflict of interest arises between us, or to the extent that competing products offered by any of our related parties erode our market share, we may not be able to effectively manage any such conflict or competitive pressures and, consequently, our business, results of operation and financial condition may be adversely affected. For further information on related party transaction, please see "**Financial Statements**" on page 139.

17. *Our Company's purchases and sales to our related parties are significant*

Our Company purchased almost 3.90% and 0.13% of its total material purchases for the nine months period ended December 31, 2023 and Fiscal 2021 respectively from M/s. Sunrise International, a partnership firm concern of our

Promoters namely, Alok Parekh, Ronak Parekh, Sayali Parekh and Neha Parekh. Further, as much as 11.74% and 3.57%, respectively, of its total sales for the nine months period ended December 31, 2023 and Fiscal 2023, respectively is also sold to Sunrise International. While we believe that all such transactions have been conducted on the arm's length basis, there can be no assurance that we could not have been achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For further information on related party transaction, please see "*Financial Statements*" on page 139.

- 18. *Our Funding requirements and the proposed deployment of the Net Proceeds are based on management estimates and have not been appraised by any independent agency and may be subject to change based on various factors, some of which are beyond our control.***

We intend to use the Net Proceeds for the purposes described in "*Objects of the Issue*" on page 69. Our funding requirements are based on internal management estimates and our current business plans and have not been appraised by any bank or financial institution. This is based on current conditions and is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies. We may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control. We may have to revise funding requirements due to reasons which may not be within the control of our management. In the event of an increase in expenditure and increased fund requirements, we will seek to meet these increased requirements by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If such surplus funds are unavailable, we will seek to meet these increased requirements through our internal accruals and additional debt. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee.

Accordingly, prospective investors in the Issue will need to rely upon our management's judgement with respect to the use of proceeds. If we are unable to deploy the proceeds of the Issue in a timely or an efficient manner, it may affect our business and results of operations.

- 19. *Our business prospects and continued growth depends on our ability to access financing at competitive rates and competitive terms. We may not be able to avail the requisite amount of financing or obtain financing at competitive interest rates for our growth plans, in the future, or any increase in interest rates which could have a material adverse effect on our business, results of operations and financial condition.***

Our business depends on our ability to obtain funds at competitive rates. Our secured borrowings have been availed at floating rate of interest. Any fluctuation in interest rates may directly impact the interest costs of such loans and could adversely affect our result of operations. A material portion of our expected cash flow may be required to be dedicated for payment of interest on our indebtedness which will also reduce the funds available to us for use in general business operations. The cost and availability of funds, amongst other factors, are also dependent on our current and future results of operations and financial condition and our ability to effectively manage risks. We may not be able to avail the requisite amount of financing or obtain financing at competitive interest rates if we fail to have favourable results of operations which could lead to high borrowing costs and limit our access to lending markets, as a result, could adversely affect our business.

- 20. *We have issued Equity Shares during the preceding twelve months at a price which may be below the Offer Price.***

We have issued and allotted Equity Shares at a price which may be lower than the Offer Price in the period of 12 months preceding the date of Draft Prospectus. For further details, see "*Capital Structure - History of Issued and Paid-Up Share Capital of our Company*" on page 57.

The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.

The Issue Price of the Equity Shares will be determined by our Company in consultation with the and the Lead Manager, and through Fixed Price Process. This price will be based on numerous factors, as described under "*Basis of Issue Price*" beginning on page 77 of this Draft Prospectus and may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Issue Price

- 21. *We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures could have a material adverse effect on our business growth and prospects, financial condition, and results of operations.***

We face huge competition in our industry from the existing players and new entrants. As paper making business is easy to start with, person or organization who is capable of investment in large projects, can easily enter into the market and compete with the business of our Company. Further, we also face competition from dealers and distributors who may have better arrangement with the paper mills. If there is a change in trends and availability of products with cheaper price from existing players, our customers are able to establish a relationship directly with our suppliers, it may pressurize us on pricing without compromising product quality which may put strain on our profit margins.

- 22. *Any adverse events in the industries which we cater to could have a material impact on the performance of our Company.***

We cater primarily to paper product manufacturing industries where paper such as, coating based paper, food grade paper, machine glazed paper, pressure sensitive adhesive paper, forms a major part of their raw materials. The paper products manufactured by our customers have a variety of end use applications and are used in industry such as FMCG, textiles, heat sensitive printers like ATM and POS Paper, restaurants, food and beverages industry automobiles, e-commerce, pharmaceuticals, white goods packaging industry, security labels, advertising industries, educational sector, utensils industry, commercial printing industry, publication industry, other packaging items for industrial and household purpose, paper bags, etc. which require us to source customised products without compromising quality standards. An introduction of regulations that may restrict companies from using paper products or availability of alternative product or reduction in demand of our products in the industry to which our end customer belong could result in a decrease in demand and materially adversely affect our business, financial condition and results of operations. For instance, we have witnessed a drop in paper bag demands and straws in the past with plastic as a cheaper and faster alternative.

- 23. *Our insurance coverage may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.***

We are adequately insured against losses and risks involving our assets including stocks. For our operations, we have obtained Bharat Griha Raksha Policy, New India Bharat Sookshma Udyam Suraksha Policy and Business credit shield policy from The New India Assurance Co. Ltd. that provides insurance cover of assets including stocks, fire risk policy for stocks and godown, loss on theft, natural calamities etc. Notwithstanding the insurance coverage that we carry, we may not be fully insured against some business risks and the occurrence of an event that causes losses in excess of limits specified under the relevant policy, or losses arising from events not covered by insurance policies, could adversely affect our business, results of operations and financial condition. If we are subject to litigation or claims or our operations are interrupted for a sustained period, the insurance policies may not be found to be adequate to cover the losses that may be incurred as a result of such interruption. If we suffer large uninsured losses or if any insured losses suffered by us significantly exceed our insurance coverage or our insurance claim is rejected, it may adversely affect our business, results of operations and financial condition.

- 24. *Certain Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.***

As on December 31, 2023, our Promoters and Promoter Group holds 100.00% of the Equity Share capital of our Company and are interested in our Company, in addition to regular remuneration or benefits, to the extent of their shareholding in our Company. Our Promoters may exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may not be able to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders.

For further details, see "*Capital Structure*" and "*Financial Statements*" on pages 57 and 139, respectively.

- 25. *We have high working capital requirements for our business operations. In case of our inability to obtain the requisite additional working capital facilities from the proposed IPO proceeds, our internal accruals/cash flows would be adversely affected, and consequently our operations, revenue and profitability.***

Our business requires a substantial amount of working capital for our business operations. Our net working capital as a percentage of revenue from operations for the nine months period ended December 31, 2023, Fiscal 2023, Fiscal 2022 and Fiscal 2021 is ₹3752.60 lakhs, ₹2840.97 lakhs, ₹1827.93 lakhs and ₹1,597.23 lakhs. We would require additional working capital facilities in the future to satisfy our working capital need which is proposed to be met through the IPO proceeds. In case of our inability to obtain the requisite additional working capital finance, our

internal accruals/cash flows would be adversely affected to that extent, and consequently affect our operations, revenue and profitability.

- 26. *Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend upon a variety of factors such as future earnings, financial condition, cash flows, working capital requirements, and restrictive covenants in our financing arrangements.***

Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover our operating expenses and pay dividends to our shareholders, or at all. Our ability to pay dividends could also be restricted under the existing or certain financing arrangements that we may enter into. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

- 27. *Our Promoters and Directors has provided personal guarantees to the loan facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or terminations of the facilities.***

Our Promoters and Directors has provided personal guarantees in relation to the loan facilities availed by us. In the event that any of these guarantees are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees satisfactorily to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition.

- 28. *The deployment of funds raised through this Issue shall not be subject to monitoring by any monitoring agency and shall be purely dependent on the discretion of the management of our Company.***

Since the size of the Issue is less than ₹10,000 lakhs, no monitoring agency is required to be appointed by our Company to oversee the deployment funds raised through this Issue. The deployment of funds raised through this Issue is at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. The Board of Directors of our Company through Audit Committee will monitor the utilization of the Issue proceeds. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our business and financial condition.

- 29. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.***

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customers' discretion or problems we encounter in the delivery of such products or any change in priority to meet our order at our supplier's side or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment default with regard to the orders placed with us, or disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income.

Further, we operate in highly competitive markets in relation to our products where it is difficult to predict whether and when we will receive such awards. As a result, our results of operations can fluctuate from quarter to quarter and year to year depending on whether and when such orders are awarded to us and the commencement and progress of work under the orders placed.

- 30. *Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholder's approval.***

We propose to utilise the Net Proceeds for meeting our working capital purposes. For further details of the proposed objects of the Issue, please see "*Objects of the Issue*" on page 69. In case of any exigencies arising out of business conditions, economic conditions, competition or other factors beyond our control which adversely affect our business,

we may require to use the Net Proceeds to meet any other expenditure which cannot be determined with certainty as on the date of this Draft Prospectus. In terms of the SEBI ICDR Regulations and the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds or in the terms of any contract as disclosed in this Draft Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances requiring us to undertake variation in the utilisation of the Net Proceeds disclosed in this Draft Prospectus, we cannot assure that we will be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in the Draft Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

31. *Certain of our properties are not owned by us, but taken on leave and license basis.*

Except two properties owned by our Company, our Company has taken on leave and licence basis its Registered office situated at Shop no. 5, Plot no.136, N-1, Masco Corner Api Road, Cidco, Aurangabad, Maharashtra, India, 431003 and also various godowns which is used by the Company to store its stock. The registered office is taken on leave and license basis from one of our promoters, Hasumati Navneetdas Parekh. Further, our Company has taken certain properties on leave and license basis from third parties for use as godown. For details, please see "**Business Overview - Properties**" on page 96. Upon expiration of the leave and license/ lease agreements for each of our premises, we will be required to negotiate the terms and conditions. Our leave and license/ lease agreements are renewable on mutually acceptable terms and upon payment of such rent escalations as stated in the agreements. Any delay or non-payment of rent may result in vacation of the property. There can be no assurance that the term of the agreements will be renewed and in the event the Licensor terminates or does not renew the agreements on commercially acceptable terms, or at all, and we are required to vacate the said property, we may be required to identify alternative premises and enter into fresh leave and license agreement. Such a situation could result in loss of business, time overruns and may adversely affect our operations and profitability. Also, in future, if any dispute arises due to default of terms and conditions in the said leave and license agreements by our Company, it will be resulting in cancellation of license and/or if the said license is cancelled or period of the said license is not extended/renewed in future, it may cause disruptions and will adversely affect our business and results of operation. For further details, please see "**Business Overview**" on page 96.

32. *The leave and license agreements with respect to our registered office premises are yet to be properly stamped and registered as per statutory requirement.*

Our Company has taken its registered office premises on leave and license basis. However, stamp duty on the said leave and license agreements has not been properly paid yet as required under Indian Stamp Act, 1899 or Bombay Stamp Act, 1958, as applicable. Further, the said leave and license agreements, as per Registration Act, 1908, have not been registered yet. According to Section 17 read with section 49 of the said Registration Act, 1908, the effect of such non-registration is that (i) it does not affect any immovable property comprised therein (ii) it cannot be received as evidence of any transaction affecting such property. Thus, continuing failure to register the said agreements may make it redundant and any future enforcement of the same may expose our Company to risk comprised therein, which may adversely affect our business operations and financial conditions.

33. *None of our Independent Directors have experience of being a Director of a public limited company.*

Our Independent Directors do not have the experience of being directors/ holding directorships of public listed companies. Accordingly, they have limited exposure as regards managing the affairs of a listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company.

As a listed company, our Company will be required to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. Our Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited quarterly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy the reporting obligations. Further, as a publicly listed company, our Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our Company's disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of our Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition.

- 34. One of our Promoter Group Entity is engaged in similar line of business, which may create a conflict of interest. Further, we do not enjoy contractual protection by way of a non-compete or other agreement or arrangement with our Promoter Group Entity.**

One of our Promoter Group entities namely M/s. Sunrise International, a Partnership firm of our promoters namely, Alok Parekh, Ronak Parekh, Sayali Parekh and Neha Parekh, is involved in similar line of business as that of our Company i.e. supply of papers. The said entity is likely to expand their business similar to that of our Company. As on date, our Company has not signed any non-compete or such other agreement / document with our Promoter Group Entity. Our Promoter Group Entity may expand their business in the future that may compete with us. The interests of the Promoter Group Entity may conflict with our Company's interests and / or with each other. For further details, please see "*Our Promoters and Promoter Group*", on page 130 and '*Restated Financial Statements*' on page 139.

- 35. Our growth strategy to expand into new geographic areas poses risks. We may not be able to successfully manage some or all of such risks, which may have a material adverse effect on our revenues, profits and financial condition.**

Our majority of revenue from operations comes from our customers situated within the state of Maharashtra, Gujarat and Madhya Pradesh. Our business is therefore significantly dependent on the general economic condition and activity in the states in which we operate, and the central, state and local Government policies relating to our industry. Although investment in the industry in the areas in which we operate has been encouraged, there can be no assurance that this will continue. We may expand geographically, and may not gain acceptance or be able to take advantage of any expansion opportunities outside our current markets. This may place us at a competitive disadvantage and limit our growth opportunities. We may face additional risks if we undertake operations in other geographic areas in which we do not possess the same level of familiarity as competitors. If we undertake operations of different product than those currently is; we may be affected by various factors, including but not limited to: identifying supplier that can meet our product requirements, including timely delivery; obtaining the necessary materials and labour in sufficient amounts and on acceptable terms; obtaining necessary Government and other approvals in time or at all; failure to realize expected synergies and cost savings; attracting potential customers in a market in which we do not have significant experience; and cost of hiring new employees and absorbing increased costs.

- 36. Our Company has availed unsecured borrowings from our Promoters and members of the promoter group, which may be recalled by them at any time.**

As on December 31, 2023, we have availed unsecured borrowings from Hasumati Harish Parekh (Promoter), Hasumati Navneetdas Parekh (Promoter), Neha Parekh (Promoter), Amit Parekh (Promoter group), Maheshchandra Parekh (Promoter group), Snehlata Nagar (Promoter group), Navneetdas Vallabhdas Parekh HUF (Promoter group entity), Alok Navneetdas Parekh HUF (Promoter group entity), Harish Dwarkadas Parekh HUF (Promoter group entity) and Ronak Harish Parekh HUF (Promoter group entity) to the tune of ₹18.75 Lakhs, ₹ 18.25 Lakhs, ₹ 36.00 Lakhs, ₹ 8.50 Lakhs, ₹ 15.00 Lakhs, ₹ 30.00 Lakhs, ₹ 10.75 Lakhs, ₹ 5.25 Lakhs, ₹ 42.50 Lakhs, ₹ 32.50 respectively. In the event that the lenders seek repayment/ redemption of such unsecured borrowings, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all and therefore such recall may adversely affect our business, cash flows and financial condition. While we have not faced any such instances where unsecured borrowings were recalled/ redeemed by lenders in the nine months ended December 31, 2023 and FYs 2022-23, 2021-22 and 2020-21, there is no assurance that this would not occur in the future.

- 37. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects of this Issue, which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the objects of the Issue as has been stated in the chapter "*Objects of the Issue*" on page 69. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may face time and cost overruns and this may affect our revenues and results of operations.

- 38. We have not made any alternate arrangements for meeting our working capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.**

As on date, we have not made any alternate arrangements for meeting our working capital requirements for the Objects of the Issue. We meet our capital requirements through our owned funds, internal accruals and debt. Any shortfall in our net owned funds, internal accruals and our inability to raise debt would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please see "*Objects of the Issue*" on page 69.

- 39. *We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Further, we cannot assure you that for the financing secured by us, we will be able to continue servicing the principal amount, interest or both.***

We may require additional funds in connection with future business expansion and development initiatives. In addition to the Issue proceeds and our internally generated cash flow, we may need additional sources of funding to meet these requirements, which may include entering into new debt facilities with lending institutions or raising additional funds in the capital markets. If we decide to raise additional funds through the incurrence of debt, our interest obligations will arise, and we may be subject to bank covenants. Such financings could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of any of our business development plans and this may affect our business and future results of operations.

- 40. *We may not be able to sustain effective implementation of our business and growth strategies.***

The success of our business will depend greatly on our ability to effectively implement our business and growth strategies. We may not be able to execute our strategies in the future. Further, our growth strategies could place significant demand on our management team and other resources and would require us to continuously develop and improve our operational, financial and other controls, none of which can be assured. Any failure on our part to scale up our infrastructure and management could cause disruptions to our business and could be detrimental to our long-term business outlook.

- 41. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.***

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

- 42. *We may decide not to proceed with the Issue at any time before Allotment. If we decide not to proceed with the Issue after the Issue Opening Date but before Allotment, the refund of Application amounts deposited will be subject to us complying with our obligations under applicable laws.***

We, in consultation with the Lead Manager, with the Issue at any time before the Allotment. If we withdraw the Issue after the Issue Opening Date, we will be required to refund all Application amounts deposited within two (2) days of the Issue Closing Date. We shall be required to pay interest at the rate of 15% per annum on the Application amounts received if refund orders are not dispatched beyond two (2) days after the Issuer becomes liable to pay the amount. Notwithstanding the foregoing, the Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchange, which the Company shall apply for after Allotment. There is no assurance that our Company will receive necessary approval from the Stock Exchange.

- 43. *If there is any future issue of Equity Shares it may dilute your shareholding and sale of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.***

Any future equity issues by us, including a primary offering, may lead to the dilution of investors' shareholdings in the Company. Any future equity issuances by us or sale of Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

- 44. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.***

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

- 45. *There are certain restrictions on daily movements in the price of the Equity Shares, which may adversely affect shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Subsequent to the Issue, we will be subject to a daily “circuit breaker” imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of imposing circuit limit, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

46. *The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price as decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please see “*Capital Structure*” on page 57.

47. *Certain data mentioned in this Draft Prospectus has not been independently verified.*

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

48. *Our future success will depend on our ability to anticipate and respond to technological advances, new standards and changing consumer preferences.*

Our success will depend on our ability to anticipate technological advances, new standards and changing consumer preferences and identify new products to meet consumer needs. There is a significant shift towards the recyclable products driven by the Governments’ drive to reduce carbon emission. In several categories, products which are more energy efficient and are possible to recycle or made out of recycled material are being promoted and preferred. Our future success depends on our third-party manufacturer’s ability to keep up with the continuing evolution of technology to capture the growing market opportunity. The development and introduction of new products may result in additional product introduction expenses, including identifying new source of suppliers.

49. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

50. *Certain Agreements /deeds may be in the previous name of the Company.*

Our certain agreements and deeds may be in the name of the erstwhile name of the company i.e. Shreenath Paper Products Private Limited. While our Company has initiated steps to update the records, there can be instances where our Company is unable to get the records updated. While our Company may not have significant challenge in running its operations pending such update of records, we cannot assure you that we may not be subject to regulatory questions or that we may have to spend significant time and effort to update the records. This may impact our financial position and result of operations.

51. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

52. *Our Promoters - Alok Parekh, Ronak Parekh, Key Managerial Personnel - Navneetdas Parekh and Senior Management - Harish Parekh, by virtue of their positions have the power to influence decisions pertaining to the Company.*

Our Promoters - Alok Parekh, Ronak Parekh, Key Managerial Personnel - Navneetdas Parekh and Senior Management - Harish Parekh are related to each other. For further details, please see “*Our Management-Relationship between our Directors, Key Managerial Personnel or Senior Management*” on page 116. Further, they hold Equity Shares in the Company. For further details, please see “*Our Management-Shareholding of our Directors in our Company*” and “*Our Management- Shareholding of our Key Managerial Personnel and Senior Management of our Company*” on page 116. By virtue of their positions and shareholding in our Company, the said persons have the power to control management and policy decisions in concert, which may or may not be in the interests of our Company. While two (2) Independent Directors have been appointed on our Board to mitigate the said risk, there can be no assurance that the Promoters, Key Managerial Personnel and Senior Management act in the best interests of our Company.

53. *Our Company has applied for registration of the trademarks in its name. Until such registration is granted, we may not be able to prevent unauthorised use of such trademarks by third parties, which may lead to the dilution of our goodwill*

Our Company has made applications under class 16 and 35 for registration of our logo “” under the Trade Mark Act, 1999. Our application under class 16 is objected and our application under class 35 is accepted and advertised as on date. There can be no assurance that we will be able to get these objections removed and the respective trademark applications registered.

Pending the registration of these trademarks, any other vendor in the similar line of business as ours may use the above-mentioned trademarks and we may have a lesser recourse to initiate legal proceedings to protect our intellectual property. Further, our applications for the registration of certain trademarks may be opposed by third parties, and we may have to incur significant cost in relation to these oppositions. In the event we are not able to obtain registrations due to opposition by third parties or if any injunctive or other adverse order is issued against us in respect of any of our trademarks for which we have applied for registration, we may not be able to use such trademarks and / or avail the legal protection or prevent unauthorized use of such trademarks by third parties, which may adversely affect our goodwill and business. For further details see “*Business Overview - Intellectual Property*” and “*Government and Other Approvals*” on pages 96 and 199, respectively.

For further details please see “*Government and Other Approvals*” beginning on page 199.

EXTERNAL RISK FACTORS

54. *Our customers may engage in certain transactions in or with countries or persons that are subject to U.S. and other sanctions.*

U.S. law generally prohibits U.S. persons from directly or indirectly investing or otherwise doing business in or with certain countries that are the subject of comprehensive sanctions and with certain persons or businesses that have been specially designated by the OFAC or other U.S. government agencies. Other governments and international or regional organizations also administer similar economic sanctions. We provide services to our customers, who may be doing business with, or located in, countries to which certain OFAC-administered and other sanctions apply. Although we believe we have compliance systems in place that are sufficient to block prohibited transactions, there can be no assurance that we will be able to fully monitor all of our transactions for any potential violation. Although we do not believe that we are in violation of any applicable sanctions, if it were determined that transactions in which we participate violate U.S. or other sanctions, we could be subject to U.S. or other penalties, and our reputation and future business prospects in the United States or with U.S. persons, or in other jurisdictions, could be adversely affected. We rely on our staff to be up-to-date and aware of the latest sanctions in place. Further, investors in the Equity Shares could incur reputational or other risks as the result of our customers’ dealings in or with countries or with persons that are the subject of U.S. sanctions

55. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

The recent outbreak of Novel Coronavirus, Russia -Ukraine war and the ongoing Israel-Gaza conflict has significantly affected financial markets around the world. Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict

our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

56. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

57. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

58. *If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business and results of operations.*

Having our business operations in multiple jurisdictions, we are subject to varying central and state tax regimes. The applicable categories of taxes and tax rates also vary significantly from jurisdiction to jurisdiction, which may be amended from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each country as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned, and expenditure incurred. Our business and financial performance may be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business or the regulator enforcing them in any one of those countries may adversely affect our results of operations.

To the extent that we are entitled to certain tax benefits in India which are available for a limited period of time, our profitability will be affected if such benefits will no longer be available, or are reduced or withdrawn prematurely or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event, we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits. Please see "**Statement of Possible Tax Benefits**" beginning on page 83 of this Draft Prospectus for details in relation to possible tax benefits available to our Company. In the event that any adverse development in the law or the manner of its implementation affects our ability to benefit from these tax incentives, our business, results of operations, financial condition and prospects may be adversely affected.

Changes in the operating environment, including changes in tax law, could impact the determination of our tax liabilities for any given tax year. Taxes and other levies imposed by the Government of India that affect our industry include income tax, goods and services tax and other taxes, duties or surcharges introduced from time to time. The tax scheme in India is extensive and subject to change from time to time and any adverse changes in any of the taxes levied by the Government of India may adversely affect our competitive position and profitability. We cannot assure you that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the countries in which we operate may materially and adversely affect our business, results of operations and financial condition. In addition, we may have to incur expenditure to comply with the requirements of any new regulations, which may also materially harm our results of operations. We are also subject to these risks in all our overseas operations depending on each specific country. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities. As a result, any such changes or interpretations may adversely affect our business, financial condition and financial performance. Further, changes in capital gains tax or tax on capital market transactions or sale of shares may affect investor returns.

59. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

60. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

61. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

62. *The ability of Indian companies to raise foreign capital may be constrained by Indian law.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

63. *If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate thereby reducing our margins.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased wages and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our customers, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or entirely offset any increases in costs with increases in the subscription price for our platform. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the Government has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

64. *Companies in India are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assessee in India will be required to follow the Income Computation and Disclosure Standards.*

The Ministry of Corporate Affairs ("MCA"), Government of India, has through notification dated February 16, 2015 issued the Indian Accounting Standards Rules, 2015 ("Ind AS") which have come into effect from April 1, 2015 and are applicable to companies which fulfill certain conditions. Further, there can be no assurance that the adoption of Ind AS will not affect our reported results of operations or financial condition. Any of these factors relating to the use of Ind AS may adversely affect our financial condition and results of operations.

Further, the Ministry of Finance, Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for computation of taxable income. The ICDS shall apply from the assessment year 2017-2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the

computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

65. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy may be influenced by economic and market conditions in other countries, including conditions in the United States, Europe and Asia. In particular, the ongoing military conflicts between Russia and Ukraine could result in increased volatility in, or damage to, the worldwide financial markets and economy. Increased economic volatility and trade restrictions could result in increased volatility in the markets for certain securities and commodities and may cause inflation. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Recently, the currencies of a few Asian countries including India suffered depreciation against the US Dollar owing to amongst other, the announcement by the US government that it may consider reducing its quantitative easing measures.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

66. *We may be affected by competition laws, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended ("Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India ("AAEC"). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. However, since we pursue an acquisition driven growth strategy, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects.

ISSUE RELATED RISKS

67. *An investment in the Equity Shares is subject to general risk related to investments in Indian Companies.*

Our Company is incorporated in India and all of our assets and employees are located in India. Consequently, our business, results of operations, financial condition and the market price of the Equity Shares will be affected by changes in interest rates in India, policies of the Government of India, including taxation policies along with policies relating to industry, political, social and economic developments affecting India.

68. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results

69. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.*

The Issue Price of the Equity Shares will be determined by our Company in consultation with Lead Manager, and through the Fixed Issue Process. This price will be based on numerous factors, as described under the chapter titled “*Basis of Issue Price*” on page 77 and may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Issue Price resulting in a loss of all or part of the investment.

Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us may dilute your shareholding and any sale of Equity Shares by our Promoters and other major shareholders may adversely affect the trading price of the Equity Shares.

We may be required to finance our growth through future equity offerings. Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options may dilute your shareholding. The disposal of Equity Shares by our Promoters or any of our Company’s other principal shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. Further, we cannot assure you that our Promoters and other major shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

70. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment. As a result of these factors, investors may not be able to resell their Equity Shares at or above the Issue Price.

71. *Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measures (ASM) and Graded Surveillance Measures (GSM) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.*

On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may lead to us triggering the parameters listed by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are covered under such surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in relation to trading of our Equity Shares such as limiting trading frequency (for example,

trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

72. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may face more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

73. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the BSE SME in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the BSE SME. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

74. *Any future issuance of Equity Shares may dilute your shareholding and sale of our Equity Shares by our Promoters or other shareholders may adversely affect the trading price of the Equity Shares.*

Any future equity issuances by us, including in a primary offering, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

75. *There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder's ability to sell for the price at which it can sell, equity shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

76. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company having share capital and incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equities shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by the equity shareholders of such company.

However, if the law of the jurisdiction that you are located in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell them for your benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional ownership position may be diluted and your interests in our Company may be reduced.

77. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two Working Days from the Issue/ Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Issue/ Offer Closing Date. There could also be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the

Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

78. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under the current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold using any other platform other than on a recognized stock exchange and on which no STT has been paid, are subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹ 100,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 10% (plus applicable surcharge and cess). Unrealized capital gains earned on listed equity shares up to January 31, 2018, continue to be tax-exempted in such cases. Further, STT will be levied and collected by an Indian stock exchange if the equity shares are sold on a stock exchange. With respect to capital gains arising in an off-market sale, long term capital gains are subject to tax at the rate of 10% (plus applicable surcharge and cess) without the exemption of ₹ 100,000. Short-term capital gains, arising from the sale of such equity shares on a stock exchange would be subject to tax at the rate of 15% (plus applicable surcharge and cess), while short term capital gains arising in an off-market sale would be subject to tax at a higher rate of 40% (plus applicable surcharge and cess) in the case of foreign companies and 30% (plus applicable surcharge and cess) in the case of other non-resident taxpayers.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020. It clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our Company's business and operation.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. In cases where the seller is a non-resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Additionally, the Finance Act, 2020 does not require dividend distribution tax to be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. Historically, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity shares.

79. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager have appointed Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

Our Restated Financial Statements, including the financial statements provided in this Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For details, refer chapter titled "**Presentation of Financial, Industry and Market Data**" beginning on Page 14 of this Draft Prospectus.

Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited. India has decided to adopt the "Convergence of its existing standards with IFRS" and not the "International Financial Reporting Standards" ("IFRS"), which was announced by the MCA, through the press note dated January 22, 2010. These "IFRS based / synchronized Accounting Standards" are referred to in India as IND (AS). Public companies in India, including our Company, may be required to prepare annual and interim financial statements under IND (AS). The MCA, through a press release dated February 25, 2011, announced

that it will implement the converged accounting standards in a phased manner after various issues, including tax related issues, are resolved. Further, MCA Notification dated February 16, 2015, has provided an exemption to the Companies proposing to list their shares on the SME Exchange as per Chapter IX of the SEBI ICDR Regulations and hence the adoption of IND (AS) by a SME exchange listed Company is voluntary. Accordingly, we have made no attempt to quantify or identify the impact of the differences between Indian GAAP and IFRS or to quantify the impact of the difference between Indian GAAP and IFRS as applied to its financial statements. There can be no assurance that the adoption of IND-AS will not affect our reported results of operations or financial condition. Any failure to successfully adopt IND-AS may have an adverse effect on the trading price of our Equity Shares. Currently, it is not possible to quantify whether our financial results will vary significantly due to the convergence to IND (AS), given that the accounting principles laid down in the IND (AS) are to be applied to transactions and balances carried in books of accounts as on the date of the applicability of the converged standards (i.e., IND (AS)) and for future periods.

Moreover, if we volunteer for transition to IND (AS) reporting, the same may be hampered by increasing competition and increased costs for the relatively small number of IND (AS)-experienced accounting personnel available as more Indian companies begin to prepare IND (AS) financial statements. Any of these factors relating to the use of converged Indian Accounting Standards may adversely affect our financial condition.

80. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue price is based on numerous factors and may not be indicative of the market price for our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that you will be able to resell your Shares at or above the Issue Price. Among the factors that could affect our Share price are: quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net profit and income; changes in income or earnings estimates or publication of research reports by analysts; speculation in the press or investment community; general market conditions; and domestic and international economic, legal and regulatory factors unrelated to our performance.

81. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers, please refer to the chapter at titled "**General Information**" on page 49 of this Draft Prospectus.

82. *Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application.*

Pursuant to the SEBI ICDR Regulations, Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their application (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an application. While our Company is required to complete Allotment pursuant to the issue within six Working Days from the Bid/ Issue Closing Date, events affecting the Applicants decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the applicant's ability to sell the Equity Shares Allotted pursuant to the issue or cause the trading price of the Equity Shares to decline on listing.

83. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance

with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

The higher inventory days in Fiscal 2021 is attributable to slow off-take of goods due to COVID-19 pandemic which was rationalised during the subsequent financial years.</p> <p>Considering the increase in revenue, offer seamless supply of raw materials to our customers, our inventory days for Fiscal 2024 and Fiscal 2025 is estimated at 20 days. INTRODUCTION

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. India's gross domestic product (GDP) at current prices in the second quarter (Q2) of 2023-24 is estimated to be Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in Q2 of 2022-23, showing a growth rate of 9.1%. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24. In 2023-24 (April-December), India's service exports stood at US\$ 247.92 billion. Furthermore, India's overall exports (services and merchandise) in 2023-24 (April-December) were estimated at US\$ 565.04 billion. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

MARKET SIZE

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 296.58 trillion (US\$ 3.56 trillion) in 2023-24. Additionally, the Nominal GDP at current prices in Q2 of 2023-24 was Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in 2022-23, estimating a growth of 9.1%. As of 03rd October 2023, India is home to 111 unicorns with a total valuation of US\$ 349.67 Billion. Out of the total number of unicorns, 45 unicorns with a total valuation of US\$ 102.30 Billion were born in 2021 and 22 unicorns with a total valuation of \$ 29.20 Billion were born in 2022. India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time period. The current account deficit stood at US\$ 8.3 billion, or 1% of GDP, in the second quarter of fiscal 2023-24 as compared to US\$ 9.2 billion or 1.1% of GDP in the preceding quarter.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. In the budget of 2023-24, capital expenditure took lead by steeply increasing the capital expenditure outlay by 37.4 % in BE 2023-24 to Rs.10 lakh crore (US\$ 120.12 billion) over Rs. 7.28 lakh crore (US\$ 87.45 billion) in RE 2022-23. reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

INDIA'S PAPER AND PACKAGING INDUSTRY

Introduction

Packaging is an essential component of almost every product. A product's packaging acts as an 'eye catcher', allowing it to stand out from competing goods in today's market environment, which faces stiff competition, and therefore, an edge is required for the product to outshine its rival. Packaging is also instrumental in conveying the product's message to consumers and helps in establishing the visual appeal of a brand; hence, marketers view product packaging as the best possible opportunity to attract consumers to their product. Moreover, the product's packaging is designed to capitalise on the impulse shopping behaviour, especially in large super market chains that account for a significant proportion of purchases made by an average consumer. The main functions of packaging besides marketing is to transmit information, protect the product, provide convenience and add security. Paper and paper products are a major source of materials used to package goods. Paper finds application in packaging due to the many environmental concerns arising from plastic usage. The capacity to recycle paper more than once, along with how simple it is to deal with it as a waste product, serves as an essential method of reducing pollution and costs to an extent.

TYPES OF PACKAGING

The packaging industry can be categorised into two segments: flexible and rigid.

- The rigid sector accounts for 36% of India's total packaging. Corrugated and paperboard boxes are an example of a rigid packaging category that are made using paper as a raw material. These boxes are considered to be one of the safest and most effective methods for packaging and transporting goods. The cellular structure of corrugated boxes, in addition to being lightweight, has great compressive strength, toughness and impact resistance. The procedure of lining, laminating or coating the boxes can assist them to withstand moisture and other harmful elements, protecting the quality and longevity of the product. The packaging of both industrial and consumer items requires corrugated board boxes. They are used for packaging a variety of commodities including textiles, fruits, vegetables, potteries, chemicals and pharmaceuticals.
- The flexible sector comprises 64% of the total packaging. The application of paper in flexible packaging is in the form of bags, sachets, envelopes and so on. The flexible pouch market, which enables small-quantity packaging, has gained momentum due to demand for small packs. Compared to other types of packaging, flexible paper packaging is less expensive, requires less material and is lighter in weight. Flexible paper packaging has become more popular as a result of its high efficiency and low cost. Flexible packaging is a crucial component of versatile packaging, which includes packaging for food and drink, personal care, home care and healthcare, among others.

INDIA PACKAGING INDUSTRY OVERVIEW

The paper and packaging sector in India is growing rapidly and has significant potential for future expansion. The industry was valued at \$50.5 billion in 2019 and is anticipated to reach \$204.81 billion by 2025, registering a CAGR of 26.7% from 2020 to 2025. The growth in the sector is being driven by a surge in e-commerce, food processing, pharmaceuticals, FMCG, manufacturing industry and healthcare sector. Additionally, numerous government initiatives including 'Make in India' had positive impact on the packaging industry. The paper and packaging industry is currently the fifth largest sector in the Indian economy and has the potential to achieve pricing levels that are about 40% cheaper compared to European regions.

The Indian packaging sector has distinguished itself with its exports of flattened cans, printed sheets and components, crown cork, lug caps, plastic film laminates, craft paper, paper board and packaging machinery. The packaging segment with the fastest growth include laminates and flexible packaging, particularly PET and weaved sacks.

India uses paper as a major source of packaging. The paper industry accounts for 5% of global production. Demand for paper continues to rise for the packaging of FMCG products and ready-to-eat food. Packaging-grade paper accounts for 55% of the main types of paper produced domestically in the paper and paperboard industry.

PILLARS OF GROWTH:

GOVERNMENT INITIATIVE

The government has launched the National Packaging initiative which focuses on the following measures to promote the sector:

- Set up guidelines and certain requirements for design and material of packaging used;
- Promote the process of moving in bulk quantities;
- Focus on promotion of centralised industrial activity by encouraging application of necessary and sophisticated infrastructure such as specialised logistic parks with appropriate facilities as well as packaging labs to work on designs and carry out tests;
- Encourage processes to reduce packaging waste by establishing material recovery facilities (MRFs);
- Support domestic business to manufacture sophisticated packaging materials;
- Develop training facilities and certified programmes of the highest order to maintain availability of skilled labour.

ROAD AHEAD

The Indian packaging sector is diverse and caters to a broad sector of industries and products. The government, through its positive promotion of the Make in India policy, has set the packaging sector to grow rapidly due to companies setting up their manufacturing units in the country and using these domestic facilities as a base to export to other countries. The government has implemented a strategy to lower tax rates for new manufacturing companies in order to turn India into a global manufacturing hub. Furthermore, given the need for domestic firms to compete with MNCs, the government is planning to further level the sector among players by launching various initiatives with the aim of promoting the development of packaging, along with technological advancements.

Coated Paper and Board

Coated paper and board are paper and paperboard types treated with a surface coating, enhancing their properties for various applications. This coating, applied to one or both sides, offers benefits like improved print quality by creating a smoother surface, resulting in sharper text and images. It also enhances brightness and whiteness, making them visually appealing for materials like magazines and brochures. Coatings resist ink absorption, ensuring colours remain vibrant and lines sharp, while also providing durability and moisture resistance, crucial for handling and longevity. Clay coatings are commonly used for glossy or matte finishes, while specialty coatings like polymers or UV coatings offer added durability and protection. The choice of coating depends on specific printing needs and desired final product characteristics.

The coated paper supplied by us is used by printers for printing of annual reports, calendars, publicity materials, brochures, posters, books cover, and magazines and manufacturers for manufacture of label stock, stickers and sachets.

Coating Base

Coating base paper refers to a type of paper specifically engineered to serve as the substrate for various coatings, typically applied in the production of coated papers. It acts as the foundation upon which the coating materials are applied to enhance the paper's properties such as smoothness, gloss, printability, and ink receptivity. The base paper itself is usually made from wood pulp or other fibrous materials through a papermaking process, ensuring a stable and uniform surface for the subsequent coating application. Coatings applied to this base paper can vary widely depending on the intended use of the final product, ranging from clay coatings for glossy finishes to pigment coatings for matte surfaces. Coating base paper is commonly utilized in the production of high-quality printing papers, magazines, catalogues, and packaging materials where excellent print reproduction and visual appeal are essential. The selection of coating base paper is crucial in achieving desired printing results, as it influences the final appearance and performance of the coated paper product.

Our Company supplies three types of coated base papers, namely, sublimation base paper, thermal base paper and NCR base paper. Sublimation base paper is employed by businesses involved in the sublimation printing process, such as textile manufacturers. This specialized paper acts as a carrier for sublimation inks, which, when heated, transform into a gas and bond with the surface of the target material, resulting in vibrant and durable prints on items like apparel, signage, and promotional goods. Thermal base paper, on the other hand, finds its primary application in thermal printing technologies, commonly used in point-of-sale systems, label printing, fax machines, and certain types of receipts. Industries such as retail, hospitality, healthcare, and logistics rely on thermal base paper for producing clear, high-resolution prints without the need for ink or toner. NCR base paper caters to businesses requiring carbonless copy paper solutions, such as financial institutions, logistics companies, and administrative offices. NCR paper enables the creation of duplicate or triplicate copies of written or printed documents without the mess of carbon sheets. It utilizes microencapsulated dye and clay coatings to transfer marks from one sheet to another when pressure is applied during writing or printing, making it ideal for invoices, delivery notes, order forms, and other business forms requiring multiple copies. Each of these base papers serves a distinct purpose in their respective industries, facilitating efficient and high-quality printing processes tailored to specific needs.

Speciality Paper

Specialty papers such as parchment paper, ledger paper, rail bond paper, cup stock, MG poster, carry bag paper, and natural shade (diaries) paper serve various specific purposes across different industries. Parchment paper, known for its non-stick and heat-resistant qualities, finds extensive use in baking and cooking as it prevents food from sticking to pans and trays while ensuring even heat distribution. Ledger paper, recognized for its durability and archival quality, is commonly used in accounting and record-keeping due to its ability to withstand frequent handling and storage over extended periods without deterioration.

Rail bond paper, designed to withstand rough handling and extreme conditions, is utilized in the transportation sector for printing railway tickets, ensuring durability throughout the journey. Cup stock, with its excellent barrier properties, is essential in the production of disposable cups, providing resistance to moisture and maintaining the integrity of the cup's contents. MG (machine glazed) poster paper is favoured for its smooth surface and high printability, making it ideal for advertising posters, packaging, and promotional materials. Carry bag paper, often reinforced for strength, is employed in the production of shopping bags and packaging solutions, offering both durability and environmental sustainability. Finally, natural shade paper, commonly used in diaries and notebooks, provides a pleasing aesthetic while ensuring smooth writing surfaces, making it popular in stationery products and personal organization tools.

The adhesive is activated by pressure, allowing the paper to stick to surfaces upon application. This type of paper is commonly used in various industries for labelling, packaging, and signage applications. It offers convenience and versatility as it eliminates the need for additional adhesives or water for application.

Self-adhesive paper finds widespread use in product labelling, from food and beverage packaging to pharmaceuticals and cosmetics. It provides manufacturers with a convenient solution for branding their products and conveying important information such as ingredients, usage instructions, and branding. Additionally, self-adhesive paper is extensively used in the printing industry for creating stickers, decals, and promotional materials. Its ease of use and ability to adhere to different surfaces make it a preferred choice for businesses seeking efficient labelling and promotional solutions. Overall, self-adhesive paper offers a cost-effective and efficient way to enhance branding and communication efforts across various industries.

Hi-bright Maplitho

Hi-bright Maplitho is a type of paper renowned for its high brightness and smooth texture. It is commonly used in various printing applications where a premium finish and vivid colors are desired. The term "Maplitho" refers to its specific manufacturing process, which involves pressing the paper pulp between highly polished metal rollers to achieve a smooth and glossy surface. This process not only enhances the paper's appearance but also improves its printability, making it suitable for a wide range of printing techniques such as offset printing, digital printing, and lithography.

Due to its excellent print quality and brightness, Hi-bright Maplitho finds extensive usage in the production of various printed materials such as brochures, flyers, catalogues, posters, magazines, and high-end advertising materials. It typically comes in standard sizes such as letter (8.5 x 11 inches) or A4 (210 x 297 millimetres) and is made from wood pulp or recycled paper fibres. Copier paper is designed to run smoothly through printers, copiers, and fax machines without jamming or causing smudges, making it ideal for everyday printing needs.

One of the primary uses of copier paper is for printing documents such as letters, memos, reports, presentations, and spreadsheets. It is also commonly used for photocopying documents, whether it's duplicating important paperwork or reproducing study materials. Additionally, copier paper is often utilized for printing school assignments, handouts, flyers, and other educational materials. Its versatility and affordability make it a staple in any office or educational setting, where large quantities of printed materials are required regularly. Furthermore, copier paper can be used for casual purposes such as jotting down notes, sketching, or crafting, showcasing its widespread applicability in daily tasks beyond formal documentation.

Industrial Paper

Industrial papers such as Machine Glazed (MG) poster, acid-free poster, TD loaded MG poster, AR grade poster, and CCK (Clay Coated Kraft) are specialized types of paper designed for specific purposes across various industries. MG poster paper, known for its smooth surface, is often used in packaging, printing, and labelling applications due to its ability to hold vibrant colors and provide excellent print quality. Acid-free poster paper is manufactured to resist yellowing and deterioration over time, making it ideal for archival purposes, fine art printing, and high-quality poster production where longevity is essential.

TD loaded MG poster paper, on the other hand, is engineered with a special surface treatment to enhance its printability and durability, making it suitable for outdoor signage, banners, and displays. AR grade poster paper is formulated with specific properties such as high stiffness and opacity, making it suitable for applications where rigidity and opacity are critical, such as book covers and high-end packaging. CCK (Clay Coated Kraft) paper is a type of paper coated with clay on one or both sides, offering enhanced printability and surface smoothness, commonly used in food packaging, labels, and printing applications where a premium appearance is desired. Each of these industrial papers serves distinct purposes in various sectors, catering to specific requirements such as print quality, durability, longevity, and surface characteristics, contributing to the diverse range of materials available for modern industrial and commercial applications.

The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till October 15, 2020.

In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where Government approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company.

Municipality Laws

The Consumer Protection Act, 1986 (the "COPRA")

The COPRA provides for the protection of the interests of consumers and the settlement of consumer disputes. The COPRA sets out a mechanism for consumers to file complaints against, inter alia, service providers in cases of deficiencies in services, unfair or restrictive trade practices and excessive pricing. The terms "defect" and "deficiency" are broadly defined and cover any kind of fault, imperfection or shortcoming in the quality, quantity, potency, purity or standard. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the COPRA at the national, state and district levels. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to inter alia remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-compliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

E. Taxation Laws

The Income Tax Act, 1961

The Income Tax Act, 1961 deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of this Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The

maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of Income is compulsory for all assesses. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act.

The Goods and Services Tax Act, 2017

Goods and Services Tax (GST) is considered to be the biggest tax reform in India since independence. It will help realise the goal of “One Nation-One Tax-One Market.” GST is expected to benefit all the stakeholders – industry, government and consumer.

Goods and Services Tax (GST) is an indirect tax throughout India and was introduced as The Constitution (One Hundred and Twenty Second Amendment) Act 2017, following the passage of Constitution 122nd Amendment Bill. The GST is governed by GST Council and its Chairman is Union Finance Minister of India - Arun Jaitley. This Act has been made applicable with effect from 1st July 2017. With the introduction of GST all central, state level taxes and levies on all goods and services have been subsumed within an integrated tax having two components – central GST and a state GST. Thus there will be a comprehensive and continuous mechanism of tax credits. The Central government passed four sets of GST Acts in the Budget session this year. These were Central GST Act, 2017; Integrated GST Act, 2017; Union Territory GST Act, 2017 and GST (Compensation to States) Act, 2017. The Acts were approved by the Parliament after they were introduced as the part of the Money Bill. Following the passage of GST Acts, the GST council has decided 4 tax rate slabs viz., 5%, 12%, 18% and 28% on supply of various goods and services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single State will be levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that State. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption- based tax, therefore, taxes are paid to the State where the goods or services are consumed and not the State in which they were produced.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are

considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in restated statement of profit and loss).

(c) Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer net of variable consideration e.g. discounts, volume rebates, any payments made to a customer (unless the payment is for a distinct good or service received from the customer) and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control over a product or service to a customer. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

The Company provides incentives to its users in various forms. Incentives which are consideration payable to the customer that are not in exchange for a distinct good or service are generally recognized as a reduction of revenue.

Where the Company acts as an agent for selling goods or services, only the commission income is included within revenue. The specific revenue recognition criteria described below must also be met before revenue is recognized. Typically, the Company has a right to payment before or at the point that services are delivered. Cash received before the services are delivered is recognised as a contract liability. The amount of consideration does not contain a significant financing component as payment terms are less than one year.

Sale of Goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer. Sales are presented net of Excise duty collected on behalf of the Government, trade discounts and returns, as applicable.

Sale of services

Revenue from services is recognized when the control in services is transferred as per the terms of the agreement with customer i.e. as and when services are rendered. Revenues are disclosed net of the Goods and Service tax charged on such services. In terms of the contract, excess of revenue over the billed at the year-end is carried in the restated statement of assets and liabilities as unbilled revenue under other financial assets where the amount is recoverable from the customer without any future performance obligation. Cash received before the services are delivered is recognised as a contract liability.

Other operating revenue

Where the Company is contractually entitled to receive claims/compensation in case of non-discharge of obligations by customers, such claims/compensations are measured at amount receivable from such

customers and are recognised as other operating revenue when there is a reasonable certainty that the Company will be able to realize the said amounts.

Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head “other income” in the restated statement of profit and loss account.

(d) Taxes

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the India where the Company operates and generates taxable income.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax

Credit of MAT is recognised as deferred tax asset only when it is probable that taxable profit will be available against which the credit can be utilised. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the restated statement of profit and loss account. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is no longer probable that the Company will pay normal income tax during the specified period.

Taxes paid on acquisition of assets or on incurring expenses

Assets are recognised net of the amount of GST paid, except when the tax incurred on a purchase of assets is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset.

Expenses are recognised net of the amount of GST paid, except when the tax incurred on a purchase of services is not recoverable from the taxation authority, in which case, the tax paid is expensed off in restated statement of profit and loss.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/ non- current assets or other current liabilities in the restated statement of assets and liabilities.

(e) Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment, if any. Property, plant and equipment is depreciated on a straight-line value basis to its residual value over its estimated useful life.

Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Company and cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All repair and maintenance are charged to restated statement of profit and loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under the non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work in progress'.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the restated statement of profit and loss on the date of disposal or retirement.

Depreciation is provided using the written down value method and charged to restated statement of profit and loss as per the useful life prescribed under Schedule II of the Companies Act, 2013, given below:

Assets	Useful life (Years)
Factory Building	30
Staff Quarter	60
Factory Road	30
Plant and Machinery	15
Die Heads	15
Factory Equipment	15
Laboratory Equipment	10
Electrical Installation	10
Office Equipment	5
Air Conditioners	5
Furniture and Fixtures	10
Computer	3 to 6
Vehicle	8 to 10

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(f) Intangible assets

Separately acquired intangible assets, such as software are measured initially at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the restated statement of profit and loss in the year in which the expenditure is incurred. Intangible assets with finite useful lives are carried at cost and are amortised on a written down value basis over their estimated useful lives and charged to restated statement of profit and loss.

Software and licenses acquired are amortized at the 5 years on straight line value method.

The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the restated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the restated statement of profit and loss when the asset is derecognized.

(g) Capital Work-in-progress

Cost and direct expense incurred for construction of assets or assets to be acquired and which are not ready for use are disclosed under "Capital Work-in-progress"

(h) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in the restated statement of profit and loss in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(i) Impairment

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

(j) Provisions and contingencies

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the restated statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does have recognized a contingent commitment in the restated financial information.

(k) Earnings/ (loss) per share (EPS)

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit/ (loss) attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

(l) Segment reporting

The Company is engaged in one segment only i.e. company is engaged in the business of acting as a Supply Chain Management company for printing paper industry, trading of various varieties of printing papers, chemicals and other allied products, and hence there are no separate reportable segment.

(m) Use of estimates

The Company is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, disclosure of contingent liabilities at the date of the Restated Financial Information and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The Company bases its estimates on historical experience.

(n) Exceptional Items

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the Restated Financial Information.

(o) Inventories

- i) Raw materials, packing materials and stores & spares are valued at lower of cost and net realizable value. Cost of raw materials, packing materials are determined on First in First out (FIFO) basis and cost of stores & spares are determined on weighted average cost method.
- ii) Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on FIFO basis.
- iii) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(p) Government grants and subsidies

- i) Grants and subsidies from the government are recognized when there is reasonable assurance that (a) the company will comply with the conditions attached to them, and (b) the grant/subsidy will be received.
- ii) Where the grant relates to an asset, it is shown as a reduction from the gross value of the asset concerned in arriving at its book value. The grant is thus recognised in the statement of profit and loss over the useful life of the asset by way of reduced depreciation charge.

- iii) Where the grant relates to reimbursement of interest on term loan, it is recognised as a reduction from the finance cost of the term loan concerned.

We are primarily engaged in the business of providing supply chain solution to industries where paper such as, coating based paper, food grade paper, machine glazed paper, pressure sensitive adhesive paper, forms a major part of their raw materials. As our business, we understand the specific requirements of our client, curate the technical specification based on their requirements, identify manufacturer who specialise in the paper, place order, test the sample, procure the material in the desired quantity and supply to our customers. We believe we act as a catalyst between the manufacturer of paper products such as disposable cup manufacturers, disposable paper straw manufacturers, ATM and POS paper manufacturer, and paper manufacturer. Accordingly, we supply different kinds of paper such as sublimation base paper, thermal base paper, straw paper, paper for cone sleeve, cup stock paper, poster paper, security PSA sheet, transcode PSA sheet, filmic & digital PSA sheet, removable PSA sheet, permanent PSA sheet, C2S paper and board, C1S paper, hi-bright paper, low- bright paper, High-Strength Paper etc .We source our requirements from papers made of waste recycled papers and bagasse base (agricultural waste) and virgin pulp with wide range from 24-350 grams per square metre ("GSM").

Principal factors affecting our Results of Operations:

Our business is subjected to various risks and uncertainties, including those discussed in the chapter titled "**Risk Factors**" beginning on page 22 of this Draft Prospectus. Our results of operations and financial conditions are affected by numerous factors including the following:

Conditions affecting the end user industries

We are primarily engaged in the business of providing supply chain solution to industries where paper such as, coating based paper, food grade paper, machine glazed paper, pressure sensitive adhesive paper, forms a major part of their raw materials. Accordingly, we supply different kinds of paper such as sublimation base paper, thermal base paper, straw paper, paper for cone sleeve, cup stock paper, poster paper, security PSA sheet, transcode PSA sheet, filmic & digital

PSA sheet, removable PSA sheet, permanent PSA sheet, C2S paper and board, C1S paper, hi-bright paper, low-bright paper, High-Strength Paper, etc. Our business comprises of understanding the specific requirements of our client, curate the technical specification based on their requirements, identify manufacturer who specialise in the required paper, place order, test the sample, procure the material in the desired quantity and supply to our customers. We believe we act as a catalyst between the manufacturer of paper products and the paper mills. We offer paper in different grades ranging from 24-350 grams per square meter ('GSM'), which is manufactured from waste recycled papers, bagasse base (agricultural waste) and virgin pulp.

The paper products manufactured by our customers have a variety of end use applications and are used in industry such as FMCG, textiles, heat sensitive printers like ATM and POS Paper, restaurants, food and beverages industry automobiles, e-commerce, pharmaceuticals, white goods packaging industry, security labels, advertising industries, educational sector, utensils industry, commercial printing industry, publication industry, other packaging items for industrial and household purpose, paper bags, etc.

Accordingly, sales of our products are directly dependent on the performance of these Industries. The end user Industries and geographic markets which our products are targeted at may be impacted by global economic or industry conditions, including seasonal trends, compliance with evolving regulatory requirement, government initiatives, trade agreements and other factors. Any significant downturns in such industries may affect our revenues.

Cost and availability of raw materials

The availability, cost and quality of certain raw materials such as hardwood, bamboo and imported pulp are key to our results of operations since, this affects the price of paper. Our purchase of stock-in-trade comprised 92.80% of our revenue from operations in the nine months period ended December 31, 2023, 97.06% of our revenue from operations in Fiscal 2023, 95.08% of our revenue from operations in Fiscal 2022 and 107.08% of our revenue from operations in Fiscal 2021. Supply of paper is highly dependent on availability of bamboo / pulp wood / recycled materials to the paper mills from whom we source our products. Further, our supplier may also be dependent on pulps of different varieties which are imported from countries such as Indonesia, Sweden, Finland and USA, for manufacturing high strength packaging board.

The cost and supply of these raw materials depend on factors which are not under our control including, availability of such raw materials, competition, productivity, transportation costs, foreign exchange fluctuations, and import duties.

Competition

We face huge competition in our industry from the existing players and new entrants. As paper making business is easy to start with, person or organization who is capable of investment in large projects, can easily enter into the market and compete with the business of our Company. Further, we also face competition from dealers and distributors who may have better arrangement with the paper mills. If there is a change in trends and availability of products with cheaper price from existing players, our customers are able to establish a relationship directly with our suppliers, it may pressurize us on pricing without compromising product quality which may put strain on our profit margins. Further, the existing players in the industry compete by providing competitive quality products. Various companies manufacture products that are similar to the products we supply and therefore pose competition to such an extent.

We believe the principal elements of competition in paper industry are quality of material supplied, price and timely delivery. The sustained demand for our products, our ability to remain competitive in the markets we operate in, and our ability to expand and meet the market demand may have a material impact on our business, operations and financial condition.

Macroeconomic conditions

Our results of operations may be materially affected by conditions in the global capital markets and the economy generally in India and elsewhere around the world. Performance of global paper and packaging board industry is dependent, among other things, on economic growth and in particular on industrial growth.

2.2. Summary of significant accounting policies

(a) Current versus non-current classification

The Company presents assets and liabilities in the restated statement of assets and liabilities based on current / non-current classification.

An asset is classified as current when it is expected to be realised or intended to be sold or consumed in normal operating cycle, held primarily for the purpose of trading, expected to be realised within twelve months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when it is expected to be settled in normal operating cycle, it is held primarily for the purpose of trading, it is due to be settled within twelve months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities, are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Foreign currencies

Functional and presentation currency

Items included in the Restated Financial Information of the Company are measured using the currency of the primary economic environment in which it operates i.e. the “functional currency”. The Company’s restated financial information is presented in INR.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company’s at their respective functional currency at exchange rates prevailing at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in restated statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in restated statement of profit and loss).

(c) Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer net of variable consideration e.g. discounts, volume rebates, any payments made to a customer (unless the payment is for a distinct good or service received from the customer) and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control over a product or service to a customer. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

The Company provides incentives to its users in various forms. Incentives which are consideration payable to the customer that are not in exchange for a distinct good or service are generally recognized as a reduction of revenue.

Where the Company acts as an agent for selling goods or services, only the commission income is included within revenue. The specific revenue recognition criteria described below must also be met before revenue is recognized. Typically, the Company has a right to payment before or at the point that services are delivered. Cash received

before the services are delivered is recognised as a contract liability. The amount of consideration does not contain a significant financing component as payment terms are less than one year.

Sale of Goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer. Sales are presented net of Excise duty collected on behalf of the Government, trade discounts and returns, as applicable.

Sale of services

Revenue from services is recognized when the control in services is transferred as per the terms of the agreement with customer i.e. as and when services are rendered. Revenues are disclosed net of the Goods and Service tax charged on such services. In terms of the contract, excess of revenue over the billed at the year-end is carried in the restated statement of assets and liabilities as unbilled revenue under other financial assets where the amount is recoverable from the customer without any future performance obligation. Cash received before the services are delivered is recognised as a contract liability.

Other operating revenue

Where the Company is contractually entitled to receive claims/compensation in case of non-discharge of obligations by customers, such claims/compensations are measured at amount receivable from such customers and are recognised as other operating revenue when there is a reasonable certainty that the Company will be able to realize the said amounts.

Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head “other income” in the restated statement of profit and loss account.

(d) Taxes

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the India where the Company operates and generates taxable income.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax

Credit of MAT is recognised as deferred tax asset only when it is probable that taxable profit will be available against which the credit can be utilised. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the restated statement of profit and loss account. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is no longer probable that the Company will pay normal income tax during the specified period.

Taxes paid on acquisition of assets or on incurring expenses

Assets are recognised net of the amount of GST paid, except when the tax incurred on a purchase of assets is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset.

Expenses are recognised net of the amount of GST paid, except when the tax incurred on a purchase of services is not recoverable from the taxation authority, in which case, the tax paid is expensed off in restated statement of profit and loss.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/ non-current assets or other current liabilities in the restated statement of assets and liabilities.

(e) Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment, if any. Property, plant and equipment is depreciated on a straight-line value basis to its residual value over its estimated useful life.

Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Company and cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All repair and maintenance are charged to restated statement of profit and loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under the non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work in progress'.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the restated statement of profit and loss on the date of disposal or retirement.

Depreciation is provided using the written down value method and charged to restated statement of profit and loss as per the useful life prescribed under Schedule II of the Companies Act, 2013, given below:

Assets	Useful life (Years)
Factory Building	30
Staff Quarter	60
Factory Road	30
Plant and Machinery	15
Die Heads	15
Factory Equipment	15
Laboratory Equipment	10
Electrical Installation	10
Office Equipment	5
Air Conditioners	5
Furniture and Fixtures	10
Computer	3 to 6
Vehicle	8 to 10

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(f) Intangible assets

Separately acquired intangible assets, such as software are measured initially at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the restated statement of profit and loss in the year in which the expenditure is incurred. Intangible assets with finite useful lives are carried at cost and are amortised on a written down value basis over their estimated useful lives and charged to restated statement of profit and loss.

Software and licenses acquired are amortized at the 5 years on straight line value method.

The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the restated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the restated statement of profit and loss when the asset is derecognized.

(g) Capital Work-in-progress

Cost and direct expense incurred for construction of assets or assets to be acquired and which are not ready for use are disclosed under “Capital Work-in-progress”

(h) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in the restated statement of profit and loss in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(i) Impairment

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years.

(j) Provisions and contingencies

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the restated statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingencies

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does have recognized a contingent commitment in the restated financial information.

(k) Earnings/ (loss) per share (EPS)

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit/ (loss) attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

(l) Segment reporting

The Company is engaged in one segment only i.e. company is engaged in the business of acting as a Supply Chain Management company for printing paper industry, trading of various varieties of printing papers, chemicals and other allied products, and hence there are no separate reportable segment.

(m) Use of estimates

The Company is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, disclosure of contingent liabilities at the date of the Restated Financial Information and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The Company bases its estimates on historical experience.

(n) Exceptional Items

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the Restated Financial Information.

(o) Inventories

i) Raw materials, packing materials and stores & spares are valued at lower of cost and net realizable value. Cost of raw materials, packing materials are determined on First in First out (FIFO) basis and cost of stores & spares are determined on weighted average cost method.

ii) Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on FIFO basis.

iii) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(p) Government grants and subsidies

i) Grants and subsidies from the government are recognized when there is reasonable assurance that (a) the company will comply with the conditions attached to them, and (b) the grant/subsidy will be received.

ii) Where the grant relates to an asset, it is shown as a reduction from the gross value of the asset concerned in arriving at its book value. The grant is thus recognised in the statement of profit and loss over the useful life of the asset by way of reduced depreciation charge.

iii) Where the grant relates to reimbursement of interest on term loan, it is recognised as a reduction from the finance cost of the term loan concerned.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA.

While the Industrial Policy, 1991 has prescribed the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government of India has from time to time made policy pronouncements on foreign direct investment ("**FDI**") through press notes and press releases.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, GoI, earlier known as Department of Industrial Policy and Promotion ("**DPIIT**") has issued the Consolidated FDI Policy Circular of 2020 ("**FDI Policy**") by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by DPIIT that were in force and effect as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Foreign investment of upto 100% is currently permitted under the automatic route for our Company.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route as per the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits provided under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investors**"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India, has also made a similar amendment to the FEMA Rules. Each Applicant should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers, and sales occur.
